

CARRANZA ENVOY BRINGS MESSAGE

Mediation With Huerta Interrupted by Effort of Rebels to Join In.

NOTE IS FIRST REJECTED

Change in Attitude Follows Conference With American Delegates. Messenger Embarrassed by Coolness of Reception.

NIAGARA FALLS, Ont., May 29.—Consideration of an agreement between the Huerta government and the United States was temporarily interrupted today when Juan F. Uruquidí, a representative of General Carranza, lead before the South American envoys a note expressing surprise that the mediation negotiations were continuing with the constitutionalists unrepresented.

After a long debate the mediators decided not to permit Uruquidí to present the communication from his chief. Then after a conference with the American delegates, the mediators admitted the Carranza note. Uruquidí remained with the mediators only a few minutes. He left the note and expressed the appreciation of his superiors that no action had been taken by the three diplomats in averting war.

Contents of Note Not Disclosed. Uruquidí was asked not to disclose the contents of the note. The following statement was then issued by the envoys:

"The mediators have received a communication from a representative of General Carranza in Washington, the tenor of which differs entirely from the version contained in a news dispatch this morning from Durango and does not disturb the course of the negotiations."

Whether answer will be made to General Carranza or his representative in Washington is not known outside of the diplomatic tribunal. Some of the attaches, however, reiterated that the proceedings could be suspended with a constitutionalist present only if General Carranza agreed to a suspension of hostilities, an originally demanded by the South American envoys.

Envoys Subjected to Embarrassment. Mr. Uruquidí met with considerable embarrassment in delivering his message. When he sent his card to the mediation chamber word came back that the mediators were busy. He waited an hour and then sent up a note saying he did not come to discuss issues, but merely to deliver a message. The mediators then received him and questioned him about the contents of the note. He was asked if it was as represented in a news dispatch from Durango, in which he replied that the substance was the same, but the phrasing different. The mediators doubted the propriety of receiving Uruquidí and finally told him to return at 3 o'clock.

During the afternoon the mediators conferred among themselves and the word was passed around generally that the communication would not be accepted.

Americans Confer, Note Is Received. Finally the American delegates came over to the Canadian side, whether at the call of the mediators or of their own volition, could not be learned. They talked for more than an hour and then Uruquidí was summoned. Minister Naun accepted the note on behalf of the envoys and Mr. Uruquidí was dismissed.

The document was signed by Rafael Zubaran, minister of interior in the constitutionalist cabinet, who is now in Washington. It was written, however, on instructions from General Carranza. The original instructions sent Mr. Zubaran are contained in the following message published from Durango today:

"Six days ago conferences began to treat the international conflict between the United States and Mexico occasioned by the arrest of several American sailors by soldiers of Huerta at Tampico. To solve this conflict you offered to the Government of the United States, to Huerta and to me, your good offices, inviting me to appoint delegates who would represent the general headquarters of the constitutionalist army, which is under my orders."

Surprise Expressed in Note. "I answered in principle I would accept your good offices and later in a separate message I asked the points which would be dealt with in the peace conference, awaiting an answer to that dispatch I have not named delegates."

"I am surprised that you have continued to treat the conflict between the United States and Mexico without representations from the constitutionalist army, which is under my orders and represents the majority of the people and the largest armed force of the republic."

"For that reason I state to you that I believe that the conflict between the United States and Mexico ought not to be solved in future conferences unless in these conferences there is represented the general headquarters of the constitutionalist army."

It was suggested in some quarters tonight that a final agreement might not be approved by the United States until the constitutionalists were brought definitely within the scope of the mediation programme. An authority for this suggestion is the acceptance by President Wilson of the invitation extended by the South American envoys was cited.

HEARING IS URGED

Administration Pleads for Carranza Before Mediators.

PARTICIPATION COUNTED ON

United States May Be Called On to Pay Damages for Delay to German Cargo of Munitions Consigned to Vera Cruz.

WASHINGTON, May 29.—President Wilson announced today to the Cabinet that General Carranza had addressed a note to the mediation conference seeking representation. It was learned that the administration took the view that the constitutionalist chief should not be ignored.

While the Cabinet was in session, word came from Niagara Falls that there was doubt whether Juan Uruquidí, agent of Carranza, would be received by the South American envoys. Later it was learned that the administration had directed the American representatives at the peace conference to urge that the message from Carranza be accepted.

"Then word came late today that the mediators had agreed to receive Carranza's communication. Government officials expressed the opinion that this important development ultimately would lead to participation by the constitutionalists in the mediation proceedings."

United States May Pay Damages. With relation to the German shipment of arms to Huerta, it developed that the United States may be called upon to pay compensation for delay in delivery of the Ypiranga's cargo of war munitions, originally consigned to Vera Cruz, but held on board on account of the American occupation of that port.

It became known that negotiations are in progress between French and German concerns which sold Huerta the consignment of cannon, machine guns and ammunition and the shipping company, a financially able to Huerta under the contracts of sale and shipment for delay in landing the supplies. Any claims against them on this account, however, whether presented in the United States in due course.

The American Government is understood already to have intimated to the governments concerned its willingness to deal with the question and even suggested its willingness to relieve the shippers of financial loss by paying cash for the war cargoes if the consignors should land them at Vera Cruz.

Japanese Ambassador in Dock. With relation to the reported shipments landed on the West Coast, the Japanese Ambassador assured Secretary Bryan that he had no knowledge concerning them. The Ambassador, however, was not prepared to deny published reports which received a measure of support in a message from Rear-Admiral Howland who reported that a Japanese steamer had docked at Manzanillo and later left that port. The admiral's message did not indicate, however, whether munitions of war had been landed.

General Carranza's offer to settle with the Spanish owners of some \$20,000,000 worth of cotton confiscated at Torreon and vicinity cleared away a difficult diplomatic problem.

The verdict was returned just two hours and 22 minutes after deliberations began. As the words "not guilty" were pronounced, there was wild cheering in the courtroom, which was filled with Dr. Elam's friends.

Dr. Elam did not seem to display much interest in the proceedings and he took the verdict apparently without surprise. Mrs. Cramer, widow of the slain man, was not in court. She had collapsed earlier in the day while the arguments were in progress.

MRS. RIGGS LOSES CASE

Mother-Kidnaper Must Return Babe to Father, but May See It.

EUGENE, Or., May 29.—(Special.)—Because Mrs. W. P. Riggs used force to obtain possession of her daughter she must give the child back to her father. This order the Circuit Court made late today in the injunction suit filed by the father against the mother.

The father must bring the child to see the mother at stated intervals or pay the mother's fare to the child until the divorce proceedings are settled. Mrs. Riggs came from South Bend, Ind., and demanded the possession of her daughter last week when she learned that her husband had filed a divorce suit against her. When refused, she obtained an automobile, drove to the farmhouse and, using candy as a ruse to get her hands on the child, snatched the babe from the arms of the aunt and won a \$9,000 race to Eugene. She refused to leave Eugene, although she had time to get out of reach of the court, stating that she would fight in the courts for possession.

LANE OPPOSES REPEAL

OREGON SENATOR FAVORS NEW TREATY CONCERNING CANAL.

Payment by All Nations in Proportion to Use Proposed—America Now Driving Itself From Sea.

WASHINGTON, May 29.—Senator Lane, Democrat, of Oregon, today, announcing his opposition to the repeal of the Panama tolls exemption, proposed that the Hay-Pauncefote treaty be denounced and that an agreement be made with all maritime nations, by which each, including the United States, should pay for the use of the canal in exact proportion to the use of it. Senator Lane contended that other nations would return to their vessel owners the amount they paid as tolls, while the United States would not do so.

"It looks to me," said Senator Lane, "as if we had expended a large sum for the privilege of driving our own citizens out of the shipping business. We free our competitors from all liability for the cost of construction and all fixed charges, and the tolls are repaid to them by the nations, while our ships are held for all fixed charges and the cost of construction and pay their own tolls in addition."

The Oregon Senator argued that other nations would return to their vessel owners the amount they paid as tolls, while the United States would not do so.
