# PANAMA GANAL WILL BE OPEN AUGUST 15

Formal Entry of Vessels Not Requiring More Than 30 Feet Is Scheduled.

CEREMONY IS DEFERRED

Secretary Garrison Says Further Announcement Will Be Made When Greater Depth Secured. Some Work Remains.

WASHINGTON, July 21 .- Opening of the Panama Canal to the world's commerce on August 15 next was announced tonight by Secretary Garrison. Probably the first vessel to pass through the great waterway will be the Cristobal, a War Department steamer now at Colon.

There will be no formalities in the epoch-making event, all ceremonies being left for the official opening when the international fleet passes through the canal in March, 1915. Mr. Garrison's announcement was made in this brief statement:

"The Panama Canal will be open for commerce to vessels not needing more than 20 feet of water on and after Au-gust 15, 1914.

Official Opening Unchanged. The official opening of the canal, as heretofore announced, will be made in the month of March, 1915. An appro-priate announcement will be made when a greater depth of water than 30

"On August 15 Colonel Goethals will inaugurate the commercial service by sending a Government boat through the canal, There will be no ceremonies incident to the occasion, but American newspapers who may desire to have representatives present may do so. The others who will be present on the boat will be determined between now and the time mentioned. "LINDLEY M. GARRISON."

When the Cristobal steams from its slip to the Atlantic entrance of the ca-nal it will mark the conclusion by American enterprise of the greatest engineering task ever undertaken and the culmination of ten years of the hardest kind of work against physical obstacles which have severely taxed the abilities of the Army engineers under Colonel Goethals.

Work Remains to Be Done. Some things remain to be done to perfect the waterway. The channel through the Culebra cut must be deepened and widened so that it will not be necessary for the great liners and battleships to pass through the tricky at Cucharacha and Bold Hill in single file. Much excavation must be done in both approaches and many of the buildings which will house the of-fice forces, the mechanical departments and the supply divisions remain to be completed.

While with 20 feet of water in the canal some of the great dreadnoughts might pick their way through after August 15, yet Secretary Daniels said tonight he would not be likely to order any such movement except in an emergency. He will wait until there is more water in the great ditch,

The suit has been brought in the Supreme Court.

"When an issue of this kind is raised by a person of such prominence one has but one of three courses—to submit to the aspersion, to enter into an unseemly personal controversy, or to appeal to the courts, in order to give the person who utters the libel an opportunity to produce legal evidence. A copy of the complaint was handed to the ex-President by James S. Y. Ivins, of the law firm which is acting for Mr. Barnes. According to Mr. Ivins it rests with Colonel Roosevelt whether the suit shall be tried before election or delayed, perhaps two years.

Mr. Ivins, after meeting Mr. Barnes in the Republican Ciub in New York

in the Republican Club in New York and receiving the papers, motored to Oyster Bay in a downpour of rain. When he reached Sagamore Hill he was met at the door by Colonel Roosevelt's son, Archie. The Colonel was at dinner. He had learned that the lawyer was on the way from New York and hastened out to meet him. Without awaiting Mr. Ivins' explanation of his visit, he held out his hand and greeted him

ordially.

"I'm sorry," Mr. Ivins began, "to disturb you in a matter of this kind"—but Colonel Roosevelt would listen to no expressions of regret.

"That's all right," he said. He invited Mr. Ivins into his library. That he brought out a how of cigars are cordially.

Ivins left. Mr. Ivins said Mr. Barnes when he

was looking over the papers in New York, remarked: "Mr. Roosevelt last year did the very unusual thing of suing for libel a Michigan editor who called him a drunkard. I am simply following the recedent he set."

The only comment made by the Colonel was when he was informed of the suit in the afternoon. He had just returned from a walk through the woods.

When the sult was mentioned his face grew stern for an instant. Then he laughed:

"Let Mr. Barnes go on," he said slowly, choosing his words with care. "I have never said anything that could not prove."

PROBLEMS OF TRAINING SUNDAY SCHOOL WORKERS DISCUSSED.

Problems of training Sunday school 10 of the Oregon Sunday School Association in the Fourth Presbyterian Church, First and Gibb streets, last

night. Rev. Charles A. Phipps and W. S. Hollis were the speakers and both dwelt on two principal topics-the procuring and training of Sunday school teachers and the overcoming of indifference of both teachers and Sunday

school pupils. "We have two uppermost questions to deal with in Sunday school work," said Mr. Phipps, "one being the prob-lem of procuring good teachers who will devote their spare time to earnest endeavor toward teaching the pupils of our Sunday schools. After obtaining these, we must then turn our attention

to properly training them.
"The second problem is that of indif-ference of teachers and students. However, if we get good teachers and train them to be interesting as well as in-structive, the second problem is easily overcome," declared the speaker.

'The greatest problem our Sunda schools must face to be a success is that of getting good teachers," de-clared Mr. Hollis. "We must have teachers who know the good from the teachers who know the good from the bad, who are thoroughly familiar with the Bible and who know how to be interesting. They must know their pupils and how to be actively in touch with them."

Rev. Henry G. Hanson, paster of the Fourth Presbyterian Church, presided, and several musical numbers were on the programme.
