Once-a-Week Review of NEW BOOKS

"The Congress Woman," by Isabel Gordon Curtis—deals with a new possibility—the election of women to Congress. It is the story of a woman from Oklahoma who is elected to Congress, and whose life in Congress is a succession of interesting and well-told events. The subject of "suffrage" is dealt with logically and fairly. Of course, there is a strong "love interest" running through the tale. Price, \$1.25.

SIXTH-STREET BUILDING "No Bobbins to Wind"

Do You Realize What That Means? It has been estimated that in one day's work an hour approximately is consumed in winding and changing bobbins. The mechanism of the

ELDREDGE TWO SPOOL

celebrated Rotary Sewing Machine provides for two spools of thread from which you sew direct. The lower spool fits in the spool case, the other is placed upon the spool pin. The average bobbin holds 50 yards—the average spool of thread 200 yards. The comparison is obvious. The amount of thread on the lower spool is always indicated by the condition of the upper—hence no loss of time by thread running out in the middle of a seam.

HEAVY PENALTY FIXED

Measure to Be Given to Council Tomorrow Attaches Fine and Jail Term for Violation of Its Provisions.

With provisions requiring censorship of all motion-picture films shown in Portland, creating a board of censors of five members and specifying the class of pictures that shall not be exhibited, Mayor Albee yesterday turned his proposed new picture censorship ordinance over to City Auditor Barbur for presentation to the City Commission at its regular session tomorrow morning at 10 o'clock. The new measure originally was drawn by the present board of censors and has been changed in a number of respects by the Mayor to eliminate objections raised by the picture exhibitors. While the ordinance will not be up for final passage at the meeting tomorrow, it will be up for discussion and all persons interested will be given an opportunity to speak. Excerpts from the ordinance as it will be presented by the Mayor follow: Section 2.—That the Board shall refuse to

SON SENDS FILMS HOME

Albany Man Unable to Visit Mother in Maine Poses for Movies. ALBANY, Or., July 27.—(Special.)—Unable to make a trip across the continent to visit his aged mother, Captain L. A. Wood, of this city, sent her a motion picture of himself instead. Captain Wood's mother lives in Maine and he had not seen her for 20 years. He had hoped to go back this summer, but was unable to do so. He walked about alone in one picture and his son was with him in another. The films were developed and mailed to Captain Wood's mother. Winnipeg has 376 factories, employing 18,000.

MEAT ACT IN BALANCE

COURT HEARS ARGUMENT FOR AND AGAINST PROPOSED LAW.

Subject Taken Under Advice After Independent Dealers Assail It as Unfair. Arguments were heard yesterday by Judge Gatens on the validity of the proposed new meat inspection ordinance of the city. The subject was taken under advisement. A demurrer had been filed to the temporary injunction lately issued by Judge Gatens to restrain the city from enforcing the provisions of the ordinance. The measure was attacked from all sides yesterday by counsel for the small, independent packers of the city and vicinity, while it was upheld by Deputy City Attorney Davies and the law firm of Lundberg & Lundberg. Malarkey, Seabrook & Dibble and Fitzgerald & Logan appeared for the independent dealers. It was alleged that the ordinance violates the state and Federal Constitutions in that it gives privileges and immunities to some and not to others. As drawn, the ordinance prescribes regulations for packers who slaughter only a limited number of livestock a week, situated either in the city limits or not more than one mile away. This was held to be class legislation. In that the Union Meat Company is excluded from its effects. It was contended that the measure is discriminatory, expensive in that it requires ante mortem and post mortem examination of stock slaughtered, and that it will work hardships on the smaller packers. Counsel for the city maintained the right of the municipal authorities to safeguard the food supplies of the people and that the ordinance will be

Why drink water when you can get SALEM BEER

the most popular beverage on the Pacific Coast?

SALEM BEER is brewed in one of the most modern plants on the Pacific Coast. It is aged in steel glass-lined tanks. It is conveyed by modern pipe line system direct to the bottle house, bottled under pressure and therefore never comes in contact with the air from the time it leaves the fermenting tank until the bottle is opened by the consumer. The consumer is absolutely assured a beer of ideal effervescence, snap and purity. A trial will surely convince any one of the excellence of Salem Bottled Beer.
