

PRESSURE EXERTED BOTH WAYS ON T. R.

Maine Delegation Urges Colonel to Save Himself for Contest in 1916.

DOCTOR AT OYSTER BAY

Medical Man to Make Another Examination Today, Though Patient Refers to Conferences as "Bully Day of Rest."

OYSTER BAY, N. Y., July 8.—After a crowded day of conference with Progressive leaders at National headquarters in New York, Colonel Roosevelt reached Sagamore Hill at 8 o'clock tonight, saying he had a "bully day of rest."

Dr. Alexander Lambert came with him in a motor car. He intends to stay at Oyster Bay until late tomorrow, to give the Colonel another examination. Asked tonight if he had been impressed by the urging of delegations that want him to stay out of the race for Governor, Colonel Roosevelt said: "I have told nobody that I will run for Governor."

Pressure Is "Both Ways." When it was suggested that strong pressure had been put upon him regarding the Governorship, he answered: "Yes, both ways."

A delegation from Maine, with Herbert P. Gardner, Progressive candidate for Governor, at the head, urged Colonel Roosevelt to decline to make the race for Governor. Mr. Gardner urged that the Colonel ought to save himself for the Progressive race in 1916, when the Progressives the country over expect he will lead the ticket.

Mr. Gardner said the Colonel, while giving no decisive word, had conveyed the impression that he would not run for the Governorship.

Lauder Called "Buffoon." Somebody handed to the Colonel a newspaper dispatch quoting Henry Savage Landor, of England, as renewing his attack on Roosevelt's claim to the discovery of a river in North America.

"Landor," the Colonel exclaimed, "is a perfectly preposterous absurdity. No serious scientific dream of accepting him as anything more than a buffoon as an explorer."

Colonel Roosevelt agreed today to meet his speech in Boston, originally set for July 24, on August 17.

MRS. PANKHURST TAKEN

SUFFRAGETTE'S COMMAND OF HER FORCES SHORTLIVED.

Violent Scenes Renewed at Trial of Conspirators—Burns' Birthplace Is Scene of Attack.

LONDON, July 8.—Hostilities between the author and the suffragettes were renewed today. Scarcely had Mrs. Emmaline Pankhurst resumed command at her London headquarters before the police arrested her. She was taken to Holloway jail.

There was a violent scene at the trial of four women arrested for conspiracy and found with a quantity of bombs in their rooms. The women refused to plead and one of them kicked several policemen in a scuffle in the courtroom.

A suffragette was arrested trying to place bombs around the cottage at Avon, Scotland, Robert Burns' birthplace. A companion escaped.

Militants made desperate efforts at Dunbarton today to attract the attention of King George and Queen Mary, who are making a tour through Scotland. At Balloch bridge, at the foot of Loch Lomond, the women cut down all the decorations and at Dalmuir, 10 miles from Glasgow, they managed to break out a huge banner bearing the words: "Your Majesty, stop the forcible feeding and torturing of women."

Neither the King nor the Queen paid the slightest attention but the crowd displayed such a hostile attitude that the militant suffragettes beat a hasty retreat.

on one of his heels. He left his home and walked to the physician's house. Arriving, he decided he could dress the wound himself and save the doctor's fee. So he walked past the house and then turned around to begin his journey home.

At that instant he heard an explosion. He thought it was caused by an automobile tire, but when he looked for the machine he could not find it. He turned his eyes toward the lawn at the side of Dr. Carman's home.

A woman, tall, well built, hairless, wearing a light shirtwaist and a dark skirt, was moving away from one of the windows at the side of the physician's office toward the rear of the house.

She was not running, not casually strolling around the lawn, she was walking "in a hurry," the witness swore.

Confidant Telephones Prosecutor. Bardes, the last witness to take the stand before the inquest was ended, was discovered only yesterday. His story might still remain untold had he not mentioned it, first to a woman, who promptly telephoned the District attorney, and then to a Catholic priest, he visited for advice. The priest urged Bardes to make his story known. Before an opportunity presented itself he was taken in custody by orders of the District Attorney.

Coroner Norton, after spending an hour studying the testimony of Bardes and other witnesses, wrote out his charge and ordered Mrs. Carman's arrest.

Word was sent to Mrs. Carman that she was about to be arrested, and a few minutes later county officials entered the doctor's office. Mrs. Carman, pale but retaining her self-control, accompanied by her husband, attorney and others, came in a minute later.

Coroner Does Duty Tenderly. Coroner Norton, for years an intimate friend of the family, with tears in his eyes, read his charge and the warrant of arrest he had signed. Mrs. Carman stood erect facing him. Before them, on the floor, was a dark marking the spot where Mrs. Bailey died.

Mrs. Carman was then allowed to go to the second floor of her home, where her mother had been ill in her room, the care of physicians, since the day after the murder. Coroner Norton, relating what took place, said that Mrs. Carman kissed her mother, who told her not to worry and that everything would be all right.

With her husband and the Sheriff, Mrs. Carman entered the auto and was taken to the jail.

Mistress Gives Up Room. Although as cell had been prepared for her, she was taken to the warden's apartments, on the top floor, where she was placed in care of the matron, who gave up her own room to the prisoner. Dr. Carman and his wife's attorney remained in the jail until late tonight.

While the automobile carrying Mrs. Carman was running through Hempstead, it passed a frail little girl in black. She was Madeline Bailey, 17-year-old daughter of the murdered woman. She was not aware that a woman held as her mother's slayer was passing.

In the Courtroom, adjoining the jail, the grand jury tomorrow will begin its investigation of the murder. All the witnesses who have appeared before three sessions of the inquest and some others were served today with subpoenas to appear as witnesses.

The testimony of Gaston Boissonault, manager of the detective division of a concern that manufactures telephone devices for recording conversations, had an important bearing on the case also.

Telephone Device Rented. Boissonault said Mrs. Carman rented a device, saying she wanted to hear what went on in her husband's office. He added that Mrs. Carman had told him about seeing a nurse kiss Dr. Carman.

"She said she was so mad," he went on, "when she saw that kiss, that she almost broke the window by knocking on it."

Mrs. Carman told him further, he said, that she knew her husband met many women, both in his home and outside, and she asked the witness whether he could furnish detectives to follow him. She had said emphatically she would not get a divorce on account of her daughter.

The witness said one of his instruments was installed, and that later

PEERS HASTEN BILL

Time Limit on Ulster's Exclusion Removed.

REFERENDUM IS DEFEATED

Province Not Under Home Rule to Be Governed by Secretary, Avoiding Possibility of Influence From Dublin.

(Continued From First Page.)

LONDON, July 8.—The House of Lords dealt with the bill amending the home rule bill with unusual expedition today, and wasted little time in discussion.

Three important amendments were adopted today. The first provided for the elimination of the clause of the bill requiring that a vote shall be taken in each county of Ulster on the question whether it should be excluded from the operation of the home rule bill. The second provided for the total exclusion of Ulster, without time limit.

The third, which was accepted by the government, placed the excluded Ulster under a Secretary of State, instead of the Lord-Lieutenant, in order to avoid any possibility of influence from Dublin.

An amendment offered by Lord Macdonnell, proposing a sort of home rule within home rule, by setting up a special Ulster council of 22 members to take over the chief administrative work of the province, was supported by moderates like Earl Loreburn and Lord Lansdowne, referring to the Marquis of Crewe's challenge Monday.

The opposition would not guarantee Ulster's exclusion would prevent civil war. Things had come to such a pass in Ireland, he said, that it was impossible for any one to guarantee what might happen in the next few weeks, even days.

"But on the whole," he continued, "we are inclined to believe that this arrangement is more likely than any other to provide relief from the present anxieties."

JAPAN WHOLLY NEUTRAL

PROHIBITION OF EXPORT OF ARMS TO MEXICO ENFORCED.

Company With Contract to Supply Huerta Government Forbidden to Make Delivery.

WASHINGTON, July 8.—How Japan has adhered to its declared intention of maintaining neutrality in Mexican troubles was described in a report received tonight at the Navy Department from Captain Andrews, of the cruiser Maryland, on the Pacific Coast.

"I am told by Captain Moryama, of the Idzuma (Japanese) cruiser," said the report, "that the Japanese merchant steamer Soyo Maru, which touched at Manzanillo and Salina Cruz, her regular ports of call, recently, did not bring any arms or ammunition to Mexico, because the Japanese government did not permit her to do so. Before the departure of the Soyo Maru from her last Japanese port she was thoroughly searched by the Japanese government to make sure that she did not carry any arms and ammunition."

"I am further informed by the captain of the Idzuma that the Mitsui Company has or had contract with the Huerta government for arms and ammunition, but that the Japanese government would not permit delivery at this time, out of friendship to the United States."

Commanders of Mexican gunboats on the Pacific Coast have taken unusual measures to facilitate the work of American cruisers assigned to keep them under observation.

TEACHERS OPPOSE SEX INSTRUCTION

Association Condemns Club-Going Mothers Who Would Be Rid of Responsibility.

SACREDNESS IN DANGER

Representatives of Smaller Schools at National Convention Behind Resolution Disapproving Big Pension Foundations.

(Continued From First Page.)

ST. PAUL, July 8.—"Sex instruction placed on the same basis as spelling and arithmetic will become so common that it will lose its sacredness," asserted Dr. Charles H. Keene, of Minneapolis, supervisor of hygiene and physical training, before the National Education Association today.

"We should have but the strongest condemnation for the wealthy, club-going woman, who has not the time to teach her children the fundamental truths of life, but who would throw the responsibility on a teacher or a football coach," he continued.

As speaker after speaker expressed similar views, it became apparent that the added duty of teaching sex hygiene would not be placed on the American teacher if it could be prevented by the association.

Blame Placed on Parents. Principles and aims of education formed the topic of discussion at the general session tonight. Election of officers and reports of various committees will continue the principal work on tomorrow's programme.

N. D. Showalter, president of the Cheney Normal School, Cheney, Wash., said:

"When a father or mother turns aside a child's natural question or deals dishonestly with sex questions, he lays the foundation of an immorality which may develop into a tremendous force."

The child born out of wedlock is not ordinarily a defective, nor is it necessarily bad, according to Dr. M. P. E. Grossemann, of the National Association for the Study and Education of Exceptional Children, who spoke before the department of special education. A close study of thousands of cases, he said, had disclosed the startling fact that fewer than 10 per cent of the children born to women leading irregular lives were below normal.

"Average Child" Non-Existent. Dr. Grossemann further declared there was no such thing as an average child. "Every child is an exceptional child, a different child," he said. "There is no standard by which to judge them as 'average.'"

Statistics have been compiled by Dr. Grossemann showing that the United States spends \$1,000,000,000 annually for police, courts of justice, prisons, charities and corrections and similar forms of protection against evils, and only \$600,000,000 for schools, churches and other constructive agencies.

Segregation of mentally deficient children was recommended in a paper read by Dr. Franklin W. Barrows, of Buffalo, N. Y., medical inspector of schools, before the department of special education.

"Children who are teachable—all those above the stage of idiocy—should be gathered into special classes under expert teachers," Dr. Barrows said. "Children not in schools should be inspected regularly by experts. The home life of subnormal and abnormal children often suppresses the little mentally that they possess."

Salvage in Defective Children. "If properly cared for there is some salvage in most of these children. The medical inspector should examine these children thoroughly and promote their physical health. We ought to have uniformity in our methods of medical inspection and supervision."

"The school occupies a strategic position with every facility for the discovery of these unfortunate cases. No other agency can do what the school can do for the prevention of the evil results that flow from unrecognized and untreated mental delinquency."

That moving pictures are destined to revolutionize the present method of teaching was the contention of speakers at a meeting devoted to the discussion of their use.

Representatives of smaller schools are behind a resolution which is before the committee on resolutions, disapproving the Sage foundation, the Carnegie foundation, the various Rockefeller boards and similar organizations and the board for the pensioning of teachers in the big educational institutions. The resolution is based on the democracy of education and the long effort of the association to guard that democracy.
