EUROPE HOLDS OFF

No Higher Prices Obtainable on New Wheat Cargoes.

CLUB WORTH 78c HERE

Farmers Are Asking Two to Three Cents Over This Price and Business Is Restricted-New Export Flour Quotations.

Wheat was firm at Chicago yesterday, but not in Europe. A local cargo was sold at 55% 6d, which means that shippers here could pay 78 cents for club and 80 cents for forty-fold. Farmers, particularly in the Pendleton and Walla Walla sections, are asking 2 to 3 cents over these prices and consequently business is still on a limited scale. Red wheat is also being held firmly by growers, though there is no foreign demand for it. A part of the advance in the East was due to unfavorable crop reports from Russia, which for several days have been more or less of a factor in the market, Writing from London under date of July 1, the correspondent of the Northwestern Miller, in commenting on the free offers at that time of wheat from both the Atlantic and Pacific coasts, said:

"Market tendencies for the balance of ghe campaign depend, apart from crop scares, on the actual consumptive necessities of Europe and the present downward trend of prices is probably open to the influence of a natural reaction. The question of supply is still the main factor in the situation and there is no actual increase in the world's reserves. Spring Grain Crop Belt in Serious Condition.

BLACK RUST DAMAGE GREAT

Prospect of Record Yield in Northwest Admitted to Be Gone-Chicago Market Closes 7-8 to 1 1-4 Cents Higher.

CHICAGO, July 22.-Black rust and heat, oiling the outlook for even an average yield in the Spring crop belt, made the wheat market today tend to sear. The close wheat market today tend to sear. The close was firm, % let to 1% c above last night. Corn showed a net advance of % %% to %c, and oats finished %c off to %c up, in provisions the outcome ranged from 23% deciline to a gain of 1% %6.

It was generally admitted for the first time that all prospect of a big crop of wheat this year in the Northwest was gone. Some experts contended that the yield in Minnesota and the Dakotas would prove to be far below normal. On the other hand there was high authority for an opinion that notwithstanding a big loss in general from what had been hoped for, the Spring wheat harvest would yet equal an average, although some sections would be hit hard. Predictions that the United States Government would stop altogether the importing of damaged corn from Argentina put strength into the corn market. Hedging sales kept the outs market relatively weak. New-crop holders were said to be letting go freely.

FISHING BILL IS FEARED Washington Thinks Fishermen Will Be Driven Out if Measure Passes.

The pistol which the Ballou boy was firing belonged to his chum, and he says that he did not see the Burgen boy in front of him until after the gun went off, as he purposely stood with his back to the other boys when he was trying to get the pistol to work.

The Ballou boy is heart-broken over the death of his chum.
