

POWERS CALL ALL TROOPS TO ARMIES

Reserves of Every Class in Second Summons to Report for Service.

AUSTRIA SENDS ORDER

Men Subject to Duty in Any Branch Instructed to Return and Consulates Are Busy—Swiss Only Countermand Appeal.

Europe's call for her soldiers who are in the new world, swarms still stranger and many of the consular offices in Portland yesterday received further official summons to the reservists in this state.

Austria strenuously her summons for the first class of her reservists by calling for those of all four classes yesterday. Holland sent a call for men of her militia who are in the United States, and the formal summons from Germany, which calls for the return of every German citizen subject to military duty, came officially to the hands of the German Consul, Fritz Kirchoff, yesterday morning.

Switzerland alone receded from the position of calling her men home. The call received Monday was countermanded yesterday by an order received at the office of Albrecht Streiff, Swiss Consul for Oregon, from Charles d'Affaires Hubscher.

Swiss Order Withdrawn.

"No transit whatever being guaranteed," says the message. "Keep your Swiss there until further notice." Offices of the German, French and Austrian Consuls were visited yesterday by numerous men who desired to return to Europe to serve in the war. C. Henri Labbe, Consul for France and Belgium, said that he received visits not only from Frenchmen who desired to return to the colors, but from men of other nationalities, some of whom were Americans. President Wilson specially has refused citizens of the United States the privilege of enlisting in the armies of the contending nations.

Holland Issues Call.

The call to The Netherlands came from Consul-General Van de Sande Bakhuizen, in New York, and reached Vice-Consul J. W. Matthes, of the Portland office, by way of the consulate in San Francisco.

Not only are the Hollanders summoned to return to the service, but, according to the telegram received, the government of The Netherlands will endeavor to arrange for their transportation. Following is the text of the call: J. W. Matthes, Vice-Consul of the Netherlands, Portland, Or., Dutch army mobilized. Public following notice: All Netherlands belonging to militia or landwehr have been called to return to the colors and are requested to report to the Vice-Consulate of Portland for instructions. Volunteers are requested to register name and address with the Vice-Consul. Ask American papers to publish this communication in both Dutch and English. Route to consulate New York directly. Money can be advanced to those who absolutely cannot pay train fare to New York. Report by telegram how many men you can send.

Austria Summons Men.

Austria's second announcement that came yesterday morning to their office in Portland, summons the full force of all four classes, including all officers, and indicates that arrangements will be made for the transportation of the men to Austria to join their forces.

The order came to the local office through Acting Consul Karl Ruiz de Roxas, in the San Francisco office, and is as follows: His Majesty has ordered a general mobilization in Austria-Hungary. Therefore, upon publication of a notice from this Austria-Hungary consulate, requesting them to start for their native country, the following have to report in person at their respective stations point of departure: All those subject to military duty in the regular army or in the navy or in the territorial army (Landwehr). All those whose duty is in accordance with their assignment card to join as commissioned or non-commissioned officers as privates of the national defense (Landsturm). All others of the age of 17 years or less who, in accordance with their national duty (Landsturm) duty are required to rejoin the colors.

All other persons subject to national defense (Landsturm) duty are required to report themselves at once in person, or by proxy, to their local consular offices, giving their exact addresses, whereupon they will receive further instructions concerning their joining for military duty. All those whose duty it is to join the colors will have their traveling expenses refunded to them according to the prevailing schedule. For the purpose of receiving traveling expenses those persons subject to military duty who have not the means of defraying the same should report themselves to the nearest imperial and royal consulate, where they will have their traveling expenses hereafter refunded to them according to the prevailing schedule.

Major Albee yesterday received a communication from the local consular office of Austria-Hungary, requesting that if any of the subjects of that country be serving sentences in the municipal jail or on the rockpile, that they be released at once and permitted to join the reservists returning to the European service.

MOOSE DAY IS OBSERVED

Big Crowds From Nearby Towns Gather at Marshfield.

MARSHFIELD, Or., Aug. 4.—(Special.)—This was Moose day in Marshfield and throngs from all parts of the county crowded the streets and waterfront. The day was given up largely to sports, speaking and a parade.

The 100-yards dash was won by Gordon Rasmussen, a local boy, who graduated from Corvallis this year. Hand-don and other towns were represented by large numbers. The ball game between the Moose teams from North Bend and Bandon ended in a tie, 12 to 12. The crowd exceeded 1,000 and the sporting events were close and exciting.

This was the first Moose day celebration in the county and the order expects to stage one every year in the future.

MOVE FOR FOREIGN SHIPS

Washington Senator Acts to Allow Allen Vessels Ply Through Canal.

OREGONIAN NEWS BUREAU, Washington, Aug. 4.—Senator Jones of Washington today introduced an amendment to the emergency shipping bill, passed by the House yesterday, giving the President the authority to suspend coastwise laws. The effect of this amendment, if adopted, will be to allow shipments in foreign bottoms from ports on the Pacific Coast through the Panama Canal to Eastern ports along the Atlantic Coast and vice versa.

of the Pacific Coast are apprehensive that unless coastwise laws are suspended and use of foreign bottoms is permitted they will be unable to make extensive shipments through the Panama Canal because of lack of an adequate number of American coastwise vessels. Senator Jones will urge adoption of his amendment as an emergency measure.

STEAMERS CANCEL SALES

Sailings of Oceanic and Cunard Liner Ivernia Called Off.

LONDON, Aug. 4.—The sailing of the White Star steamship Oceanic from Southampton August 12 has been canceled.

The Cunard steamer Ivernia, which is now due at Southampton, also will remain in port.

BOSTON, Aug. 4.—The Cunard liner Franconia, which has been detained here as a result of the European crisis, will sail for Liverpool either tonight or early tomorrow.

TWO WOMEN ARE DROWNED

Rogue River, Near Gold Beach, Is Scene of Accident.

MARSHFIELD, Or., Aug. 4.—(Special.)—News of the accidental death of Mrs. Helen Scanlin and Miss Martha Rilla which occurred Sunday at Agness, 30 miles up the Rogue River from Gold Beach, has reached here. They were bathing in the river when both were drowned.

Miss Rilla, who is the daughter of the postmaster at Agness, was rescued. It was thought in time to save her life, but efforts at reviving her were without avail.

RESERVISTS AWAIT ON TRANSIT ORDER

Enemy's Fleets Lie Between Soldiers in New World and Their Armies.

ORIENT ONLY AVENUE

Governments Finally Plan to Take Men Over, Though Many Will Go to Europe Across Siberia to Aid of Serb Forces.

Watchful waiting, in spite of the flood of exciting bulletins laden with war and rumors of war, appeared to be the order of the day yesterday morning and afternoon in the headquarters and assembling places of nearly all of the nationalities most vitally interested in the European crisis.

The transportation problem confronting the majority of those who were eager to go to the front kept most of them quiet, for it was not until afternoon that the consular announcements began to bring tidings of governmental arrangements.

Red Cross Work to Start.

The Servians will not institute their formal campaign to raise Red Cross funds before tomorrow, but the work is being carried on steadily in an informal way. Slavonian women of the city will make a canvass when the campaign is opened to raise funds for the maintenance of nurses during the war.

The German Society is also making elaborate preparations to raise a big Red Cross fund, and \$300 was collected at a meeting held Monday night. Dr. F. H. Dammasch said yesterday that large donations have been promised.

Among some, the report of a state of war between England and Germany and of war between Belgium and Germany was not looked upon as a sign of immediate and serious difficulties.

Until positive announcement of the declaration of war between Germany and Great Britain was received they

expressed an opinion that there was yet hope that the matter might dwindle again to a contest between only Austria and Servia.

The call of Germany for the reservists in this country was not regarded by the Germans as a sign of pressing need, especially since the possibility of the reservists being at all able to reach their country, even after they have reported to the consulates, is very remote, on account of the unsettled transportation conditions in the Atlantic.

A possible way of returning via the Orient is opened to the Servian and other reservists, but this way of course is closed to the German reservist, whose only hope of reaching the seat of action is directly across the Atlantic, where the fleets of France and Great Britain intervene.

The City of Russia, scheduled to leave Vancouver, B. C., for the Orient, may carry a number of men from the Northwest who intend to make their way to Europe through Siberia.

Germans Are Confident.

In case the strife becomes complete between Germany and the other powers, prominent Germans in Portland still declare their confidence in the success of the Kaiser's forces.

Hilmar Papst, general manager of the Portland Gas & Coke Company, who was an officer in the German army before he came to America and took citizenship, asserts that the superior powers of mobilization possessed by the German army will largely discount the odds that are thrown against her.

DAM BILL PASSES HOUSE

Measure Aims to Induce Private Capital to Build Dykes.

WASHINGTON, Aug. 4.—The Adamson general dam bill, to authorize Federal permits for dams on navigable streams for power purposes, limited to terms of 50 years, was passed today by the House by a vote of 187 to 45.

The measure first on the Administration conservation programme now goes to the Senate.

The Adamson bill is counted upon by its framers to induce private capital to expend several hundred million dollars in the construction of dams and locks on streams in the South and West for navigation improvement and development of water.

King Thanks Colonies.

LONDON, Aug. 4.—King George today addressed a message to the British colonies expressing his appreciation of their spontaneous assurances that they will give the fullest support to the motherland.

MRS. HERRICK HELPS

Ambassador's Wife to Aid Red Cross in France.

POTTER PALMER AUTO HELD

Many Titled Women of Europe and Prominent Americans Volunteer Aid in War Crisis—E. H. Gary Helps Financial Plans.

PARIS, Aug. 4.—Mrs. Myron T. Herrick, wife of the American Ambassador, desires to join the French Red Cross, and is only waiting to determine if official considerations would make her offer of her services unwise.

Later Mrs. Herrick, at the suggestion of her husband, decided she could be of more service by assisting to organize an American hospital and attend the wounded than by going into the field as a nurse.

Mrs. Herrick, Mrs. George Carroll and Mrs. H. H. Harjes are working on the plan for an American hospital here and will invite American women in Paris to join their forces as nurses.

Ambassador's Funds Gone.

Ambassador Herrick is so short of cash, owing to the requisition of American citizens, that he has not enough money to pay off his servants in full.

Two thousand Americans, half of more of them women, who want to go to Europe, met in one of the largest ballrooms of Paris yesterday to discuss the situation.

Jacob Gordon, of New York, presided at the gathering and sketched the need of something being done by the Government at Washington to take the Americans away from the countries engaged in war. It was suggested that a committee be appointed in this country to act in cooperation with the committee already organized, of which Judge E. H. Gary, of the United States Steel Corporation, is chairman.

Mrs. Potter Palmer Victim.

The military administration has taken over all stocks of arms in the retail shops as a precaution against rowdies. It also has requisitioned and paid for many thousands of bicycles.

Ambassador Herrick, who was up most of last night attending to American and German affairs, has arranged with Premier Viviani that Americans leaving France today would not be required to show passports or otherwise identify themselves, the simple declaration that they are from the United States being sufficient to pass them.

Mr. Herrick is also trying to arrange for Americans to leave Southern France with their automobiles, which are now being requisitioned by the military administration for war purposes.

Mrs. Potter Palmer's machine was among those requisitioned yesterday and Judge E. H. Gary was notified to take his car was likely to be taken shortly.

Count Du Monceau, who is organizing the French Red Cross, says that thousands of French women, including many Americans, are volunteering their services.

The scarcity of provisions in Paris has not yet increased the seriousness of the situation insofar as it affected Americans.

Relief Request Made.

Henry W. Diederich, the American Consul-General in Paris, sent a cablegram to Washington, asking the State department to send a relief ship to relieve the distress of American citizens.

Elbert H. Gary and H. H. Harjes, chairman and secretary, respectively, of the committee formed to aid Americans in Paris, have issued a circular, which reads in part as follows: "The secretary has received the names of many hundreds of Americans who are here, and he is learning their particulars as to their needs and desires concerning transportation and so forth. The committee is obtaining the facts relating to their financial condition and the means of their departure from France."

The United States Embassy has issued about 1000 certificates of American nationality and the Consulate-General at the Embassy here never numbered less than 1300 until dark.

The French authorities will recognize a simple certificate, signed and sealed by the American Embassy or the Consulate-General, and saying that the bearer is an American. Bearer of such certificates may either remain in France

WAR LIKENED TO CHESS

MOVES SO FAR ONLY TO CONCEAL CAMPAIGNS, SAY EXPERTS.

Officers of General Staff at Washington Unable to Hazard Guess as to Intent of Strategists.

WASHINGTON, Aug. 4.—Military experts here agreed tonight that if the French and German armies is to conceal the objects of their campaigns until the completion of mobilization, they have succeeded wonderfully so far as the outside world is concerned at least.

Officers of the Army general staff said so far no facts had appeared in the news dispatches of the official reports which permit them to hazard a fair guess at what is in the minds of the great French and German strategists. The one thing they agree upon is the "contacts" reported today from various points near the French and German border, like those which have preceded them, are inconsequential.

Such movements as the crossing of the German troops into French territory near Mars-la-Tour; the raid by the Germans across the Belgian frontier near Gemmenich; and the dropping of bombs from German aeroplanes into the French fortresses at Luneville are regarded as nothing more than "screens" for the tacticians, behind which they are arranging their pawns for the great game which is to decide the future of continental Europe.

The opinion here is that German mobilization will be completed in about 10 days.

American officers are watching with particular interest Germany's attitude toward Belgium. They believe that even without the redemption of the British guarantee of neutrality, the Belgians can give a very good account of themselves. During the Franco-Prussian war the little nation turned out an army of a quarter of a million men which successfully maintained the integrity of Belgium soil. On a war footing the Belgium troops now number 275,000, according to the last technical report.

NO CAUSE FOR ALARM SEEN

Chicago Banker Says Short Time Will Bring Normal State.

CHICAGO, Aug. 4.—After a meeting of the clearing-house committee today to consider the financial conditions in the Central West as a result of the war crisis and arrange for the distribution and use of the emergency currency coming from Washington, James E. Forgan, chairman of the committee, said: "There is not the slightest cause for alarm, and within a short time all signs of abnormal conditions will be absent. We merely wish to impress the public with the idea that the currency of the community should be conserved as far as possible until we get the emergency currency."

REFUGEE SHIPS PROPOSED

Clarence H. Mackay, Abroad, Says Uncle Sam Should Buy Craft.

LONDON, Aug. 4.—Clarence H. Mackay, of New York, who arrived here from Paris with his children, in an interview today said he believed that the United States Government should buy ships now not only for purposes of commerce, but also to take Americans here who find things go wrong and they lack funds. There are many Americans here at present in that plight.

Mr. Mackay said there were 10,000 people at the Gare du Nord in Paris when he left. He intends to remain here for several days and go to Scotland August 15.
