JULY OPTION CLOSES WITH LOSS OF

of Troubles in Grain Trade at Chicago.

CHICAGO, June 12.—Banking house difficulties and the suspension of the grain firm of Sidney Long & Co. were responsible today for a selling flurry on the Board of Trade. Closing prices, however, showed a comparatively steady feeling, with net declines as follows: Wheat %c to %c, corn %c to %c, and oats %c to %c. The outcome in provisions varied from 7%c loss to an advance of 2%c.

Belief that after four days' decline, a reaction was due, helped bring about an early raily in wheat. Fear of rain damage in the harvest districts cut a good deal of figure. Later, however, selling out of a line held by a firm which suspended had considerable to do with causing a downturn. The almost simultaneous shutdown of the Lorimer Bank and a number of small state banks brought on a lively additional selling. In the trade the suspension of Sidney Long & Co. was directly connected with the Lorimer Bank difficulties.

Corn weakness was only partly due to the Long failure and the bank troubles. Bene-

Bank difficulties.

Corn weakness was only partly due to the
Long failure and the bank troubles. Beneficial rains in the districts which had been
threatened by drouth made the market soft
from the outset.

Cats tumbled with other cereals, influenced, like corn, by the ending of the
drouth and by the bank upset.

Scarcity of hogs lifted the provision market, but in the end quotations averaged
somewhat lower than last night.

Withdrawal of Gold Has No Material

NEW YORK, June 12.—Dun's Review will say tomorrow:

Official promise of another prosperous year on the farms tends to strengthen confidence in the business outlook. The Government grain report this week made a splendid exhibit, and, in the case of wheat, assurance is given of the greatest yield that the country has ever raised.

In regard to the monetary situation, much significance has attached to recent developments; gold is still being withdrawn from this center in substantial volume without exerting any material effect upon rates for accommodation.

Absence of uniformity continues to characterize trade advices, but considered in a broad sense, favorable reports predominate.

Failures this week are 294 against 259 last year; failures in Canada 33 against 59. NEW YORK, June 12 .- Dun's Review will

evidence at the larger centers, West and East.

"Warm weather over a wide area has stimulated business in retail lines, helped jobbers, and made for re-orders. Besides, more interest is being displayed in Fall requirements. The railroads are storing cars in the Southwest in preparation for a record traffic in Winter wheat. There are some samplaints of difficulty in getting hands for the harvest, and sales of this cereal for future export are heavy."
