Europe Shows Lack of Interest in New Pacific Wheat.

PRICES TEND DOWNWARD

All Markets Affected by Government's Estimate of Huge American Crops—Lower Quotations Put Out by Dealers.

There is a deadlock in the Northwestern market, so far as new wheat business is concerned. The Government's huge crop estimate, and the weakness it caused in the Eastern markets, have intimidated foreign buyers, and the effect of this is being felt here. Most of the local buyers have pulled out of the market temporarily, and others have put out lower prices, some of them offering 79 cents for club. This does not appeal to farmers who refuse to sell, waiting for a reaction which they think will come.

Several cargoes were offered abroad yesterday by local exporters, but they met with no response. The trade is in a waiting attitude, and the undercurrent of feeling is weak.

Taking a broad view of the situation of supply and demand Broomhall believes the possibilities strongly favor a coming season of large supplies. He says:

"This is emphasized by the fact that it is expected that the United States will have a surplus of 240,000,000 and some 128,000,000 from Canada, and therefore scarcity will be next to impossible, no matter what the consumption may be and nothwithstanding the shortage in Argentina and India.

"The demand promises to be very large, because no European crop promise indicates an abundant yield. Germany is no larger than last year and possibly considerably less, France will probably be an importer on a liberal scale, Italy requires some 16,000,000 bushels more than last year, Spain and Portugal perhaps 2,000,000 bushels less than last year, while Austria-Hungary promises to import on a large scale; therefore every indication points to the assured fact that European importation for the coming season will be on a larger scale than ever before experienced.

"The European consumption last month was large and I expect that this consumption will continue large. Condition of Plate arriving here is irregular and not satisfactory. The Continental demand is fairly active, and Russia is offering up little, owing to small barley stocks. The Danube is offering freely and taking care of the immediate demand to a large extent, and it is forecasted that Danubian offers will continue liberal, and these will meet with a ready sale to the Continent."

The local market for spot wheat is quiet. Californians are buying only small lots, waiting for the new crop here and expecting to get early wheat of their own. Club is worth 85 to 86 cents and bluestem 88 cents.

No business is under way in the barley market here. The only trade passing is in California, where export barley is selling at $1 a cental. The Southern market will hold the trade for the time being, as Oregon and Washington growers are not interested in the prices being paid there.

EGGS HIGHER AT OPENING OF WEEK

Steady Decrease in Receipts Is Noted. Dressed Meats Firm.

The week opened with a much firmer egg market, as receipts were small and the demand good. Closely candled eggs brought 24 cents. Up to 22 cents was obtained for case count.

Poultry continued weak. Not many coops were received, but more than enough were carried over from Saturday to fill all orders. Hens sold at 13 cents and broilers at 18 cents. Other kinds of poultry was wanted at any price.

Owing to the difficulty of handling veal during the hot spell, shipments are very light and for the best up to 12½ cents was quoted. Pork was steady at 10¼ cents.

Butter cleans up well with a shipping demand for the surplus. The cream requirements of the ice cream trade are heavy, and several of the manufacturers are also buying unsalted butter from the creameries. No change was reported in the cheese market.

MELONS AND CANTS ARE IN DEMAND

Two Cars of Each Are Received—Hot Weather Stimulates Trade.

Cantaloupe and watermelon sales were large yesterday. Two cars of each were received. Cantaloupes were especially firm, as not many cars are in transit and the hot weather has greatly stimulated the demand. The best brought $2.25 a crate.

The market for cherries was in better shape than at the close of last week. Royal Anns sold at 6 cents and Bings at 8@10 cents. A shipment of blackcaps was received and brought $1.75. Loganberries sold at 75 cents. There was very little demand for strawberries, which were weak at 75@85 cents. Orchard fruits were unchanged in price.

Three cars of new potatoes were received and sold well at 2½ cents.

LIMA BEAN CROP IS BACKWARD

High Prices Are Due to Unfavorable Growing Conditions.

Lima beans are selling now at the highest price in years. The upward trend of prices is attributed to the backward condition of the growing crop in practically all of the California counties where limas are grown. The plants, according to reports, have so far made but small progress, as compared with former years, owing to prolonged cold weather following the planting period.

Indications are said to be that the crop will be late, several weeks or perhaps a month, with the result that farmers fear to sell in advance until they have a better assurance of a crop. It is hoped that warmer weather will prevail from now on, so that a good average crop may still be produced. The stock of spot limas in California appears to be exhausted.

MOVEMENTS ARE NARROW

SPECULATION IN STOCKS IS STILL RESTRICTED.

Gold Engagements for Export Continue, but on Smaller Scale Than Last Week.

NEW YORK, June 15.—The judgment of the speculative community as to the stock market probabilities was held in abeyance today and price movements were narrow. No progress was made toward clearing up the questions which overhang the market, blocking the way for bulls and bears alike.

The drift was downward, but the movement did not attain important proportions. The weakest stocks in the list were the shares of the Gould roads. St. Louis Southwestern preferred broke 17¾ on the passing of the quarterly dividend, which three months ago was reduced to ½ per cent. The common stock fell 3 points and other Gould shares sold off sympathetically. Denver & Rio Grande common yielded 2 points to 10 and the preferred 3 points to 17, both low records for a long period of years. Missouri Pacific sagged more than a point.

Engagements of gold for export continued today, but on a smaller scale than last week. The extent of this movement and the poor bank statement of Saturday were reflected in the money market. Time and call funds were firmer.

Bonds were irregular. Total sales, par value, $1,850,100. United States bonds were unchanged on call.

BANKERS NOT CONVICTED

Nampa Jury Said to Be Tied Up by One Desiring Acquittal.

NAMPA, Idaho, June 15.—(Special.)—After 36 hours' deliberation, the jury in the case of the state against J. A. Givens and C. E. Lore, ex-Nampa bankers, was unable to agree on a verdict and was discharged by the court this morning. The jury is understood to have stood 11 for conviction and one for acquittal.

The case was before the District Court at Caldwell all last week, going to the jury at 5 P. M. Saturday. On account of the prominence of the defendants and the nature of the charge, the trial has attracted much attention throughout the state. It is probable that the case will be tried again at the September term of court.

The charge against Givens, vice-president, and Lore, cashier, of the Bank of Nampa, limited, developed from investigations made after the bank failed September 28, 1913. It was alleged that the report to the state banking department, made April 4, 1913, signed by Givens and Lore, did not show the true condition of the bank and was made for the purpose of deceiving the State Commissioner.
