Bounded on four sides by Arctic
chills, a small-sized ladles' day crowd watched Portland put the skids under the Sacramento Wolves with their best pitcher up, yesterday at McCredle Park. Score 7 to 3.

Sailor Stroud outpitched Irve Higginbotham for five innings, but he couldn't stand the pace. Or perhaps it was the cold, or maybe both. Any-way Roy Brashear opened the sixth with a home run, which was the signal for a bombardment that netted seven tallies in the sixth and eighth innings. Higginbotham allowed only five hits, his wildness being responsible for all three Senatorial runs.

Five double plays featured. Looking back o'er the wreck, Brashear's circuit swat stands out as the turning point of the matines. Up to that time Stroud was air-tight. Afterwards he leaked badly in several compartments. In fact, Portland scored eight of our 12 hits in the final three

Brashear Loses No Time. Brash was playing first base yester-day as a regular, Derrick being out with the boils or the heaves or some other contagious disease. Brash strode up as first man in the sixth, set his 48-inch chest opposite the home disc, and, without the slightest formality, poled a screamer into the left field bleachers.

The Sacs scored two runs in the second inning on two walks, Hallinan's single and Hannah's long fly, so the

SAN FRANCISCO, June 5 .- Top-notch pitching by Prough enabled Oakland to win today's game from Los Angeles, after losing the first three games of the series. The score was 3 to 1. Prough retired 12 Angel batters on strikeouts. will be argued before the higher court probably next Wednesday.

Judge Sessions originally refused the injunction which would prevent Killifer from playing with the Philadelphia team, on the ground that the Federals had not come into court "with clean hands." Among statements in the brief filed today is the following:

"The claim that the appellants do not come into equity with clean hands omes with poor grace from the appellecs, who attempted to take advan-tage of the unfair and inequitable re-serve clause to assert a right to de-mand Killifer's services at such a time as they might choose to open negotia-tions with him."

Grammar Track Meet Off. Again the annual grammar school track and field meet slated for this morning on Multnomah Field has been postponed. The heavy rains of last night are said to have left the track in a doubtful condition and after a consultation with the Multnomah Club officials last night, Robert Krohn, physical director of the schools thought better to cancel the proposed affair.

Eleven events are on the programme and more than 300 young athletes were

High proportion of manufactured parts means car value, long life and roadability.

Studebaker SIX incorporates a greater proportion of manufactured parts than any other car.

Its steels are more rigidly specified; each shipment analyzed and tested before acceptance.

Its vital parts are heat treat-ed more thoroughly—two to four times—and with great-er scientific accuracy.

Methods of manufacture are more intensive; machinery equipment more complete and costly, yet far more economical because of big production production.

Laboratory and engineering work goes deeper, is more thorough, and actually in charge of manufacturing.

Friction and vibration mini-mized, the life of the car lengthened by perfect align-ment of co-related parts, perfect lubrication and per-fect balance. Hence the Studebaker SIX is the groatest value, has the longest life, the most per-fect road-ability.

No higher price can buy as much, let alone more. Send for the Studebaker Proof Book, describing Studebaker manufacturing methods,
