No Forward Business Passing in Local Market.

### BIG CROP CHECKS DEMAND

Exporters Securing Tonnage for New Season, but Making Little Effort to Contract for Grain-Government Estimates Questioned.

It has been many years, wheat dealers seclare, since it was so difficult to transact to the lack of interest on the part of buyers solely to the prospects of a large crop Usually a good volume of trade has been worked by the second week of June by th exporters and domestic dealers, but up to date this season the market has been an inactive one, as is shown by the absence of

contracting in the country.

Although they are making no evident efort to produce new wheat on contract the exporters are accumulating a good amount of tonnage against the coming season's business. To date they have chartered 34 ships and steamers of an aggregate registered tonnage of 75,675 tons to move the new crop. On this date last year 29 vessels of 60,498 tons were listed, two years ago there were eight ships of 16,024 tons en route, and three years ago 16 ships of 26,679 tons. far this season Puget Sound shippers have listed seven sailing vessels and one steamer of an agregate registered tonnage of 16,333 The total space chartered for North Pacific ports for the new crop is around

With a big crop in sight exporters are in no hurry to provide cargoes for the tonnage under engagement. There is but little demand in Europe at the moment, and the trade is, therefore, in a waiting attitude.

While a large crop is practically certain in the Pacific Northwest wheat men here do not look for anything like the production estimated by the Government Monday. in excess of 78,500,000 bushels, which are regarded as at least 10,000,000 bushels to The Oregon Winter wheat estimate, the Government gives as 15,000,000, which considered a closer guess than the Federal estimators have made in past years, and the Idaho figures of 10,100,000 bushels are also believed to be near the mark, but the estimates for Washington of \$4,4000,000 bushels of Winter and Spring wheat are seriously

There was practically no business being transacted in the spot wheat market, and the burley and oats markets were also inthe Merchants Exchange as follows:

advancement of crops. There is now suffi-cient moisture in the soil for present needs, fair weather is now necessary for gathering the hay crop. Hall on the fourth in-

some of the early matured grasses to lodge badly, but with favorable weather for the next few days much of the crop will be

Apples and pears are developing rapidly and cherries are coloring up. All pasturage continues in good condition throughout the

PRUNE CROP ESTIMATES.ARE RAISED California Yield Now Figured as High as

135,000,000 Pounds. The California prune market is in a some what unsettled condition, as crop estimates are gradually being advanced. On this sub-ject the latest issue of the California Fruit

Grower says: There has been some little fluctuation in op prunes during the past week. The fact is that estimates as to the probable production have been advanced a little lately, and while some escrators stil hold to the previous ideas, others have advanced their estimates as to tonnage, some as high total of 135,000,000 pounds for the The rather general opinion at present seems to range in the neighborhood of

ent seems to range in the augmented of the popular popular in the other hand, are of the opinion that the total will be 190,000,000 to 110,000,000, as has been recently rather generally figured. "The Santa Clara Valvey tonnage shows a little increase in estimated output recently. This has reduced selling quotations some-what and during the week Santa Claras have been reported as quoting as much as 'he off on the smaller sizes from what has

# FUTURE VIEWS HOPEFUL

BUMPER CROPS SUBSTANTIAL REA-SON FOR CONFIDENCE.

Wall Street Believes That Many Unfavorable Conditions Have Already Been Largely Discounted.

Market for Spot Goods Is Inactive—Conditions in New York State.

Trading was quiet in all the Coast hop markets yesterday. There was some inquiry for contracts in this state, but no activity in spot hops. The warmer weather, following the abundant rainfall of the past week, is expected to benefit the yards majerially.

As to conditions in New York State, the Waterville Hop Reporter says that splendid growing weather for the past few weeks has pushed the hop vines forward at a rapid growing weather for the past few weeks has pushed the hop vines forward at a rapid growing color, green and clean-looking. In most yards the second tying has been done. For the past few days that section has been done, for the past few days that section has been done. For the past few days that section has been done wisited by high winds, but the vines were not seriously affected, as it is too early in their growth. Cold nights are somewhat rotarding the growth at present and a good, soaking rain would be of benefit, but so far there can be little complaint of conditions unsuitable to the growth of the vine.

CANTALOUPE MARKET IS TOPHEAVY

Supplies Too Large for Present Demand.

Melons Sciling Weil.

The cantaloupe market was topheavy yesterday. Two cars were received during the day and, coming after the heavy receipts of Monday, everstocked the market. Prices were lever at \$126.25 at crate. Watermelons sold well at 114.25 cents were lever at \$22.55 at crate. Watermelons sold well at 114.25 cents and common common wheat crop, the most severe. The most substantial reason, however, for taking a more hopedul view is the prostoring and non-mous wheat crop, the most substantial reason, however, for taking a more hopedul view is the prostoring and non-mous wheat crop, the most substantial reason, however, for taking a more hopedul view is the prostoring and non-mous wheat crop, the most substantial reason, however, for taking a more hopedul view is the prostoring and non-mous wheat crop, the most substantial reason, however, for taking a m

Stock Buying Is Larger and Prices Advance.

MARKET UNDERTONE GOOD

Crop Prospects and Unofficial State ments That Freight-Rate Case Will Be Decided Quickly Are Bullish Factors of Day.

NEW YORK, June 8.—Another small advance in stocks occurred today. While traders continued to show indifference to outside influences, sentiment was cheerful and the inquiry was broad.

Unofficial statements that the freight rate case would be decided quickly did service as a bullish factor. This and crop prospects stimulated buying.

The outflow of gold continued at an unusually rapid rate. Engagements for Europe today amounted to \$5,500,000, making \$10.500,000 in the first two days of the week and a total of \$30,000,000 for the movement. Ordinarily, such a loss of gold night be expected to give a depreasing influence on the stock market, but the same indifference was manifested today as heretofore.

Bends were steady, with unusually wide movements among speculative issues. Total sales of bonds, par value, \$2,500,000. United States bonds were unchanged on call.

# CATTLE SUPPLY SMALL

ARRIVALS OF HOGS AT NORTH PORTLAND ALSO LIGHT.

Stendy-Bulk of Lamb Sales Are at \$6.

There was only a limited supply of cattle and hogs at the stockyards resterday, but the run of sheep was good. Everything offered was disposed of by noon. The market, on the whole, held steady.

About three loads of steers were available, and the best of these brought \$1.65.

A few odd lots of butcher cattle, mostly medium grade, were also sold.

Not enough hogs were on the market to make much of a showing, and buyers' limit was \$7.90 for light swine, against a top price of \$7.05 paid on the previous day.

Lambs monopoined attention in the sheep house. With the exception of one load, all that were offered were taken at \$6. A bunch of yearlings sold at \$4.75 and three mixed lots brought from \$4.25 to \$4.85.

Receipts were \$6 cattle, \$1 hogs and 1185 sheep.

Shippers were: With cattle, Thomas Car-

BLIND PUPILS GRADUATE Closing Exercises of Year Held at Washington State School.

VANCOUVER, Wash., June 9 .- (Special.)—The Washington State School for the Blind closed for the year's work last night with a special programme in the auditorium. Another programme will be given tomorrow afternoon, and the children will go home Wednesday for the Summer vacation. The pupils graduating from the cighth grade are: Blanche Ranning, of Seattle; Fred Ellis, of Centralia; Ruth Hayes, of Chehalis, and Cecil Mitchell, of Walla Walla.

George Meyer, of Pullman, will complete the Vancouver High School

ourse. The Washington State School for the Deaf will close Wednesday, without special exercises, because one pupil has a mild case of scarlet fever.

WHEAT SALES HEAVY

Chicago Drops Almost to Lowest Prices of Season.

BEARS ARE IN CONTROL

Government's Estimate of Immense Crop Leads to Break and Last Prices Show Losses Ranging Up to Cent and Quarter.

CHICAGO, June 9.—Bearish deductions from the Government report sent wheat down today to about the lowest prices so far this season. The market closed steady at a loss of 1% to 1% o net Corn and coats finished substantially the same as last night and provisions off 5@7% to 25c.

Active selling throughout the day formed the rule in the wheat pit and kept the market almost continuously on the down grade. The question as to whether the crop report had been fully discounted in advance was soon answered in the negative. An incrase in the European visible supply counted somewhat against the buils. A reduction of % to ic in export bids at Boston was an element of weakness. Besides, country offerings of new wheat showed a big increase from west of the Missouri River.

Heavy profit-taking by longs wiped out an advance in corn. Better weather in Argentina had much to do with the willingness to realize.

After some weakness at the outset, most of the cats crowd appeared to consider the price of oats as on a reasonable footing compared with corn, regardless of the Government report. There were advices that oats were suffering irreparable injury by drouth in Missouri and Illinois.

Provisions reflected a break in hog values. Corn strength led to some buying, but not enough to offset rather free unloading on the part of longs.

The leading futures ranged as follows: CHICAGO, June 9 .- Bearish deductions

LARD. July ......10.12% 10.12% 10.05 10.07 Sept ......10.27% 10.50 10.22% 10.25 SHORT RIBS. July .....11.37½ 11.87¼ 11.80 11.82½ Sept ..... 11.40 11.85 11.40
