ALL GRADES OF BUTTER REDUCED City Print Price Cut to 25 Cents—Cheese Quotations Also Lower.

A 2% cont decline in butter prices will be affective this morning. The new quotation on city creamery grints will be 25 cents.

One of the creameries put out this quotation yesterday and it will be general today.

The general make of butter throughout the valley is falling off, but the city market has been weakened by the unloading here of a large quantity of off-grade country butter. Much of this inferior butter is the consequence of handling a poor grade of cream during the recent warm spell. Country cubes have offered at unusually low prices, some of them selling down to 19% cents. The ail-around reduction should enable the market to clean up and regain its former healthy tone.

ormer healthy tone. Cheese prices were reduced half a cent yesterday. The Eastern cheese markt has weakened and the Tillamook manufacturers had to come down to meet it.

London Is Moderate Buyer in Wall Street Market-Money Is Nominally Higher.

NEW YORK, July 13.—Continued selling of securities, a goodly part of which was believed to represent liquidations, caused further unsettlement in the stock market today. The movement differed from that of last week in that it affected most of the high-grads issues.

A noteworthy feature was the persistent offering of Canadian Pacific, which was the auction sales today amounted to 11,122 bales,

est active stock for the greater part. It stained a net loss of 4% points. United ates Steel was another leader to decline der the weight of heavy offerings, and for Pacific, the coalers and metal shares used from one for two notes.

under the weight of heavy offerings, and union Pacific, the coalers and metal shares yleided from one to two points.

New Haven and other issues of the same class were again weak, the former declining to its recent low record, while some of the Goulds, Ontarlo & Western, Western Maryland, and Toledo, St. Lauis & Western added to their recent severe losses.

Prices railled fractionally in the final dealings, probably as a result of short covering, but trading became dull and the tone at the close was weak, New Haven, however, reflecting some buying.

London was a moderate buyer here, despite duil conditions at home. Parls was observing a holiday, and Berlin prices were lower. Renewed weakness was reported from Vicuna.

Money rates were nominally higher, last Saturday's low clearing house reserves causing a number of local banks to remain out of the market.

ing a number of local banks to of the market.

In the bond list, half a score of low-prized issues lost from two to 10% points, the latter being the extent of the decline in one of the New Haven subsidiaries. Total sales, par value, \$887,000. Panama coupons 3s decided 1% per cant on call.

Shippers Believe Market May Be

Month Late in Opening—Prospect of Lower Prices Not SO Certain.

A late opening of the saport flour season is anticipated. In former years the market opened about August 1, but shippers believe that this year the Genand will be best brands advanced until Octable. Up to the present time there has been practically no inquiry from the Orient for four. The reason given is the large stocks on the other side and the expectation that with our blig wheat crop new flour prices will be lower. Whether this will be the case remains to be seen.
