Carlisle and Leard, of Venice, are tied for first honors as run-makers, each with 43 to his credit. Maggert, of Los Angeles, with 42, is a close second, and Young, of Sacramento, and Schaller, of San Francisco, are tied for third honors with 37 runs.

Rodgers Pushes Young. Among the purloiners of bases Young, of Sacramento, and Rodgers, of Portland, are running a dead heat. Each has stolen 20 sacks to date. Maggert, of the Angels, is next with 16 bases. Bayless, of the Venetians, has knocked out six home runs this season. Also he

Ryan, of the Beavers, made third base eight times on one hit. Tennant, of the Wolves, has 17 two-baggers to his credit, while Jerry Downs, of the Seals, is only one behind him in this respect. Martinoni, of Portland, dropped a game last week and thereby slid from the 1000 to the 800 class, but he still has four straight wins to his credit.

"Hub" Pernoll, of the Seals, has won more games than any other pitcher, 10 to be exact, and has lost just half of that number. ECONOMICAL SIX

Perfect in balance and alignment; running without unpleasant vibration.

That is the Studebaker SIX motor $(3\frac{1}{2}x5$ inches) — a splendid example of the block easting type and the small - bore, long - stroke practice.

it has been called one of the most perfectly balanced mo-tors in the world.

This balance is attained only through Studebaker manufacturing methods, which specify the raw metals, make the castings, do the heat treating, machining and grinding—everything.

Economy and efficiency in the highest degree are the result. Smaller gasoline consumption than a "Four" of same dis-placement; actually more usable power, because of continuous torque.

No annoying vibration; smooth running; alignment perma-nent because all cylinders are cast in one piece.

Care and closeness in manufacturing balance; light weight; economy and easy riding—these are the symbols of the Studebaker
