CHRISTIAN SCIENCE LECTURE IS HEARD

Dr. Francis J. Fluno Explains Teachings of Church to Large Assemblage.

SECOND LECTURE TONIGHT

Sin Declared to Be Contrary to Truth and Mistaken Belief; Thought Prompts Deed Held to Be Greater Wrong.

The teachings of Christian Science were discussed last night in a lecture delivered by Dr. Francis J. Fluno. C. S. D., of Oakland, Cal., before a large audience at First Church of Christ, Scientist. Dr. Fluno is a member of the board of lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass. He will repeat his lecture tonight at \$ o'clock. Christian Anderson, who introduced Christian Anderson, who introduced the speaker last night, said: "The fact that these lectures are so

christian Anderson, who introduced the speaker last night, said:

"The fact that these lectures are so well attended is one of the proofs that Christian Science is engaging the attention of thinking people; the reason for this interest is not far to seek; for however we may differ in opinion generally, there is one subject on which we all agree: We all desire to be happy, therefore any system that makes for happiness is bound to be interesting. Christian Science is engaging attention because it is true. It shows that goodness and happiness are one and the same thing and then proceeds to make us happier by making us better."

Dr. Fluno said in part:

Physics Not Metaphysics.

"In true metaphysics, Christian Science, all is mind; there is no physical, no material, no matter. And the socalled science of physics has no part with the science of metaphysics. Beginning with matter all is matter, there is no mind; beginning with mind all is "Very likely I was, and I'm truly "Very likely I was, and I'm truly"

took the automobile. Royle hailed the driver, all is mind; there is no physical, no matter. And the so-called science of physics has no part with the science of metaphysics. Beginning with matter all is matter, there is no matter. There is no mind; beginning with mind all is mind, there is no matter. There is no matter. There is nothing that mind does not evolve, governous mind; have to report in police Court tomorrow morning."

"Very likely I was, and I'm truly sory," replied the mann. "My name is pritted from carrying out their obligations. The took the automobile. Royle hailed the driver, and both machines stopped.

"You're excepting the speed limit," he told the driver. 'You'll have to report in no mind; beginning with mind all is no mind; beginning with mind all is no matter. There is no matter. There is no matter, there is no matter. There is no treater in the demand, but grow-port," replied the mann. "My name is pritted from carrying out their obligations. They will certainly need American hops more than they have needed them before and will leave nothing undone to secure the crops.

In the meantime there is an indication of an improvement in the demand, but grow-port," replied the mann. "My name is pritted, and control.' Mind is spirit.

"Oh, you're the German Consul. I guess you'll have to report in court is spirit. The to great speculation in the market. The sole is the same."

"I'll gladly plead guilty. I was going too fast, all right. I have so much work ahead of me, so many worless the green meadow up to man, the consumption and combination of all his handwork, all, each, in their true spiritual being have their places in the infinite mind.

"Science admits of no personal opin-in, ignores all opinion: it is founded upon the rock of self-evident, demonstrable truth, and can never be shaken. There are no beliefs in science; beliefs

There are no beliefs in science; beliefs

'Science admits of no personal opin-ion, ignores all opinion; it is founded upon the rock of self-evident, demon-strable truth, and can never be shaken. There are no beliefs in science; beliefs all vanish when the understanding ap-pears. 'With all thy getting get under-

standing. Mild an in-standing. Mrs. Eddy believed there was a sci-entific law underlying and controlling the health of man; she searched, she found, she demonstrated, she no longer

believed—she knew.

"The science of being does not contradict the Bible, but it may contradict somebody's ideas of the Bible. It would not be science if it did not contradict believed.

Unreality of Sin Explained.

"There is no truth in sin; that is, there is no truth in the thought that prompts the action, hence no reality; and that which is unreal is false, and is therefore nothing. It is a mistaken belief that must be destroyed the building. The loss not the greater wrong—it is for the must pay the debt.

along the French frontier where the German army is making efforts at invasion, as described by Rev. Father Arthur Lane, rector of St. Mary's Roman Catholic Church of this city. Father Lane visited that section two years ago, while on his way to the Eucharistic Congress at Vienna, and stopped at Belford, which is only a short distance south of the point where the German army is said to have crossed the border line between the two countries. Father Lane says that the topography of the country is similar to that of the country being marked by the same type of rolling hills. He says the valleys there are small and narrow between the hills, and that the foothills along parts of the frontier gradually run up into higher mountains similar to the Coast Range in Oregon.

Contracts Made by Foreigners PORTLAND MARKET QUOTATIONS. Will Hold Good.

FUTURE OF OREGON MARKET

to the Coast Range in Oregon.

Instead of being covered with timber as are the hills of Western Oregon, these hills along the French frontier are cultivated almost to their summits. CANTELOUPE MARKET IS TOP HEAVY Prices Are Cut, Owing to Excessive Receipts.

The cantaloupe market was top heavy yesterday. California cantaloupes sold as low as 75 cents a crate and Eastern Oregon cantaloupes were disposed of at al-most any price they would bring. Melons were steady with a big demand on both

local and shipping account.

The peach market was in good shape California Eibertas sold up to 75 cents with a very active demand. The best Ore-gon peaches were also moved readily. Ripe in tens and twenties, was found in a Bartlett pears continue scarce and firm.

Woodlawn streetcar Tuesday.

Wednesday Dan told Patrolman \$1,50. Five cars of bananas were received. There was no further change in the lem market, but additional advances are expected. Lemons are very strong in Cali-fornia, owing to the heavy Eastern demand occasioned by the stopping of importations

> EASTERN SUGAR MARKET IS UNEVEN Spread of 75 Points in Lists Quoted by

Lending Refiners. Coffee and Sugar.

NEW YORK. Aug. 6—While no change was reported in the situation with reforence to renewed importations of coffee from Brazil there was a less active demand in the spot market here today, and prices in some instances were a shade lower. Rio 7s dusted at 9½ cents and Santos 4s at 14 cents. The curb market was easier, with September deliveries quoted at 8.25c and December at 8.26c, or 40 points under yesterday's figures.

Raw sugar—Strong: molasses, 3.61c; centrifugal, 4.26c; refined, firm. There was no further change in the local sugar situation yesterday. The future is absolutely uncertain, but the belief prevail that higher prices are coming. The New but decidedly uneven. One of the Eastern refiners announced an advance of 25 points to 5.25c, but some of the others are still holding down to 4.50c. With this spread of 75 cents it can easily be seen that the

trade is at sen. The local coffee market was also unchanged. At New York there was a less active demand for got and some slight recession in prices.

In most other commodities and in all im-

ported lines firmness is the feature, Bank Clearings. Bank clearings of the Northwestern cities

Had Been Sold for Shipment to Montreal - Sharp Gain in

Provision Prices.

CHICAGO, Aug. 6.—On a sudden flurry, bur unaccempanied by any heavy trading, the wheat market in the December and May options ran up today to the highest prices of the year. Before any extensive profit-taking could be accomplished, however, quotations had dropped back, and the market closed weak at a point \(\) ic to \(\) c above last night. The only basis for the brief stampede appeared to be a report that some wheat had been sold here today to go to Montreal. Coin wound up 1\(\) to 1\(\) c, and provisions at 27\(\) ic to \(\) 1\(\) do above as bighter: oats, with a gain of \(\) ic to \(\) c, and provisions at 27\(\) ic to \(\) 1\(\) do above a bested had a buillish effect on the early wheat market. Apparently speculators could not be turned from the prospect that huge exports from the United States would be certain before a great while. Cables from Liverpool referred to better terms granted by the British Government for insuring warrisks on foodstuffs. At first, however, prices seemed to waver on account of selling by receiving houses here. Weakness was chiefly noticeable in the nearby delivery. September, After opening 1\(\) is lower to \(\) c advance, the market overcame all the losses and in the deferred options scored net gains that amounted to 1\(\).

Lack of selling pressure was responsible for a continued rise in quotations. About the middle of the session, May wheat touched \$1.064\(\), a rise of 3 cents a bushel compared with last night. The net gains for September and December at the same time were respectively 1\(\) c and 2\(\). The market later reacted almost as fast as it had advanced.

Expected rains in the domestic drouth CHICAGO, Aug. 6 .- On a sudden flurry

ket later reacted almost as fast as it had advanced.

Expected rains in the domestic drouth region weakened corn at the outset, but a decided raily ensued when wheat turned strong. Besides Eastern cash demand was gain urgent.

Trading in oats was quite limited. Values were governed mainly by the action of the orn market.

HOGS ADVANCE QUARTER

BEST LIGHT STOCK BRINGS \$8,75 AT NORTH PORTLAND.

Stendy Prices Ruling in Other Lines. Day's Receipts at Yards Are Light.

There was a fair run of sheep at the stockyards yesterday, but not much was received in other lines. The hog market recovered a part of its recent loss. In other respects the market situation was unchanged.

Resumed.

NEW YORK. Aug. 6.—Conditions in the financial district were unchanged today.

Because of the reduction of the British Bank discount rate and reports of similar action by the Bank of France, it is believed those local institutions which yesterday advanced call money from 6 to 8 percent will now restore the lower rate.

Accumulation of freight for Europe is gradually diminishing here, local railroad men assert. Foodstuffs will, of course, be the principal export while the war is on, and the nerishable character of these commodities will deter shippers from adding to such congestion as now prevails.

The Stock Exchange has decided to remove the prohibition against trading, inaugurated after the Exchanges suspended operations last Thursday. Buying and selling of a nonspeculative character will be permitted and this, it is believed, will be effective in clearing up many contracts hanging over from last week.

Some exchange members have issued a tentative list of quotations. All business done under these conditions will be on a cash basis, and it was said to be in response to requests for securities from investors.

NEW YORK, Aug. 6.—Mercantile paper, 6. men assert. Poodstuffs will, of course, be the principal export while the war is on, and the perishable character of these commodities will deter shippers from adding to such congestion as now prevails.

The Stock Exchange has decided to remove the prohibition against trading, inaugurated after the Exchange suspended operations last Thursday. Buying and sellipper operations last Thursday. Buying and sellipper operations last Thursday. Buying and sellipper operations last the exchange suspended operations last the selleved, will be offective in clearing up many contracts hanging over from last week.

Some exchange members have issued a seash basis, and it was said to be in response to requests for securities from investors.

NEW YORK, Aug. 6.—Mercantile paper, 6.
