

MEXICANS COULDE POINT IN DISPUTE

Transfer of Authority to Be Made Without Any Recognition of Huerta.

CHOICE OF MAN IS NEXT

United States Insists Provisional President Must Be From Ranks of Constitutionalists, and Assent Is Expected.

SALTILLO, June 11.—General Carranza announced tonight that he had named an answer to the note of the Niagara Falls mediators, saying that he would appoint representatives to the conference at Niagara Falls.

It was announced, however, that Carranza would attend the conference would not serve to check the campaign against the federalists, and the advance to the capital will be continued with vigor.

NIAGARA FALLS, June 11.—After giving out the correspondence with General Carranza, for whose answer they declined to wait further, the mediating plenipotentiaries and the American and Mexican delegates announced tonight that a substantial agreement had been reached in relation to the transfer of authority at Mexico City.

This important point in the plans for the pacification of Mexico was gained by the United States through the conciliatory spirit displayed by the Mexican delegation.

Huerta Wins No Recognition. In a full conference of the mediators and the delegates it was agreed that the transfer of authority from one administration to the new provisional government should be accomplished in some other way than by general Huerta's appointment as minister of foreign affairs who would succeed to the provisional Presidency.

This method, provided for in the Mexican constitution, will be abandoned because the United States insisted that assent to it would be tantamount to a recognition of General Huerta's right to exercise constitutional functions.

On this point the mediation conference has been wrestling for three weeks. The mediators argued vehemently from the Mexican viewpoint, but the American delegates were unyielding. Matters had reached a crisis when the Americans motored across the international bridge at sundown for what many hoped would be a final conference and the end of mediation.

As the Americans began their discussion with the mediators, the latter contended again that the method of transfer would not be construed as recognition of Huerta, but the Americans reiterated that the constitutionalists would never accept such a method and the United States could not yield consistently with its own policy.

Finally Luis Diguero, one of the Mexican delegates, entered the mediation conference immediately a spirit of compromise was noticeable. Observing it, the Americans suggested that the other Mexicans come to the conference and Emilio Rabasa and Augustin Rodriguez joined the group. It was not a formal conference, but an impromptu talk, in which a surprising brief time the Americans found they had made more headway with the Mexicans direct than they had previously by working through the mediators.

Plank "Substantially Agreed Upon." Frederick W. Lehmann told the correspondents of the progress made and Justice Lamar dictated the following: It was authorized by the mediators to say that we have substantially agreed on the first plank as to the method of transfer of authority to the new provisional government.

Tonight's conference lasted more than two hours. Names for provisional president were not mentioned, but it is expected that at tomorrow's conference a beginning will be made in this direction.

The Huerta delegates desire that a man identified hitherto with no political faction be chosen. The Americans say the individual selected must be from the ranks of the constitutionalists, so that they would feel sufficient confidence in him to lay down their arms. There is every reason to believe that eventually the Huerta delegates will agree to the choice of an out-and-out constitutionalist.

One of the individuals being talked of informally is General Natera, the commander of the central division of the constitutionalist army. Luis Cabrera, a confidential adviser of General Carranza, is another who is being favorably considered.

ICE PREVENTS LANDING

Victoria, From Seattle, Falls to Get Through Floes at Nome.

NOME, Alaska, June 11.—The steamship Victoria, which arrived off Nome yesterday with 400 passengers from Seattle, was unable to pass through because of the ice floes in the roadstead and proceeded to St. Michael on the south shore of Norton Sound, to discharge the embargo on freight for Yukon River points.

The steamship Toros, which sailed from Seattle with 281 passengers, is in the ice near here but is in no danger.

TOLLS BILL IS PASSED

(Continued From First Page.) shipping from toll payment should be guaranteed.

The bill probably will be sent over to the House tomorrow and can be taken up at once if the House leaders desire. With the Senate amendment it is a subject of conference if leaders on the House side insist upon one, but it can be finally disposed of immediately so far as Congress is concerned if the House accepts the Senate amendment and agrees to the bill as sent them from the Senate.

A conference would delay final approval by Congress, but it is expected that the measure would not be kept in conference more than a few days. The evident temper of the Senate to defeat the bill unless it is amended is expected to have weight with the House and the Democrats, desiring to put an end to the matter as soon as possible, are expected to demand early action.

Bitterness Shown in Debate. Bitterness among Democratic Senators over the repeal bill flared up again tonight and before oil was poured on it.

Watch Gives Clue to Identity. "What is your name?" he demanded. "Fischer," replied the lone figure in the tonneau.

"No, it isn't. I guess you are Joe Fischer, the diamond robber," said the Sheriff.

When the Sheriff found the initials "J. F." on the man's watch Fischer broke down.

"I'm the man you want, all right. I've got the stuff with me," confessed Fischer.

He said he was on the way to Watsonville, where he planned to take a train to Paso Robles and eventually get out of the country.

Prisoner Locked in Cell. Sheriff Trafton brought his prisoner on a train to Santa Cruz and locked him in a cell. On the train Fischer was tactful and talked only a little.

"The salary I got in the jewelry store was not big enough for me to live on, and I had to go so far into debt that I couldn't see any other way," said Fischer.

MAN CONFESSES TO CRIME

Joseph Fischer, Trusted Employee of Jewelry Store, Captured by Sheriff as He Speeds in Auto—Low Salary and Debt Alleged.

SANTA CRUZ, Cal., June 11.—Joseph Fischer, a confidential employee of the Samuel's Jewelry Company, of San Francisco, who disappeared Tuesday night after the theft of \$30,000 worth of the company's jewelry, was arrested tonight in the mountains near Boulder Creek and made a full confession to Sheriff Howard S. Trafton, who caught him.

Sheriff Trafton received word tonight that Fischer was crossing the mountains from San Jose. Approaching Boulder Creek he encountered a fast automobile carrying its driver and one man. Sheriff Trafton stopped the car.

"I went into the store alone Tuesday night and no one else had anything to do with the job. No woman or anyone else knew anything about it. I intended to sell some of the diamonds and get out of the country."

CONVICTION MAY BE DIFFICULT Owing of Stock in Company Held to Be in Man's Favor.

SAN FRANCISCO, June 11.—Joseph Fischer kept a safety deposit box in a local bank. It was opened today showing that pieces of jewelry had been pledged by him for from \$10 to \$75, running back over a period of seven months. This has led the police to believe that Fischer has been dealing from his employers a long time.

It is Just Natural To Admire Babies

Our instinctive nature impels love for the cooing infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend."

We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommend it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

A little book mailed by Bradford Regulator Co., 306 Lamar Bldg., Atlanta, Ga., refers to many things that you will read about. It refers not only to the relief from muscle strain due to their expansion but also to nausea, morning sickness, caking of breasts and many other distresses.
