Hand of Other Man in Party Is Fractured—Car Rolls Over Twice at Crossing After Skidding. Victim Leaves Widow.

NAMPA, Idaho, June 2.—(Special.)—Arthur L. Hulbert, a prominent rancher and stockman, who lived a mile west of Nampa, was killed, Charles Weaver's hand was fractured and the arm of one of three women with them was broken in an automobile accident here at 1:30 o'clock this morning. The two other women were severely bruised. The names of the three women could not be learned.

Hulbert was married. His widow, father, brother and sister live here.

The party was on a joyride. The car was driven by Hulbert. It was traveling faster than 35 miles an hour, it is said, when he attempted to steer it across the railroad tracks. The machine struck the crossing at an angle and skidded. A rear wheel gave way and the car rolled over twice.

A projecting bolt on the side of the seat struck Hulbert and crushed his skull. Two members of the party were thrown many feet from the car and two others were pinned beneath it.

Hulbert was 30 years old. He was a native of Iowa and came to Nampa two years ago to engage in the livestock and dairy business with his father, J. S. Hulbert.

Light Company Valuation Made.

OLYMPIA, Wash., June 2.—(Special.)—Engineer Burroughs, of the Public Service Commission, has completed a valuation of the properties of the Grays Harbor Railway & Light Company, to be used at a coming hearing in fixing the streetcar fares between Cosmopolis and Aberdeen and Hoquiam. about 2 cents higher than those for fine wool. Ordinarily, the differential has been as high as 5 cents, but on account of a great deal of cross-breeding for mutton lambs in the last year or so the supply all over the country of coarse wool has been increased and that of fine wool lessened. The prices are more nearly equal for the various grades of wool.

A few sales as high as 20 cents for coarse wool have been reported, but the ruling price is from 18½ to 19½ cents, whereas last year it was from 17½ to 18 cents.

Wool shipments have been started by the buyers who have already cleaned this territory. High prices locally, with clip up to or possibly a shade above the normal, growers assert, will do much for the industry in this section. The condition is much better than usual locally, despite the tariff reduction.

Had the tariff remained on, wool-growers believe this year would have stood forth as the banner year for the Eastern Oregon wool industry, while, as it is, it is well above the normal.
