Paradise will close behind the first party of "Fresh Air" children this afternoon, as they set their faces again toward the city and the humdrum of dally life in the metropolis, carrying with them only the memories of 10 glorious days of freedom and open air at the seashore.

The committee at Hwaco which entertained this party is almost as regretful over parting with their little guests as the children are loath to leave them. L. D. William, chairman of the does he live?"

"Sure, mum," he answered, "Where does he live?"

The woman plainly was near exhaustion, but there was a glint of humor in her blue eyes as she replied:

"Bless you! I wouldn't he them."

Today also will be a day of antici-pation for two score other children, as it is a day of much regret for those who must return to the city, for the Associated Charities clothing committee this afternoon will outfit the next party, which will leave as soon as possible next week.

Outing City Is Wanted. The destination of the next party has

not been settled yet, owing to delay in making arrangements to take care of it with the women's clubs in other towns. Sliverton already has one party and is preparing to take another in

It was hoped that arrangements could be made to send the party next week to Dallas, but information has been received that the women's club in that city has not been able yet to arrange for places for the little visitors. Edward Wortman yesterday after-noon entertained four mothers and seven "Fresh Air" children with a motorboat ride on the river, in charge of Mrs. C. N. McArthur. A matinee this afternoon at the Empress Theater for R & N. excursion Monday is being 1000 AUILU IUIILIILU

arranged by Manager Pierong.

Applications for places on the "Fresh Air" parties and contributions are being received more rapidly than arrangements for places in the country can be completed. Especially touch-ing are the pleas of tired working the pleas of tired working who come to the office askmothers, who come to the office ask-ing if they cannot be sent on a va-cation for a little rest. They do not ask for two weeks or 10 days, but for e that can be given them, even two or three days.

"Fresh Air" Boy Repentant.

"Joe." one of the boys in the country now, barely escaped trouble with the Juvenile Court, but his difficulty was smoothed over by the intervention of the Associated Charities. Miss Hazel Dolph, who was active in the "Fresh work last year and who has many loyal admirers among the children, found a note from "Joe," after he had

"I stole a bicycle," it said. "I am sorry. I'm going to the detention

Inquiry disclosed that "Joe" stole a bicycle early in the year, so eager was he to get into the country. He was arrested and in the Juvenile Court was fined \$2.50, which had not been paid when he left. The fine was paid at once and "Joe" will not be called back from his outing. Country People Don't Realize

"If the people on the farms and in e open country could only see the wistful eagerness with which mothers and children come to the As-sociated Charities day after day, ask-Wit ing us if we have found a place for them," says Mr. Manning, "there would be places net only for 200 or 200, but for 1000.

"The poor of a great city are no different from other people. They are mostly good, respectable and honest people, but temporarily are placed in unfortunate conditions. After all, they are 'just folks' and the hearts of everybody would go out to them more if they could see the hunger for the open country in their eyes as they come to us, over and over again, asking for a chance to get out where there is green grass and where they can rest a bit."

### STREET DISPUTE PUSHED

Move Made to Force City to Settle Location of Thoroughfare.

To force the city to take steps settle a long-standing dispute as to ex-actly where Fiftieth avenue Southeast from Seventy-second to Eighty-second streets should be, E. A. Kennedy has put up a fence blocking the street from Eightleth to Eighty-second street. He declares that he has a deed to the part of the street he has fenced and con-tends that the street should be 30 feet

morth of his property.

When the tract was laid out provision was made for the street, but a dispute arose as to just where it was dedicated. A. Bergstrom, who owns five acres in the vicinity, extended his fence to where he contends the street line rests. Mr. Kennedy contends that Mr. Bergstrom occupies the street.
