

CARRANZA'S ENVOYS TO MEET HUERTAS'

Rival Factions of Mexico to Be Drawn Together in Peace Conference.

VILLA IN ON NEGOTIATIONS

Miguel Covarrubias, Former Mexican Minister to Russia, Seriously Considered for Provisional President—Rebels Gain.

WASHINGTON, June 22.—Officials of the Washington Government whose hopes for peace in Mexico had been somewhat dampened by the events of the past week, were wearing hopeful smiles again to-day when the announcement came from Niagara Falls that the United States had extended an invitation to representatives of the Mexican constitutionalists to meet the American and Huerta delegates at the mediation conference for an informal discussion of peace proposals.

That the United States had for some time been exerting strong influence to bring the constitutionalist leaders into the mediation conference upon such a basis, one that would not involve an armistice in the campaign against the Huerta government, was not denied here. The intimation was given that this influence had not withered, and that before many days representatives of the constitutionalists would proceed to Niagara Falls.

Ultimate Success in Sight.

This development, it is declared, is an assurance that mediation will be prolonged for some time with an increased hope of ultimate agreement being reached upon a provisional government for Mexico to take the reins of the country.

The announcement from the mediators today was reported here to have been the culmination of prolonged formal negotiations by the Washington Administration with General Carranza, General Villa and other revolutionist chieftains in Mexico and the conferences held here last week by one of the mediators, Dr. Naon, the Argentine Minister, with President Wilson, Secretary Bryan and representatives of the constitutionalists.

Envoys on Way.

Following the conferences General Carranza and his agents here were in telegraphic communication for several hours. Subsequently they started for Mexico for Washington, Fernando Iglesias Calderon, Alfredo Brecada and Leopoldo Hurtado Espinosa, as representatives of the constitutionalist movement. These men, it is believed, are to take charge of the proposed informal negotiations with the mediation conference, or at least to direct the general policy with reference thereto.

Among the candidates for Provisional President of Mexico now said to be seriously considered is Miguel Covarrubias, ex-Minister to Russia, who is now in London. Covarrubias, it is reported here, while in sympathy with the constitutionalists, is said to be less objectionable to the Huertistas and Huertistas in Mexico than any other candidate yet suggested.

Rebels' Conquests Numerous.

Reports from Admiral Howard today showed that small places along the Mexican Pacific coast were falling into the hands of the constitutionalists almost daily. Manzanillo was reported cut off from railroad communication, while Mazatlan and Guaymas fell after held by small forces of rebelled federalists who have been compelled to send away for supplies.

Consul Canada at Vera Cruz Reported Today that General Alcazar, the Filipino servant from the American fleet who was arrested as a spy by Mexican federalists near Vera Cruz, was safe in the custody of the Brazilian Minister at Mexico City. He will be sent to Vera Cruz tomorrow.

INTERNAL ISSUES SEPARATED

Huerta-Carranza Delegates May Receive A. B. C. Board of Task.

NIAGARA FALLS, Ont., June 22.—Through the invitation of the United States Government and the good offices of the three American mediators, representatives of the two warring factions in Mexico—the constitutionalists and the Huerta government—soon will be brought face to face in an informal conference, distinct from the mediation proceedings.

To Save Mexico from Further Spoilation and the Possibility of Foreign Interference, the Constitutionalists Apparently have prevailed upon to meet their countrymen—the Huerta delegates—in a peace conference whose object shall be the ending of the civil strife which has divided Mexico in the last 18 months.

Final word on details has not come from General Carranza, but it is the expectation tonight of the mediators, American and Huerta delegates, that tomorrow, or Wednesday at the latest, they will be before signing a final protocol. It even has been suggested that the mediators might take a short recess while the informal parleys between the constitutionalists and Huerta delegates were improving.

MUERTAS' DEFEAT BIG AIM

Villa's Plan to Push on South Indicates Healing of Breach.

EAGLE PASS, Tex., June 22.—General Villa is determined to complete the absolute defeat of Huerta and fight his way at the head of his army into Mexico City irrespective of the action General Carranza may take, according to reports brought to the border today by travelers arriving from Torreon and Monterrey. These reports state that after Villa occupied Zacatecas he will push on south without waiting for troop movements other than those under his own direct control.

At Saltillo it is reported that General Trevino, chief of staff to Carranza, soon will be assigned to field duty and will command a brigade in

the attack on San Luis Potosi. General Eduardo Hay, who has been with General Obregon's command on the west coast, is expected to succeed Trevino as chief of staff.

CARRANZA'S FRIEND GOES

Senor Calderon Mentioned as Possible Choice for President.

NEW ORLEANS, La., June 22.—Fernando Iglesias Calderon, released from prison when the American troops occupied Vera Cruz, left here tonight for Washington, where he said he was going on a mission for the liberal party of Mexico, of which he is the leader.

Immediately after his release from San Juan de Ulloa, Calderon hastened to Northern Mexico to confer with Carranza. In a statement tonight he denied that he was going to the American capital as Carranza's representative, but admitted that he expected to confer with President Wilson and Secretary Bryan and later might visit Niagara Falls.

Calderon has been mentioned as Carranza's choice for provisional president of Mexico.

ANTI-KAMNIA TABLETS FOR ALL PAIN

"The efficiency of any drug," says Dr. C. P. Robbins, "is known to us by the results obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often refers to for relief. It is something to relieve his pain. If we can arrest this promptly, the patient is most likely to trust in the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-Kamnia Tablets. Many have varied their cases. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, when quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-Kamnia Tablets are also excellent for the relief of neuralgia, and especially for women subject to painful menstruation. They give prompt relief, and in a short time the patient is able to go about as usual." These tablets may be obtained from all druggists. Ask for Anti-Kamnia Tablets. They are also unexcelled for headaches, neuralgia and all pains. They also make Anti-Kamnia Salve; it is a wonderful remedy for skin diseases.
