More than \$1,000,000 is the estimate of purchases that will be made in Portland this week by the retail merchants of the Pacific Northwest, who are here for Buyers' week.

Many buyers are making heavy pur-chases in staples that are liable to be affected in price by the war in Europe, and in all of the big jobbing houses of the city that are allied in the Jobbers' and Manufacturers' Association there are great crowds of out-of-town buyers all day long.

Automobiles were loaned yesterday by H. L. Blaesing, J. W. Vogan, Dr. E. A. Pierce, F. W. Vogler, Ford Motor Car Company and W. A. Cadwell for use by the visitors in going from place to place to make their purchases, and others will furnish cars for use on

Registration at the headquarters yes terday was nearly as great as the total registration for the full week last year, and it is thought that the number of out-of-town buyers who will participate this eyar will be nearly three times as great before the end of the

week.

"Sales in our establishment since the opening of Buyers' week have been four times as great as they were last year," says J. D. Kenworthy, of Wad-

hams & Kerr.

"Fleischner & Mayer's was crowded with buyers all day long," said Nathan Strauss, "and we all had to get in and help in the work of attending to the

wants of our customers."

makes the suggestion because the matter concerns almost wholly the city and should be settled by it. His letter to Mayor Albee in part is as follows:

It appears to me that inasmuch as it is one which almost wholly concerns the citizens of the city of Portland, any action taken or adjustment made, should be under the direction of your honorable commission. The company secured its franchise from the territory of Oregon, and standing upon this grant, which was given in perpetuity, it opposes any attempt at reguiation upon the part of the city. There are various matters such as the laying of mains in streets, etc. which are beyond the reach of the state. Now that the Federal Reserve Board, to which is entrusted control of the banking system created under the new currency act, has finally been able to meet and organize at Washington, it is felt by bankers here that organization of the 12 regional banks and the variof the 12 regional banks and the vari-ous branch banks will be hurried. Portland bankers of course, are most interested in the establishment of the such as the laying of mains in streets, etc., which are beyond the reach of the state. In view of the fact that a perpetual franchise is undoubtedly against public policy, and one which it might be difficult to defend in the courts, let me suggest that your honorable commission, through your City Attorney, enter into negotiations with a view of securing a surrender of the franchise which the company holds from the state, and that it be given in return by your honorable body such a franchise as will be fair to the company, and as will throw all due safeguards around the rights of the people. San Francisco regional bank, and of the branch bank to be located here. Of the nine directors of the San Francisco bank, three are to be appointed by the Government, while six are elected by bankers of the district. As a matter of fact, these six were voted on several weeks ago, but their names have not yet been announced from Washington. This will probably be done as soon as the names of the three Government appointees to the board of directors are given out.

Branch to Follow Soon.

All nine of these directors will be men living close to San Francisco, as it will be necessary for them to meet ast continuously probably for some weeks after the organization of the re-gional bank. Of the six chosen by banks of the district, three are to be

bankers and three business men.
As soon as the San Francisco bank As soon as the san Francisco bank is organized, establishment of the branches here and in Seattle may be looked for at once. Of the seven di-rectors of the branch bank here, three will be selected by the San Francisco directors, and four by the Federal Reserve Board.

ROSEBURG, Or., Aug. 11.—(Special.)
—Evangelistic meetings which have been conducted here under a large tent in the courthouse square for the past month, came to a close last night. Evangelist Taylor and his associates left here today for Eurape. During the Intermingling voices in Russian, Hebrew and English languages was too left here today for Eugene. During the progress of the meetings 102 persons are reported to have been converted. Every church in Roseburg joined in the State of the meetings 102 persons in the assault and battery case against and Frank Pappas yesterday by Judge McGinn after the defendants had failed much for District Judge Dayton yes

defendants were dismissed.

The trouble started August 3, when A. Goss is said to have entered the grocery store of Emkeles at 195 Gibbs street for \$100 Goss says he gave Emkeles in trust. Emkeles had two "judges" on hand, H. Wolfman and S. Kaplan, and Goss also was accompanied by two "judges." Z. Shapiro and N. Mersher.

The four "indees" tried to decide to the first time.

F. F. Conover, Scholls, Or., dealer in general merchandise—For the past month our store has been kept busy night and day. There is no sign of hard times at present in my section of the state. I don't believe the war will injure us greatly, and if large numbers of foreigners go back to the Continent it should help our laboring.

As to the choking, however, the witnesses differed.

"Oh, the court can't make head or tail of this case. I won't say whether the defendants are guilty or not; the witnesses tell conflicting stories. I therefore dismiss the case," said Judge Dayton.

Belief that the market is steadily ecovering from "psychological depression" and a feeling of confidence in good times to come should the European war not be too prolonged may be found generally among the visiting buyers in Portland this week. Business conditions that have been poor are good now, and show signs of be-coming much better, they say. "Without doubt Buyers' week should

be made a permanent thing. It is an invaluable aid to buyer and whole-saler," is the sentiment expressed by almost all of the visitors. The opportunity for the trade to become acquainted with the wholesalers personable is found of great help is the tesally is found of great help is the tes-timony of the buyers.

Mrs. A. Rosenthal, McCleary, Or., dealer in millinery—Though trade is quiet with us, the outlook is very bright in McCleary, and, though European importations will be a thing of the past for a time if the war continues, the millinery trade shows no sign of decrease. Buyers' week is a great help to the merchants in small towns.
