FIGHT FOR ASTORIA RATE IS OPPOSED

Port at Columbia's Bar Wants Equal Shipping Advantages With Puget Sound.

STRUGGLE BEGINS MONDAY

Granting of Reduction Would Mean Relative Lowering of Railroad Tariffs to Portland, Discriminating Against Scattle.

Every railroad in the Northwest is preparing vigorously to oppose the plan to give terminal rates to Asteria from interior points. The case will be heard

interior points. The case will be heard in Portland before Examiner Pugh, of the Interstate Commerce Commission. next Monday.

The City of Astoria, through its attorneys, Falton & Bowerman, has petitioned the Commission for rates on a parity with those applying to Portland and Puget Sound, contending that the present differential of 4½ cents per 100 pounds on grain and varying rates on other commodities are unjustly discriminatory against Astoria.

The broad contention of the Astoria people is that it costs less to han!

The broad contention of the Astoria people is that it costs less to han freight from interior points down the water grade of the Snake and Columbia rivers to the mouth of the Columbia than it does to haul the same tonnage across the mountains to Tacoma and Seattle.

and Seattle.

Although Portland and Puget Sound have common rates, Puget Sound is made the basis, in the Astoria petition, for the readjustment of rates, inasmuch as the alleged discrimination against Actoria is more pronounced, when compared with Puget Sound, than when compared with Portland.

All Railroads Interested.

All Railroads Interested.

It is probable that all railroads serving the Northwestern territory will be represented at Monday's hearing. A conference of railroad attorneys and traffic officials will be held here Saturday to outline a course of procedura. Meanwhile, the various interested lines independently are working to combat Astoria's fight.

It is probable that the railroads will attempt to show that Astoria's efforts really conceal a well-developed movement on the part of interested Portland shippers to secure a reduction in the Portland rate.

ment on the part of microscopic and shippers to secure a reduction in the Portiand rate.

If Astoria has terminal rates, it is pointed out, Portland will be justified in asking the Commission for less than-terminal rates. Portland thus would be in a position to enjoy the fruits of its natural advantage over Puget Sound, that is, its geographical position on a water route.

The railroad attorneys point out, however, that the "northern" lines, or those serving Puget Sound direct, would not tolerate such a situation, but would, in order to protect themselves and retain their share of the business, cut their rates to meet the new Portland rate. The relative positions of Astoria, Portland and Puget Sound then would be the same as they now are, only the rates would be substantially lower all around.

Pertland Cut Would Be Forced. Pertland Cut Would Be Forced.
Officials of the O.-W. R. & N. Co.
declars that, if Astoria is granted
terminal rates, they will be forced to
cut the rate to Portland, whether the
shippers here ask them for a reduction or not. They point out that it
always will be cheaper to transport
grain and other interior commodities
by water than by rail, between Portland and Astoria. They will apply
this principle in this manner:
If Astoria is granted terminal rates

If Astoria is granted terminal rates carlton. Shipowners naturally will prefer to pick up their cargo at Astoria rather perkins. than at Portland. The O.-W. R. & N. Edwar. pick up their cargo at Astoria rather than at Portland. The O.-W. R. & N. Co., which has no rail line to Astoria. Would be required to pay the Spokans, Portland & Seattle road, which is the only line serving Astoria, for the haul between Portland and Astoria. Since it is cheaper to move the business between Portland and Astoria by water than by rail, the O.-W. R. & N. Co. would be forced to quote an all-rail rate to Portland sufficiently lower than the Astoria terminal rate to absorb the shipping charge between Portland rate thus would be accomplished, whether the shippers asked for it or not.

The railroads also will point out that even should the northern lines be that even should the northern lines be the control of the Portland sufficiently lower than the Seward.

The railroads also will point out that even should the northern lines be the seward.

The railroads also will point out that even should the northern lines be the control of the People's Power League and leader in the campaigns waged against the University of Oregon appropriations, died at the home of his mother, Mrs. S. Parkison, at the league and leader in the campaigns waged against the University of Oregon appropriations, died at the home of his mother, Mrs. S. Parkison, at the league and leader in the carbon.

COUNCIL IS RESPONSIBLE

Anti-Transfer Policy and Refusal to Grant New Permits Cause Dullness in Liquor Trade and Cut in Applications.

Owing to the ironclad anti-liquor li-cense transfer policy adhered to by the City Council and the present slump in the saloon business, it is expected that after today Portland will have fewer saloons than at any time in the past 12 years. This is the last day for the renewal of the liquor licenses for the rest of 1914 and it is believed that between five and 10 licenses will go by default.

There are, at present, 405 saloon 11-

There are, at present, 405 saloon licenses in existence and the model liquor
license law prohibits the issuance of
any new ones. If more than five licenses are dropped today, the total
number of saloons in the city will fall
below 500 for the first time in 12 or
15 years. The number of licenses has
been as high as 456. When the present City Counici took office there were
419 licenses. By the process of elimination, including revocation of licenses
and the discontinuance of the transfer
system in vogue up to last March, the
number has decreased. The present
administration is responsible for the
elimination of 18 licenses, either direct.
ly or indirectly. There are, at present, 405 saloon 11ly or indirectly.

Today Is Last Chance. At 5 o'clock this afternoon all li-censes outsanding must be renewed and the holder must have paid the city \$400 to cover the license fee for the rest of this year.

is year. to last March a saloonman might Up to last March a salconman might sell his license to some other dealer if he wished to quit business or was unable to pay his license. This caused licenses to become valuable, inasmuch as a man going into the salcon business was required to get a license by transfer, the Council being unable to grant new ones. When the present Council adopted the anti-transfer system their value was lost and the practice was stopped. Up to that time many persons held transfers for speculative purposes.

urposes.
The Council has followed its anti-The Council has followed its anti-transfer policy strictly, having refused a number of applications for transfers. Exceptions have been made only in ex-ceptional cases and in those where a saloon keeper wished to move from one building to another without selling out or changing the license ownership.

Some Transfers Granted. In the past few days a number of in the past lew days a number of applications for transfers of this type have been made. In some cases the transfers were not allowed, but in the majority they were granted. These were transfers of location and not-
