

The Oregonian

Entered at Portland, Oregon, Postoffice as Second-class matter. Subscription rates: In Advance: (BY MAIL) Daily, Sunday included, one year \$10.00...

PORTLAND, THURSDAY, JUNE 11, 1914.

THE FESTIVAL SPIRIT.

Play is as necessary as work to the full development of human life. The old maxim that we need eight hours out of every twenty-four for work, eight for sleep and eight for recreation...

CALL TO DUTY NOT HEARD. The first duty of a ship captain is to safeguard the lives of passengers and crew; the second duty is to keep his vessel safe. The obligation upon the master and his officers is imperative also to save other human lives...

WHY WAIT FOR NATURE? As usual, the coming election offers the people of Oregon an opportunity to make life still more miserable for the large taxpayer. There are a number of measures offered to transfer the tax burden to the masses...

THAT SHAMEFUL TREATY. There need be no surprise at the alacrity with which the Colombian Senate ratified the treaty negotiated by direction of Secretary Bryan for the settlement of all questions between this country and Colombia...

A GRIEVANCE IN CURRY. The people in Curry County seem to have a well-founded grievance against the Postoffice Department officials at Washington, as word has been received at Gold Beach...

THE ROSARIANS are delivering the goods. Judge Bennett cannot be killed any way. The Thikums are a nifty bunch. Then the sun came out.

der full way, within a few weeks, the population will begin to swell still more rapidly. The Brookings community has a large amount of good farm land to put upon the market in small tracts in the hope that settlers will purchase it to raise supplies for the new town. Homes will be sold to workers. There will be much business of all sorts with the county seat. But in plain language the postal officials say that the distance to the county seat is 425 miles; the quick transit for a letter eight days—which in the winter season will more often be twelve to fifteen days.

BALLOON HAS TOO MUCH BALLAST. The radical third party men, of whom the Pinchot brothers are types, are convinced that the reason why the Progressive balloon refuses to go up is that it carries too much ballast, in the person of George W. Perkins. That gentleman, who is chairman of the National executive committee, is described as "a menace to the party" because of his affiliation with the steel trust and the harvester trust, two great monopolies which have succeeded most completely in exploiting the public and crushing organized labor.

LATIN AND GREEK. Some time ago the Outlook published an article by a man who confessed to having a high opinion of the reason for his defects, he wrote, was the time he had wasted in college over Latin and Greek. If he had spent as much upon science, economics and history his case would, in his opinion, have been far more serious. For some weeks the readers of the Outlook have been brooding over this article in various moods, some of approval and some of protest, until now a number of letters have been published which give free vent to the opinions. One man, a teacher in a Latin school, says his institution insists upon Latin and Greek. He himself has read the ordinary Greek and waded through the usual Latin, but as far as he can discern, the effect on his mind has been largely decorative.

A MAN IN OUR TOWN. "There was a man in our town And he was wondrous wise;" He registered as Democrat. He said, said he, "We need a change; The poorfarm's getting full; And jobs are scarce 'en though one has the finest kind of pull. The whistling mills no longer sound And the busy diaphanous have voted last year who will not be eligible to vote this year unless they pay property taxes in addition.

THE ROSARIANS are delivering the goods. Judge Bennett cannot be killed any way. The Thikums are a nifty bunch. Then the sun came out.
