Statement Indicates Intention to Stand by Nominations for Bank Board.

WARBURG STILL SILENT

Wilson Declaration, Also Intended to Influence Appointee Against Withdrawing, Defends Legitimate "Big Business."

WASHINGTON, July 8 .- President Wilson continued strongly hopeful tonight that Paul M. Warburg, the New York banker, would reconsider his request that his nomination as a member of the Federal Reserve Board be with-No reply had been received drawn. No reply had been received from Mr. Warpurg to the President's inquiry on the subject, but a definite turn in the situation is expected before the meeting of the Senate banking and

the meeting of the Senate banking and currency committee tomorrow.

In the course of the day Mr. Wilson gave out a statement strongly defending Mr. Warburg and Thomas D. Jones, of Chicago, against attacks on them, and saying that men should not be regarded with suspicion merely because they had been connected with big business. Statement Has Double Aim

This statement, friends of the President said, was intended to serve the double purpose of letting the Senate know he would stand by his nomina-tions and of influencing Mr. Warburg to stay in the race. The statement

"It would be particularly unfair to the Democratic party and to the Sen-ate itself to regard it as the enemy of business, big or little. I am sure that it does not regard a man as an object of suspicion merely because he has been connected with great business enterprises. It knows that the business of the country has been chiefly promoted in recent years by enterprises organized on a great scale, and that the vast majority of the men connected with what we have come to call big business are hopest incorruptive and patriotic. are honest, incorruptive and patriotic.
The country may be certain that it is clear to members of the Senate as it is clear to all thaughtful men that those who have tried to make big business what it ought to be are the men to be encouraged and honored, whenever they respond without reserve to the call of public service.

Personal Sacrifices Appriciated.

"I predict with the greatest confidence that nothing done by the Demo-cratic majority of the Senate of the United States will be of a sort to throw icion on such men. Mr. Jones and Warburg, in manifesting their villingness to make personal sacrifices and put their great experience and audity at the service of the Government, without thought of personal advantage, in the organization of a great reform, which promises to be so serviceable to the Nation, are setting an example of patriotism and of public spirit which the whole country admires. It is the obvious business of statesmanship at this turning point in our development to recognize ability and character wherever it has been displayed and unite every force for the upbuilding of legitimate business along the new lines which are now clearly indicated for the future."

Hitcheok Defends Committees,
Senator Hitcheok also issued a statement:
"Some criticism has been made because the committee did not invite others nominated for membership in the board by the President to come before it," he said. "This, however, is not true.
