NIAGARA FALLS, Ont., Joiy I.—Ambassador Da Gama, of Brazil, formally amounced today the practical settlement of the conflict between the United States and Mexico. He explained that while the mediators would take an indefinite recess, awaiting the outcome of efforts by representatives of the two Mexican factions to solve the internal problems of Mexico, the task of mediation was not yet concluded.

The Ambassador spoke at a luncheon given by the three mediators to the newspaper men.

"It is a source of satisfaction for

"It is a source of satisfaction for me," said the Ambassador, "to be able to say that one of the essential points of our programme, that dealing with the international side of the conflict, is practically serviced. practically settled. War Regarded as Averted.

"We feel that so far we have averted war. We have established also through agreement between the parties most directly interested and in complete harmony with the sentiments of the Government of the United States that it is a principle of American polley to have our National problems always subjected our National problems always subjected to a fair examination and settled with-out foreign interference. We under-stand that if such a result has been attained we shall have created a more attained we shall have created as more

favorable atmosphere in international politics in America." Mr. Da Gama called attention in his speech to the fact that President Wil-son had personally informed the medi-ators before they left Washington that the only way to solve Mexico's probthe only way to solve Mexico's prob-lem was "to aid the contending parties in Mexico to reach an agreement among themselves, thus obtaining a Mexican solution on the Mexican ques-

Carranga's Note Acknowledged.

The speech served also as a definition for the world generally of the
hitherto unsettled status of mediation.
The mediators tonight formally acknowledged the latest note from General Carranza. The answer expresses
the appreciation of the mediators for
the friendly sentiments toward peace
uttered by Carranza and is most courteomsly phrased.

Under present arrangement if a calker in the department runs out of work he has to be laid off. Many times they cannot take because of the civil service rules. It is proposed to classify tappers, calkers and metermen all in the same rank so that a man in any one of those services can be transferred to another.

Now that the issue has been raised. It is expected that the House will leave the way clear for the Oregon to lead the procession through the canal, and the Senate probably will accept the House amendment. There would have been no such amendment, in all probability, had not Secretary Garrison objected to permitting a French ship to carry off the honors on an occasion distinctly American.
