"The public schools of the United States are now subjected to an acid test which they never have faced in the past." Dr. Loveland asserted. "The magazines and the press constantly question the success of the school system. The schools, too, are responding to the demand of the public. They are taking notice of the fact that a boy should have some knowledge of business when he finishes school. They are realizing that it is as important for a girl to know how to make biscuits as to know whether Gaul was properly divided into its parts."

When Superintendent L. R. Alderman, who handed out the diplomas, departed from the customary procedure of commencement exercises and called upon the parents of the graduates to stand, there was no hesitation, but a general up-springing of proud and smilling fathers and mothers in all parts of the auditorium, while the hullding shook with roars of applause.

To R. L. Sabin, past chairman of the School Board, the graduating class paid special tribute for his unflagging energy in support of the Trades School during his service on the Board. When he had finished his address to the class he was presented an enormous basket of flowers from the class.

ing our bodies every day without causing disease.

The reason for this is that there are forces within the body that are constantly fighting these disease germs and it is only when this defence is weakened that the germs get the upper hand and we become ill. One of the most powerful of these forces that work for health is rich, red blood. Good, healthy blood increases the resistance of the body to the diseases that are always threatening. It is easier to keep up this resistance by taking Dr. Williams' Pink Pilis, eating proper food, avoiding articles of food that do not agree with us and getting plenty of fresh air day and night, than it is to cure disease after it gets a foothold. Keep up the resistance of your body to disease by these tonic pills, which you can get at any drug store, and you will avoid much sickness.

Two booklets, "Building Up the Blood" and "What to Eat and How to Eat." will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y.—Adv.
