Booth Polis Big Vote.

The vote for R. A. Booth, unopposed candidate for the Republican nomination for United States Senator, has been compiled in every county of the state, although the returns are not official. His total vote is 69,190, which is approximately 2000 more than the vote cast for either Thomas B. Kay or J. A. Churchill, the unopposed candidate for nomination and re-election for State Treasurer and State Superintendent of Püblic Instruction, respectively.

Treasurer and State Superintendent of Public Instruction, respectively.

Mr. Kay is a popular official and invariably polls a heavy vote. Mr. Booth's friends therefore feel gratified over his showing.

Incomplete returns give B. Lee Paget, of Portland, an eggregate of 256 Democratic votes for the nomination for State Treasurer against 200 for Thomas B. Kay, these names having been written in on the Democratic ballots. Several Named by Two Parties.

J. A. Churchill, Republican candidate for State Superintendent of Public In-struction, also received the Democratic

struction, also received the Democratic momination.

John A. Jeffrey, of Portland, was nominated by the Democrats for Attorney-General. He had no opposition.

O. P. Hoff, Republican candidate for Labor Commissioner, also received the Democratic nomination, according to the incomplete returns, including those of Multhomah County, give F. M. Gill, of Wasco County, 1197 votes for the Progressive nomination for Governor, against 698 for L. H. McMahon.

A close study of the Republican returns show that George M. Brown, Republican nominee for Attorney-General, carried every county in the state excepting Multnomah, which was carried by Frank S. Grant, a resident of this county.

Complete returns in the First Congressional District serve to increase the former lead of W. C. Hawley for the Republican nomination and of Frederick Hollister for the Democratic nomination. Mr. Hawley is the incumbent.

The weather has been cold in the mountains during the past two weeks, he says, and the snow has not yet disappeared from the pass where the road between Rogue River Valley and the Klamath region was built.

A part of the United States engineering force is camped at Wildcat, near the southern entrance to the park, and will begin active operations on that section of the permanent road system before June 1. A part of the super-intendent's road crew is camped at the western entrance, to which point the road from Medford is free from snow. Unless unusually cool weather continues, the highway across the mountains will be open by June 10, after which travel to the park by auto or team will be an easy matter. There is much less snow than usual at this time of the year, and the season will be at least a month early.
