

LIQUOR LICENSES OF GRILL REVOKED

Action by Council Unanimous
in Richards Case and Emer-
gency Clause Is Added.

BUSINESS TO BE CONTINUED

Mayor, Receiving Support of Asso-
ciates in Cleanup Campaign, Ex-
pects to Prefer Charges
Soon Against Others.

No more drinks can be sold at Rich-
ards' Grill and barroom. The City Com-
mission, on the strength of testimony
heard Thursday afternoon to the effect
that the place has not been properly
conducted, revoked the liquor licenses
yesterday by unanimous vote. A rev-
ocation ordinance was passed, with an
emergency clause attached, making the
revocation effective at once. At the
same time another ordinance was
passed giving T. I. Richards, proprietor
of the place, a refund of the unused
part of his license, amounting to
\$225.10.

An hour after the action of the Coun-
cil License Inspector Hutchinson dis-
cussed the grill and the management sur-
rendered the licenses. Announcement
was made later that no attempt will
be made to sell any liquor in either the
grill or the restaurant or barroom, but
that the restaurant will be continued
the same as in the past. Mr. Rich-
ards says only 25 per cent of his re-
ceipts were from liquor, so that he still
has a good margin on which to con-
tinue his restaurant business.

The action of the Council had been
expected. The grill management was
not even represented at the Council
session. The ordinance was passed
without discussion.

The emergency clause reads: "An
emergency hereby is declared to exist
for the preservation of peace, health
and safety of the City of Portland. To
protect the morals and welfare of the
people of the City of Portland it is
necessary to eradicate known places
where immorality is practiced and this
ordinance is directed to that end.
Therefore an emergency is hereby de-
clared and this ordinance shall go into
force and effect from and after its
passage by the Council."

Mayor Albee, in receiving the unani-
mous support of the Council in his
campaign against this place, announced
that he had other places under sur-
veillance and expected to present charges
against some others in the near future.
That his plan meets with the approval
of the rest of the Commission is ap-
parent from the fact that they have
upheld him in all cases brought up pre-
viously.

The Richards Grill management has
no appeal from the action of the Coun-
cil. The Council, under the liquor
laws, has absolute and final power in
the matter of granting and revoking
licenses.

The revocation of the Richards li-
cense is the fourth grill license re-
voked by the present administration.
In a general investigation made last
December prior to the granting of
license renewals for the first half of
1914, three establishments were de-
clared to be immoral and were put out
of business. These were the Levens
Grill, on Third street; the Pittsburg
Grill, on Sixth street, and a grill con-
ducted by Martin Denny, on Second
street.

ROADS OPPOSE ASTORIA

ATTORNEYS COME TO PREPARE
FOR RATE HEARING.

Contention Will Be Terminal Charge to
Port Is Impossible Because of
Length of Haul Involved.

H. A. Scandrett, of Chicago, inter-
state commerce commissioner, arrived in Portland
yesterday to prepare for the Astoria rate
hearing in the Federal building next
Monday. The Union Pacific railroad, which
includes the O-W. R. & N. Co., is
preparing to resist the efforts of
Astoria to procure terminal rates from
the interior.

Henry Blakely, general freight agent
for the Northern Pacific at St. Paul, is
here to represent that road. H. E. Still,
general Western freight agent for the
same road at Tacoma, joined him here.
J. G. Woodworth, vice-president of the
Northern Pacific in charge of traffic,
will arrive today.

The Great Northern probably will
be represented by M. J. Costello, as-
sistant traffic manager at Seattle, and
by Judge F. V. Brown, general Western
counsel.

W. D. Skinner, traffic manager of the
North Bank road, has been handling the
preliminary details for the railroads and
has outlined the plan of probable
procedure.

The railroads will contend that it is
a physical and economic impossibility
to give Astoria the same rates that
apply to Portland and the Puget Sound
points. Rates are not fixed, they point
out, by the lines of least resistance,
but by the shortest actual mileage be-
tween given points.

It is the contention of the Astoria
interests that Astoria, because of its
position on the water grade from the
interior, is entitled to rates as low as
those applying to Puget Sound. The
rate to Astoria now is 4 1/2 cents a
hundred pounds higher on grain and other
responsibly higher on other commodi-
ties than to Portland or Puget Sound.

MINING LABOR SATISFIED

Federal Company President Predicts
Big Year for Coeur d'Alene.

That mines are working double shift,
with high wages and no labor trouble,
and that conditions in Idaho are gen-
erally good, is the word brought by H.
L. Day, of Wallace, president of the
Federal Mining & Smelting Company
and one of the owners of the Portland
Hotel, who arrived recently.

"The Coeur d'Alene mines will pro-
duce in the neighborhood of \$25,000,000
this year, from present prospects," said
Mr. Day, "and this will be almost a
record."

Mr. Day reports that the "wet" and
"dry" forces in Idaho are lining up for
a hard fight.
