Both these efforts were anticipated by the District Attorney and he issued the following statement:

Prosecutor Makes Statement "I heard the story of Golder before he appeared on the witness stand. He he appeared on the witness stand. He told me the same story he told at the inquest, which in brief was that when he called at the Carman home the night of the murder he saw a woman dressed in white sitting on the porch and that he later saw this same woman in Dr. Carman's office. He told me he was sure he knew Mrs. Carman when he saw her.

OBREGON'S FORCES TAKE

(Continued From First Page.) lajara before the rebel forces. The news was received with elation at rebel headquarters, where it was regarded as preliminary to the occupation of Mex-

ico City itself. General Alvaro Obregon, constitutionalist commander, in his message to General Carransa reported that the General Carranga reported that the federals had been completely routed and that he was in control of the entire city, including the federal palace. Five thousand federals had been taken prisoners, according to Obregon's report, and the retreat toward Mexico City of the federals who had escaped had been cut off by troops of the command of General Blanco, detoured from Ameca to destroy the federal lines of communication.

Large Amounts of Stores Taken. Much ammunition, arms and supplies

were captured.

The federals were reported scattered in all directions and great pulsament inflicted on them in retreat, but no figures of losses on either side were avail-

The line of combat, it is said, extended 80 miles, with General Blanco in command of General Obregon's advance guard. General Obregon personally

led the main attack.

For several days the constitution allsts hammered the Guadalajara garrison, which came out from its defenses in an effort to scatter the besiegers. After a destructive combat Tuesday, in

lajara to oppose the rebel advance were routed, 600 prisoners were taken.

Obregon reported the federals commanded by General Delgado fleeing in disorder with all avenues of escape in possession of the rebels. When the dispatch was filed General Obregon was making preparations for an immediate advance on Guadalajara, which he expected to occupy with little trouble.

Ten troop trains, with large quantities of arms and ammunition, were abandoned by the federals at Ahualulco, according to Obregon's report.

At rebel headquarters it was said today that General Jesus Carranza, with 18,000 men, likely would attack San Luis Potosi within 48 hours. Information received here indicates that most of the federal troops at San Luis Potosi have been withdrawn and Carranza is expected to encounter little difficulty in taking the city. The capture of San Luis Potosi would open an easy road to Queretaro, and constitutionalists are confident the capture of Mexico City is in sight.

County Denies Funds for Nurse.

VANCOUVER, Wash., July 9.—(Special.)—The appeal for the County Commissioners to make an appropriation to continue the work of a visiting nurse in this county was denied by the Board today. Miss Cronen has been employed for several months by funds raised by the sale of Red Cross seals. This fund is depicted, so the county was asked for aid. The Commissioners feel, they said, that the county could not afford it.

The President said business men had been uneasy over the possibility that an attempt would be made to be too explicit in definitions of illegal trade practices. He gave it as his opinion, however, that the fifth section of the Newlands trade commission bill, which makes illegal unfair practices in trade, covers the desired ground well.
