For one thing labor will be guided

into those general departments where it is likely to be needed and such guidance will be offered not merely during a few Winter months but year and year continuously during the educational period of the workers' lives. There is reason to believe too that

sane vocational training will make workingmen more adaptable than they are at present, so that the loss of a job in one department of industry need not necessarily mean total helplessness. Versatility is a most valuable trait in any wage earner and it should be fostered as far as possible in the schools, though of course not to the point of making a jack of all trades and master of none. New inventions are constantly State Senator Smith. But a grand and throwing men out of employment, sometimes by the thousand. We all lofty flipflop is nothing to your Democratic candidate. remember how the invention of a mechanism for blowing bottles de-

prived a great many formerly well-paid workers of their livelihood. In the modern world with its incessant change and progress versatility, or adaptibility, is perhaps more essential to lasting usefulness than it ever was before. Hence any leaning toward a narrow and hard specialism in the vocational courses of the schools ought

to be frowned upon decisively. THE SPENDERS. The studious voter who peruses the

Expanding Civiliantion Will Make It

Necessary for Us to Enter Alliances PORTLAND, Aug. 16 .- (To the Ed)tor.)-The advice of a correspondent in The Oregonian of August 10 regarding foreign alliances, while perhaps good at one stage of the country's history, does not seem to me advisable or necessarily so under present conditions. The country has burst its awaddling clothes and is on the road to assuming the poand is on the road to assuming the po-sition of a great power or position of influence among nations, if it has not already done so. Its interests are be-coming more extended both in a financial, torritorial and moral sense as well. A country of its size and devel-opment on all the various planes constituting a Nation of advanced civilization could not well be otherwise.

have it published, or if there was some other reason for it, would be gind to know what it was. Will you kindly mild be drawn into the current of ac tivity or international intercourse or oven contest, whether it so willed or not originally.
