VICTIMS HELD FAST

Commissions Paid for Borrowers by Security Company.

SUIT FOR RECORDS BEGUN

Seized Papers Show Lobbying Contribution Suggested and Owner Tells Manager to "Pound Hell" Out of Delinquents.

Peonage is a word that fairly describes the condition of borrowers from the State Security Company, the concern of money lenders now being prosecuted by the District Attorney for unscrupulous practices. It is said by those who have examined the records seized in the recent raid on the company's offices. "Clients" were drawn into the net in many ways, and once in the toils, they found it almost impossible to escape. Receipts have been found showing that borrowers were bought outright at \$1 and \$2 a head. "The Employees' Loan Company, now defunct, sold six clients to the State Security Company for \$12. This money was paid for the names of people who were considered good risks. Introductions were paid for at the rate of \$1 each. One District Attorney for introducing 13 "clients." The following printed form card, properly filled out, has been found among the confiscated records: State Security Company, Falling building, City. This will introduce you to Mr. [redacted]. The wishes to speak to you concerning a matter in which I think you will be greatly appreciated. Very truly yours, [redacted] K. No. 4542.

Defendant Files Demurrer.—On the back of the card was a receipt for \$1 "fee" signed by K, showing that the introduction had resulted profitably for the company. Attorneys for the State Security Company yesterday filed a demurrer to the complaint, alleging that it did not state facts sufficient to constitute a crime. Arguments on this were heard Saturday morning in the District Court. At the same time the motion of the company that the District Attorney be ordered to return its office records will be argued.

The law is said to be plain on the latter point. Repeated decisions, it is declared on good authority, have held that the court will take no notice of how a document, weapon or thing to be used as evidence in pressing a criminal charge was obtained, whether by legal or illegal means.

Lobbying "Fee" Suggested.—Records of the company show that in a letter to headquarters in Milwaukee the local manager advised that persons interested in lobbying against the act proposed at the 1913 session of the Legislature to prohibit assignments of salary had asked him for a contribution of \$10 to the cause and he suggested this would be money well spent.

The captured records also have brought to light that the business was a profitable one, for during the first six months of the current year, profits amounting to \$4000 were transmitted to the head office from Portland. One of the attractive baits held out to the eager borrower was the following: "We can loan \$50, payable in ten installments of \$5 each. The installments mentioned were monthly ones."

One of the seized letters is to the local manager from the Western Managing Company, which owns the chain of loan offices scattered all over the country, and refers to an increase in delinquents. "Pound hell out of them" is the terse advice given.
