

# LIEGE IS PIERCED; GERMAN ADVANCE

### Enough Forts Shaken to Open Route to Namur, Despite Disputed Victory.

## REAL TEST IS AWAITED

Report, as Yet Unconfirmed, Is That French Have Cut Off Movements of Germans, Whose Tactics Seem Obsolete.

(Continued From First Page.)

In official circles here it was asserted that there had been no further battle in the vicinity of Liege or in the town itself.

No big engagement between the allied armies and the German troops is expected on Belgian soil until the French and Belgian combined forces take the offensive.

It is asserted here that after 2500 German soldiers occupying a farm at Sotion, near Pepinster, in the Province of Liege, had been fired on by three workmen the village was given over to pillage by the German troops, and the three workmen were shot by a firing squad.

### GERMANS IN BELGIUM TARGETS

Berlin Dispatch Tells of Alleged Abuse by Mobs.

BERLIN, Aug. 10 (via London, 7 A. M.)—The Brussels representative of the Official News Agency here telegraphs from Goch that martial law was declared in Belgium Saturday, and that all foreigners have been ordered to leave the country as soon as possible.

The correspondent says that several days war has passed the imaginable. After war was declared, mobs demolished all business places which either belonged to Germans or handed German goods.

Every scutcheon bearing allusion to Germany was removed, and any one looking like a German was attacked in the streets or made the object of suspicion or espionage.

The most improbable anti-German reports were read, the correspondent says, one of which was that German soldiers had tried to murder General Lemau, the governor of Liege. Thousands of Germans have left Belgium since Thursday under the protection of the American Consul for Holland.

### BELGRADE AGAIN BESIEGED

Austrians Severely Damage City in Four Days' Bombardment.

NISH, Serbia, Aug. 10.—The Austrian bombardment of Belgrade has continued for the past four days. The heavy guns caused severe damage to private property, but were less effective yesterday, when the firing was from a greater distance.

The Serbian army is being rapidly organized, and has begun to take the offensive by penetrating Bosnia near Fribol and Visegrad. A large Montenegrin force occupied Spizza, Pachtrovitz and Budua, on the Dalmatian coast, and also carried by assault Nenas and Sienokos, surrounding heights.

The German Minister before he left Serbia, after receiving his passports, entrusted the care of German and Austrian subjects to the American Consul.

## CLASHES ON BORDER BECOME FREQUENT

### Statement From French Says Engagements Are Serious and Losses Heavy.

## AEROPLANES TAKE PART

### Desperate Encounter Heralded in Vosges Mountains—French Advance but Not Without Telling Toll.

PARIS, Aug. 10, 10:05 A. M.—A statement issued by the War Department says many skirmishes are taking place along the entire front of the French army. One clash with the Germans was violent, and the losses on both sides were serious.

The official communication adds that the German troops are receiving reinforcements and that the French also are being strengthened.

A battle began Saturday evening on the ridges of the Vosges Mountains. Aeroplanes took part. The French troops, after a desperate encounter, obtained possession of the mountain passes of Bonhomme and Sainte Marie. Then on Sunday morning, when the fighting was resumed, they took a position dominating Sainte Marie-Aux-Mines.

### Losses Reported Serious.

The French losses in the taking of Sainte Marie are not specifically given in the official report, which confines itself to declaring they were serious.

The wounded French and German soldiers were taken to the French fortress of Epinal for treatment.

A French aeroplane which ascended during the engagement was repeatedly fired at, the officer acting as observer of the German movements receiving a bullet in the hip, which rendered him unable to continue his flight.

The German troops inundated the valley of the Saille, hoping by this means to stop the advance of the French, but the quantity of water was not sufficient and the French troops were able to continue their march.

The French were in force today on the outskirts of the Forest of Hardot, in front of Neu Breisch, which appears to be occupied in force.

It is officially said that patrols of the French army in Belgium have covered the entire region of Eifel, a hilly plain in Rhennish Prussia, on the left of the Rhine. They found traces of the Germans along the Ourthe river and east of Neufchateau.

### German Recovery Evident.

At Liege the Germans appear to be recovering and reorganizing. A large force of German squadrons that had yielded ground to the French is now in the vicinity of Tongres. A number of German prisoners have been sent to Namur and Charleville.

It is officially announced that the French losses in the fighting at Aitkirch do not exceed 400 killed and wounded.

In the capture of Mulhausen, the French seized a great aeroplane factory, operated by a noted German manufacturer. It is announced that the list of German suicides in France has been increased by the death of several women who became despondent because they were unable to see their husbands leaving the country.

Detachments of the famous Turcos or native troops from the French colony of Algeria penetrated Upper Alsace today.

The Turcos who penetrated Alsace today are Arabs recruited in Algeria, where they are almost constantly on active service in the Southern Provinces against the roving tribes of Arab horsemen, who continually harass the French troops. Half their officers are Frenchmen and the other half rise from the ranks of the natives. They are remarkably sharpshooters and showed great bravery in the Crimean War as well as in the Franco-Prussian War of 1870-71.
