PROSPECTS OF THE MEDIATORS.

Contrary to the habits of men with Spanish blood in their yeins, the medistors between the United States and the Huerta government of Mexico are hurrying their work. They must needs hurry lest there be no Huerta government to mediate with. The federals no longer show fight, but abandon important points like Saltillo to retreat southward. Their present purpose seems to be to concentrate a last stand at Queretaro. Ther the rebels are preparing to close in on them from all directions. But they may not fight even there, for the officers seem not to have much faith in the fidelity of their men and cannot the fidelity of their men and control of view with equanimity the prospect of being deserted on the field of battle distributed and that gratitude which is a sense of favors to come has grown is a sense of favors to come has grown It becomes the mediators to hurry lest the constitutionalists be in practically undisputed control of the whole country before they have agreed with the Mexican delegates and President Wilson on a plan of pacification. If Carrange and Villa in control at Mexico City should inform the mediators that they will pacify and govern Mexico spring from the thought of hopes Mingled they will pacify and govern Mexico without foreign aid or interference, the gentlemen in session at Niagara Falls would be in a humiliating position

The Mexican delegates at Niagara Falls figure no longer as representatives of Huerta. IS HE CONSCIOUS OF FAILURE?

One by one the fair promises made by President Wilson before his inauguration are being forgotten. We have none of that "pitliess publicity," of doing business in the open, which he promised. He no longer meets newspaper men to talk over public affairs He confers in secret with party leaders in Congress. Little of the proceedings of Cabinet meetings leaks out. The explanation is that the Presi-

dent chafes under criticism. He can-not endurs to have men "talk back" and ask for explanations. Therein he shows the infirmity of character of the schoolmaster. He has been accus-tomed to have his class sit mute, drinking in the words of wisdom which fall from his lips, asking questions only to gain more light from the great source of light. To have men calmly assume that their judgment is as good as his, that they may be right

and he wrong, is irritating to the pedagogue. If his opinions cannot he taken as goapel, he will not utter them. These symptoms of irritation, of impatience at criticism, are the outward signs of an inward consciousness that he has failed. They contrast with the erene air wherewith he pressed forward step by step in carrying out his programme during his first year. Then he felt that public opinion was with him and he was fortified by the consciousness that he spoke with its thority. Now he must realize that public opinion is against him on his foreign policy. Then he spoke as the leader of a united party; now his party is divided and some of the severest criticisms of his policies have come

from fellow-Democrats. This being his frame of mind after a scant fifteen months in office, what cesses and failures is being cast up in public mind and in the speeches snow give way, as have others in like postblasted, high purpose miscarried, friends proved false, from the weariness of a long and arduous task almost done and from the prospect of retire nent from the place of power and onspiculty to the ranks of the people! That time will show of what metal he is made. He seems to begin over early

STATE PRESS AND THE ELECTION Half a Century Ago

From The Oregonian of May 25, 1864. Warm Springs Agency, May 22. Donald McKay, with a few of the In-dians, has just arrived from Captain Drake's command. Donald says that about 80 miles from here his party found the Indians and sent back word to Captain Drake for 60 men. He sent 30, a number entirely inadequate. These troops came up about davilisht, when troops came up about daylight, when they charged the Snakes with a view they charged the Snakes with a view to cutting them off from a rocky knoll. Lieutenant Watson, who led the charge at the head of a small body of his men, was shot in the head and subsequently horribly mutilated. By some mistake, Lieutenant McCall, in command, with his party of men, did not get into the fight. One of Donald's Indians was killed; Old Stock Whitney was shot in three places and badfy wounded: Bar-ber, an expressman who went out with Georgé Rundell, had his thigh broken by a shot; of the soldiers, two werd killed and five wounded.
