The poultry and drossed meat markets were not active yesterday. There was a fair supply on hand, and the feeling in the market was weak. Dealers look for very heavy receipts of pouliry this week.

The egg market was steady to firm at unchanged prices. Receipts are declining, but there is much complaint as to quality.

The prospect of record-breaking harvest yields to be officially indicated from Washington put the bears at the ourset in a fighting mood and resulted in a decided break in prices. Fair buying on the decline in wheat caused a raily which, however, was not fully maintained. Heavy world shipments counted against the bulls. Besides dispatches from Kansas and Missouri reported the harvest on in full blast and the weather perfect. Prices afterward showed a raily, due in a measure to a good export inquiry and to a falling off in the domestic visible supply. Com displayed robust strength, in fact the greatest vision so far this season. Illinois and Missouri crop damage reports tended to lift oats.

Provisions rose with corn. Weakness in the price of hour was virtually ignored.
