MR. ALBEE IS INVITED TO JOIN CONFERENCE OF EXECUTIVES.

Mayor Albee yesterday received an invitation from Mayor Blankenburg, of Philadelphia, to join in a movement started by the Mayors of Philadelphia, Chicago and New York to have municipalities of the United States fight what is styled "a combination of municipal utilities." It is planned to have a conference in one of the Eastern cities later in the year.

Among the suggestions made by those promoting the campaign is the organization of a Bureau of Public Utilities Research to investigate and give the cities "the same able assistance which the public utility companies, thus in effect constituting an offense and defense alliance among the cities similar to that existing among public utility corporations."

"To this end," says Mayor Blankenburg in his letter, "we are preparing to form a permanent organization of this character. I am writing to you to ascertain your interest in this matter and to ask whether you would be represented at a Nation-wide conference of city officials to be held in this city in the Autumn to discuss the various phases of public utility problems as affecting the people, and how they may be met."

"Mayor Mitchell of New York; Mayor Harrison of Chicago; Mayor Baker of Cleveland, and Mayor Shroyer of Dayton, join me in making this inquiry. We are confident that the result will be a great step forward in the matter of securing a proper presentation of the people's side in utility cases."

LOT OWNERS CUT WEEDS. HASTE MADE TO PREVENT CITY DOING IT AT THEIR EXPENSE.

Notices Placed on 675 Places and All but 215 Cleared by Taxpayers—New Ordinance Provides \$2 Penalty.

That property owners are hastening to get ahead of the city by cutting weeds on vacant property before the city workers get to work, is apparent from the report of weed cutting made yesterday to City Commissioner Dieck. Of 675 lots on which "cut weed" notices were posted the city had only to cut weeds on 215 lots, the remainder being cut by the owners.

The work by the city has been stopped until next week as the time limit for cutting by property owners has not expired on the lots posted since the passage by the Council of a new weed ordinance. The new ordinance provides for a penalty of \$2 a lot for the work.

The city has \$2 men at work posting the notices on vacant property where weeds are more than 10 inches high. As soon as the time limit expires, the weed cutters will start work again and continue through July, August and September.

It is reported that some persons have cut weeds back about 10 feet from the sidewalk, leaving the weeds on the remainder of the lot standing. This, city officials say, is not sufficient, as the ordinance requires that all be cut.

BIG LINER NEARLY READY. "Great Northern Will Be Launched at Philadelphia, July 7.

Without much ceremony or celebration, the North Bank railroad's big \$2,500,000 liner "Great Northern" will be launched at Philadelphia next Tuesday afternoon, July 7.

This will be the first of the twin vessels now under construction at the Crampa shipbuilding yards to take the water. The other vessel, the "Northern Pacific," will be launched early in August.

Both vessels will be completed and brought through the Panama Canal early in the year. L. C. Gilman, president of the North Bank, is ambitious to have the first vessel ready for service between Flavel and San Francisco about February 1.

Rapid progress is being made on the new docks at Flavel. These docks will be the northern terminus of the line. At that point passengers and freight will connect with the North Bank rail line for Portland.

It is possible that a fitting celebration will be held at Philadelphia when the "Northern Pacific" is launched in August. Both James J. Hill and L. W. Hill are absent from the country on a fishing trip now. If either or both of them can be present at the launching, the event will be celebrated properly.
