

## LANDING OF ARMS OFFICIAL SURPRISE

Washington Agrees, However,  
That Prevention Would Have  
Violated Armistice.

## AMERICANS ARE ACCUSED

Munitions Reshipped From Ham-  
burg Declared to Have Been Made  
in United States—Pointed out  
Makes Inquiry.

WASHINGTON, May 28.—An official  
statement issued at the Navy Depart-  
ment late tonight said:

"After making every effort to verify  
the reported landing of arms by the  
steamers Bavaria and Ypiranga at  
Puerto Mexico, the Department has  
been unable to confirm the rumor, and  
in view of all the circumstances, is  
disposed to await a confirmation that  
the landing of the arms actually took  
place."

WASHINGTON, May 28.—The landing  
of munitions for General Huerta from  
the German steamers Ypiranga and  
Bavaria at Puerto Mexico was the  
subject of discussion in official  
circles. Cabinet officials generally  
expressed surprise that arms had  
been landed, but it was generally con-  
ceded that nothing could have been  
done by this Government to stop deliv-  
ery of the shipment without a viola-  
tion of the armistice.

Secretary Bryan asserted that he was  
making no further effort to verify the  
information relating to the landing of  
the ammunition.

"We did not expect the arms to be  
landed," said Mr. Bryan. He referred  
to an understanding said to have been  
had with officials of the Hamburg-  
American line that the arms on the Ba-  
varia and Ypiranga would be returned  
to the consignors on foreign shores.

## German Government Without Authority

Secretary Bryan recalled that the  
American Consul-General at Hamburg  
had reported the Hamburg-American  
agent's instructions to the captain of  
the Kronprinzessin Cecilie to refrain  
from discharging his cargo, which was  
consigned to Huerta through Puerto  
Mexico several weeks ago. Similar in-  
structions, Mr. Bryan said, were un-  
derstood to have been given to the  
captains of the Bavaria and Ypiranga.

No agreement between authorized  
representatives of the United States  
and the German government relating  
to this shipment of arms has been re-  
ported. At the German embassy it was  
pointed out that the German govern-  
ment had no legal authority to pre-  
vent the captain of a German merchant  
vessel from engaging in commerce of  
this character, as would be true of  
the United States government in the  
case of an American ship captain con-  
veying arms to a foreign country with  
which the United States was at peace.

All Mexican Ports Are Free.  
There has been no modification of  
the original official statement regard-  
ing the freedom of the Mexican ports.  
This covers even Vera Cruz, where the  
United States forces are in possession.  
Any cargo, even one comprising mili-  
tary supplies, may be landed at Vera  
Cruz and entered in the custom-  
house there.

From German sources comes the in-  
formation that all of these arms and  
ammunition is supposed to be supplied  
by German factories actually made  
in the United States; shipped out of  
New York and Boston to Hamburg and  
reshipped from there to Mexico.  
In the Senate the landing of German  
implements of war at Puerto Mexico  
was the subject of short debate started  
by Senator Reed.

## Pointed out Makes Inquiry

"I do not mean to criticize the Ad-  
ministration, but I cannot see why we  
could stop the landing of arms at Vera  
Cruz and not stop the landing at Puerto  
Mexico," Senator Pointed out de-  
clared. "The guns will shoot the same  
whether landed at Vera Cruz or Puerto  
Mexico."

Senator Lodge replied that the Ad-  
ministration had officially announced  
this country was not at war with Mex-  
ico and hence so long as the United  
States was not actually engaged in  
hostilities, it could not object to the  
landing of imports there.

"There was no need for a German  
cruiser to convey the German ships,"  
Senator Lodge added. "The Germans  
had a right to land arms at Puerto  
Mexico under our present statute, just  
as the Japanese had a right to land  
other day at Salina Cruz. It is to be  
regretted the arms were landed."

## FARMERS WANT DRY STATE

Prosecution of Stop-Look-Listen  
League of Washington Urged.

SPOKANE, Wash., May 28.—The  
Washington-Ideals division of the  
Farmers' Educational and Co-Operative  
Union at the closing session of the an-  
nual meeting here today reaffirmed its  
stand in favor of the statewide prohi-  
bition amendment which is to be voted  
on this fall.

The union also endorsed the Quincy  
trigitation project and bending arrange-  
ment in the present referendum meas-  
ure which also will come before the  
voters of Washington in November.

A resolution was adopted calling on  
the Attorney-General of Washington  
and prosecuting attorneys of the dif-  
ferent counties to prosecute the Stop-  
Look-Listen League for its alleged  
activities in opposing seven of the initia-  
tive amendments which will be voted  
on at the November election.

## JAPANESE LABOR BAR DOWN

Seattle Central Council Votes to Ad-  
mit Into Unions.

SEATTLE, Wash., May 28.—The Se-  
attle Central Labor Council last night  
voted in favor of the admission of Ja-  
panese to membership in all unions af-  
filiated with the American Federation  
of Labor. The action was taken in re-  
ply to a sarcastic letter from Jacob  
Fisher, general secretary-treasurer of  
the Journeymen Barbers' International  
Union, who, after receiving the Seattle  
council's resolution in favor of orga-  
nizing female barbers, wrote:

"I would be pleased to hear from  
your council as to whether you will  
admission of Japanese barbers to mem-  
bership in our organization, as well as  
into unions of all other trades."

## School Record Improves.

KELSO, Wash., May 28.—(Special.)—  
According to the annual report of Lee  
F. Jones, superintendent of the local  
schools, considerable improvement has  
been made in the attendance record for  
the past year. The total number of

days' attendance for the year was 106-  
654, the first time in the history of  
the school that was more than 100,000.  
The number of absences was decreased  
by 600 and of tardiness by 664. The  
average attendance was raised to 97.7.

## GIRL ANNOUNCES WEDDING

Mother Refuses, so Bride Calls Up  
Chicago Society Editor.

CHICAGO, May 28.—"Mother wouldn't  
announce my marriage and I couldn't  
hear to have my many friends and  
acquaintances think me just a little  
girl when I am happily married. Mother  
wanted frills and flowers at the  
wedding and I wanted only Allen. I  
am no longer Miss Irma Howe, but  
Mrs. Allen Arnold Craig. We were  
married April 20."

That was the way Mrs. Allen Arnold  
Craig expressed herself last evening  
when a reporter called at the newly-  
furnished apartments at 6100 Dorches-  
ter, to be told of the announcement.  
Earlier in the day the bride of  
less than three weeks called the so-  
ciety editor on the telephone and asked  
that "some mention of the affair be  
made."

Mrs. Craig was formerly Miss Irma  
Howe, daughter of Thaddeus Howe,  
real estate dealer and one time presi-  
dent of the Old Colony Trust & Sav-  
ings Bank. She is 19 years old and  
pretty. Her husband, Allen Arnold  
Craig, is two years her senior and a son  
of the general manager of the Wis-

## PRICE PROVISION OF BILL IS PASSED

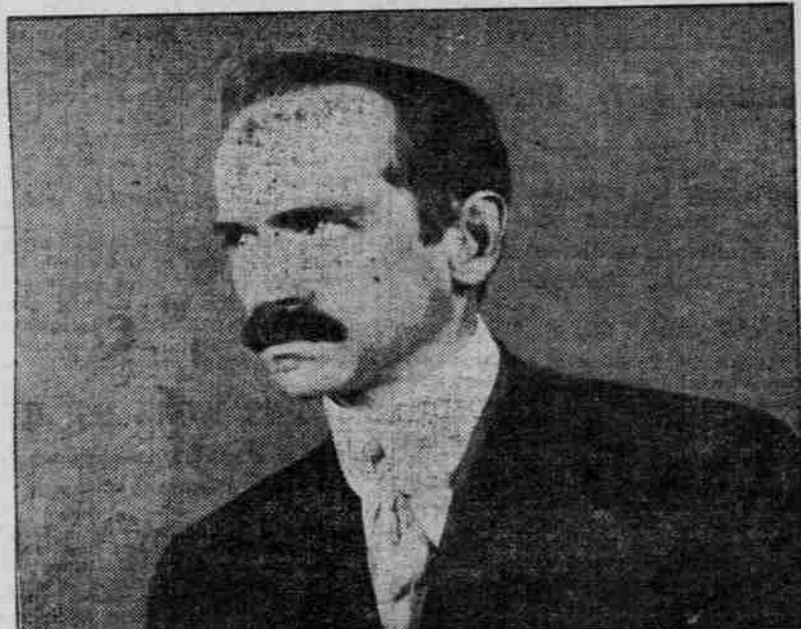

House Favors Section of Anti-  
Trust Measure Making Dis-  
crimination Unlawful.

## AMENDMENTS VOTED DOWN

Sale With Reservation Against Han-  
dling Goods of Competitor Pro-

GLENN H. CURTISS.

## consin Lumber Company at East Chicago.

The two met several years ago while  
spending a Summer vacation at West-  
ern Springs. It was love from the start.  
Irma had met her future husband, the  
admirer, and according to her story,  
young Craig was not the choice of her  
mother.

The marriage went along smoothly until  
mother began to think we were se-  
rious," she said. "It wasn't that she  
didn't like Mr. Craig, but mothers, you  
know, sometimes have ideas of their  
own. Then when we had made up our  
minds to become one mother wanted  
a big wedding, with many guests and  
countless friends in attendance. We didn't."

"The afternoon of April 30 Allen  
phoned me and asked that I meet him  
at the Chicago Athletic Association. I  
knew what he meant. Accompanied  
by his immediate family, we went to  
the St. Paul's Universalist Church, Thirtieth  
street and Prairie avenue, where we were  
married by the Rev. T. Brigham."

## BALL TO OPEN FESTIVAL

True Carnival Spirit Sought by Cur-  
tain-Raising, First-Night Dance.

For the first time in Rose Festival  
history a popular-priced ball will be  
held as a greeting to hosts of visitors  
from out of the city. This function,  
to be known as the "Rose Festival  
greeting ball" will take place on the  
first night of the festivities, Tuesday  
evening, June 2, at the Woodmen of  
the World Hall, East Sixth and Alder  
streets, under the auspices of the East  
Side Business Men's Club. The follow-  
ing committee will be in charge: J. D.  
Sherman, chairman; M. O. Collins, Dan  
Kellaker, C. C. Hall, F. B. Eagan, Tom  
Krauder, A. A. Kenderley and J. O.  
Wilson. The Woodmen of the World  
will assist in the arrangements.

It is hoped to start the carnival spirit  
off with a bang by the opening of the  
Special Invitations will be sent to  
out-of-town organizations and dele-  
gations who plan a trip to the cele-  
bration.

## TROOPS TO FIRE WARNING

Fishermen Will Be Reminded of 24-  
Hour Weekly Closed Season.

ASTORIA, Or., May 28.—(Special.)—  
Beginning Saturday evening, Colonel  
Ludlow, commanding officer at the  
forts about the mouth of the river, will  
have a gun fired by the troops at Fort  
Columbia at 9 o'clock on Saturday and  
Sunday evenings, to mark the begin-  
ning and ending of the 24-hour weekly  
closed fishing season.

This will be done in order to warn  
the fishermen, so there will be no  
chance of any of them inadvertently  
violating the closed season law.

## CURTIS FLIES IN FOLLY

(Continued From First Page.)

Hammondport about two months ago.  
Scarcely a change was made in its  
parts. The surface of the wings, which  
had suffered from long storage, were  
replaced. Other minor parts repaired  
were duplicates of the originals. The  
machine was driven today by the old  
motor built by Charles Manly.

Dr. Langley was the secretary of the  
Smithsonian Institution. He was  
satisfied of the possibility of flight in  
heavier-than-air machines and spent  
years in working on the problem. In  
1895 he was successful in making a  
steam driven model fly a distance of  
about a mile over the Potomac River.

## Kelso Plans Y. M. C. A.

KELSO, Wash., May 28.—(Special.)—  
Plans are being made for raising \$1500  
to be used in organizing a Y. M. C. A.  
for this place. It is thought there will  
be little trouble in securing the re-  
quired amount of money.

## Farmhand Drops Dead.

VANCOUVER, Wash., May 28.—(Spe-  
cial.)—While working on the Snyder  
ranch, three miles out of the city, John  
Price, 45 years old, dropped dead from  
heart disease.

## were perfected by the House today in

the committee of the Clayton bill  
to supplement the anti-trust laws.  
Scores of amendments designed to al-  
ter the measure as framed by the ju-  
diciary committee were voted down.  
Three of the 22 sections of the bill were  
agreed to in the course of the day's  
debate.

The first section of the bill, dealing  
with terms and definitions, was passed  
without objection. The second, forbid-  
ding price discrimination between pur-  
chasers of the same commodities in the  
same or different communities, was at-  
tacked by Representative Graham, of  
Pennsylvania, who offered several  
amendments. All were defeated.

**Curbs on Competition Prohibited.**  
The section making it unlawful for  
persons controlling mines or mine prop-  
erty to refuse to sell to responsible  
persons after being amended so as to  
apply to oil and gas wells, was passed  
over to the judiciary committee  
to perfect the new provision.

The principal content of the day was  
over the fourth section, making it un-  
lawful for wholesalers to lease or sell  
goods with a condition that the pur-  
chasers shall not deal in the goods of  
competitor. Representative McCoy, of  
New Jersey, tried unsuccessfully to  
limit the prohibition to such under-  
standings as are made "with the in-  
tent of establishing a monopoly or de-  
stroying the business of a competitor."

**Wilson Would End Uncertainty.**  
President Wilson today had occasion  
to announce his insistence on action  
on the true programme when he was  
visited by a delegation from several  
Middle Western manufacturers' as-  
sociations. They urged that all business  
legislation except the trade commis-  
sion bill be deferred until a long series  
of investigations by the trade commis-  
sion into the needs of business.

A statement was given out at the  
White House saying that while he  
was aware of the present depression  
of business, there was abundant  
evidence that it was merely psycholog-  
ical, that there was no material condi-  
tion or substantial reason why the business  
of the country should not be in the most  
prosperous and expanding condition.  
He urged on his visitors the necessity  
of patriotic co-operation on the part  
of the business men of the country in  
order to support rather than to oppose  
the moderate processes of reform, and  
to help guide them by their own in-  
imate knowledge of business conditions  
and processes.

"He told his visitors it was his ear-  
nest desire to serve and not to hinder  
or injure the business of the country  
in any way and he believed that on  
reflection they would see that he  
course he was urging would in the  
long run not only, but in the short run  
also, be the wise and serviceable  
course."

## HAY AND ALFALFA SAVED

Rogue River Valley Rains Come in  
Time for Grasses and Fruit.

MEDFORD, Or., May 28.—(Special.)—  
With the average rainfall for May al-  
ready equalled, ranchers of the Rogue  
River Valley are taking advantage of  
their present fair prospects of a fine  
hay and alfalfa crops. Two  
weeks ago it was feared the hay and  
alfalfa crops would be a failure, but  
a week of rain came just at the right  
time and at least an average yield is  
certain.

The rains also have been a material  
aid to the fruit crop, insuring well-  
sized fruit and less expense in culti-  
vation. The early reports of loss from  
frosts have been found exaggerated,  
although considerable loss has been  
sustained. While under normal con-  
ditions the Rogue River Valley should  
have shipped 1400 cars in 1914, it now  
looks as though the 1913 crop of 1200  
cars would not be more than equalled.

## Mill-to-Man Tailors

# Made-to-Measure Suits

that make good.

Most men try anything once, but it takes real tailoring, real  
satisfaction, and real service to get you to order a second time.

## POWER IS REQUIRED

Nitrogen From Air Possible if  
Development Is Permitted.

## CHEAPNESS IS ESSENTIAL

Present Government Policy Has  
Driven Manufacturing Plant  
From Country—Senator Brady  
Proposes Entering Wedge.

OREGONIAN NEWS BUREAU, Wash-  
ington, May 28.—While Canada and  
all the civilized nations of Europe  
have been extracting and making  
nitrogen from the air, and making  
the cheapest known fertilizer, the  
United States remains inactive, large-  
ly because Congress refuses to pass a  
bill which will justify private capital  
in the development of water power  
possibilities within this country.

In the hope of arousing interest in  
this subject, Senator Brady, of Idaho,  
secured the adoption of an amendment  
to the agricultural appropriation bill  
setting aside \$5000 to be used by the  
Department of Agriculture at its  
demonstration farm near Washington  
in erecting a laboratory for experi-  
menting with processes of manufactur-  
ing fertilizer by means of nitrogen ex-  
tracted electrically from the air.

Senator Brady made it clear that the  
Government does not propose to manu-  
facture nitrogen fertilizer for com-  
mercial purposes, but merely to ex-  
periment with different methods of  
extraction of nitrogen from the air.

One of the largest nitrogen fertilizer  
plants in the world is now operated  
at Niagara Falls, on the Canadian side.  
It is an American corporation which  
prior to moving to Canada sought to  
establish its plant in Alabama. The  
policy of the United States Govern-  
ment, and of Congress, however, denied  
this corporation the right to develop  
cheap power in Alabama, and as cheap  
power is an essential to the manu-  
facture of this fertilizer, the corporation  
abandoned its property in Alabama and  
went over to Canada.

Senator Brady pointed out that on  
the Snake River, within 20 miles of  
his home, lies 500,000 undeveloped  
horsepower that might readily be  
utilized in the manufacture of nitrogen  
fertilizer. Such a plant would not  
only supply the State of Idaho, but  
developed and no one will reap any  
benefit.

If the Government conducts experi-  
ments which prove successful and  
which demonstrate the practicability  
of manufacturing cheap fertilizer  
where cheap power can be had, Senator  
Brady hopes that Congress will adopt  
a policy which, like that of Canada,  
will encourage development.

George L. Chambers Dies.  
ST. JOHNS, Or., May 28.—(Special.)—

George L. Chambers died at his home,  
1021 Dawson street, yesterday, aged  
84. Mr. Chambers formerly lived at  
Rainier and came to St. Johns five  
months ago. He is a brother of Mrs.  
A. S. Benson. The funeral will be con-  
ducted from J. P. Finley & Son's  
chapel Saturday at 11 A. M.

## GARDEN WORK INSPECTED

Douglas Schools to Hold Local Fairs  
as Preliminary.

ROSEBURG, Or., May 28.—School Su-  
perintendent Brown, of Douglas Coun-  
ty, and L. R. Harrington, state indus-  
trial field worker, have been passing  
the week visiting the boys and girls  
clubs in Roseburg and vicinity.

The pupils of the local schools are  
much interested in the industrial work,  
and as a result local clubs will be  
preliminary to the county and state  
fairs.

Douglas County has about 60 indus-  
trial clubs, all of which are composed  
of active members. The Cleveland club  
has purchased a standard picture for  
the school room, while the Melrose  
club has purchased a lawn tennis set.  
At Cleveland a parent-teacher club was  
organized and officers elected.

## Crater Lake Trip Is Taken.

MEDFORD, Or., May 28.—(Special.)—  
The first trip to Crater Lake for the  
season of 1914 was started Wednesday  
and if the journey is made successfully  
it will be the earliest to the lake ever  
taken by the Hall Stage Company. Last  
year the first trip was made in July.  
Ranchers in the Prospect district have  
reported much less snow than usual  
and the roads are said to be in fair  
condition.

## Skookumchuck Bridge Debated.

CENTRALIA, Wash., May 28.—(Spe-  
cial.)—At a meeting of the North End  
Improvement Club Tuesday night  
George Miller, the new Lewis County  
Commissioner from this district, stated  
that both he and Commissioner T. J.  
Long are either in favor of turning the  
bridge over the Skookumchuck River.

## SOME KNOWN FACTS ABOUT RHEUMATISM

There are many things that are still  
unknown about rheumatism. The treat-  
ment of it is still far from satisfactory.  
Doctors realize this but nobody is more  
fully aware of it than the sufferers  
themselves.

A tendency to rheumatism once es-  
tablished, the pain often returns with  
every change of weather, showing that  
the poison is still in the blood await-  
ing favorable conditions to become ac-  
tive and cause trouble.

One fact is known and acknowledged  
by all medical writers and that is the  
rapid thinning of the blood when the  
rheumatic poison invades it. Building  
up the blood is the best remedy for  
rheumatism as the enriched blood is  
able to overcome or throw off the  
poisons of the disease. For this reason  
rheumatic sufferers should be interest-  
ed in the success which Dr. Williams' Pink Pills have had in the treatment  
of this painful disease.

A book, "Building Up the Blood," will  
be sent free on request by The Dr.  
Williams Medicine Co., Schenectady, N.  
Y. It contains directions regarding  
diet, baths and hygiene for rheumatic  
patients.

Dr. Williams' Pink Pills are sold by  
all druggists everywhere.
