E. T. MISCHE QUITS; FRICTION ASSIGNED

Park Superintendent Reported of buildings, equipment and courses of study by a board of control.

This advance has had its greatest stimulous through the results achieved missioner Brewster.

JAMES CONVILL SUCCEEDS

After Return From Eastern Trip Resigning Official Will Complete Olmstead Plans for City System Under Contract.

Although it has been generally un-derstood that E. T. Mische, who has been superintendent of Portland's playgrounds and boulevards since 1908, is away on a leave of absence, it became known Saturday that because of friction between himself and City Commissioner Brewster, he has severed his connection with the city service. While his retirement has not been announced, it is known that not been announced, it is known that he has tendered his resignation to take effect when he returns from an Eastern trip on which he left early this month. He has been succeeded by James Convill, who has served as Assistant Park Superintendent for about

while Mr. Mische will give up his position and will no longer be head of the park department, it is understood the park department, it is understood to be a second to be seen to be a second to be seen to be a second to be seen to b the park department, it is discussed to he will enter into a contract with the city whereby he will attend to the work of completing the Olmstead plans for a park system, for which work he was brought to Portland in 1998 by the Park Board under ex-Mayor Lane. work along this line will consist of the drafting of plans and designs. He will have no supervision over the park will have no supervision over the para-department and will be entirely out of the city service. It is understood he will be paid \$150 a month for the preparation of the plans. He will es-tablish an office and devote only suf-ficient time to the city to carry out the

regarded Mr. Mische's wishes in this case and appointed Charles L. Brown to the position. It is said also that upon several occasions Mr. Brewster has complained of Mr. Mische's lack of initiative in handling the construction
part of the work. It is said also, but
not confirmed, that Mr. Brewster has
received information to the effect that
Mr. Mische was a supporter of the reited Offerings Cause Advance—Cof-

call movement against him.

Mr. Mische has a national reputation
as a landscape engineer, botanist, floriculturist and arboriculturist. He was graduated from several Eastern colleges in these subjects and has had

out. Mr. Mische having been engaged by the Olmstead Brothers and understanding their work was recommended and was engaged by the Park Board He came here from Madison, Wis., and took charge of the park system. Since then he has had complete charge of the coming week probably will see a wholesale quotation of \$5 or more. then he has had complete charge of designing and laying out the parks and playgrounds and attending to the construction work. He supervised the expenditure of the issue of \$1,000,000 in

After what Kitchener said Belgian city yet published here. The most of us are strict testotallers and will remain so until the war is over." ment surpassing that said to have been employed by the late Field Marshal

Von Moltke. The Berlin newspapers express admiration for the swiftness of the German advance, but make no comment on the German tactics.

'HUT' ROADHOUSE BURNED

Place Raided 11 Times Is Desidoyed by Suspicious Fire.

Fire, thought to be of incendiary origin, totally destroyed "The Hut," later known as the Linnton Bowling Club, on the Linnton road last night. SHANGHAI, Aug. 20.—The China continuation committee, representing practically all of the Protestant mission work in China, recently came to a decision at a meeting here that ele-

MARK
they found not a soul waiting at the dock, where, less than two weeks ago.
300 men had been busy and 5000 tons of rock a day were being unloaded from the barges and carried out onto the jetty. One of the crew of the launch had to clamber ashore to make fast, for there was no one there to take the line and the party of Government enline and the party of Government en-gineers walked across the plank onto a pier practically deserted. Flatenr Is Conveyance.

Hundreds of cars and trucks were piled about and the big derricks and cranes stood idle.

leges in these subjects and has had wide experience with some of the most distinguished men engaged in this work. Among those with whom he has worked are the Olmstead Brothers, who originated the famous Olmstead system of parks and playgrounds.

In 1908 the Park Board adopted this plan of parking for Portland and began looking for men capable of carrying it out. Mr. Mische having been engaged by the Olmstead Brothers and underdown, pending further appropriations Louvain, which they attacked cleverly, from the Government for its completion. Fighting along the line between Tirlemont and Louvain had almost ceased

foree could have been kept on the job for several months longer before the opening of the Winter season. The jetty could have been pushed a mile further and could have been strength-ened throughout to a much greater de-gree than it has reached at present. The present rock work is, of course,

The present rock work is, of course, of permanency on which to continue the construction when the appropriation is forthcoming, but in the meantime, as one of the members of the party remarked, "the teredo and the ocean will be at work all the year round," and the result is likely to be destructive to the trestle that has been

erected thus far.

After the inspection of the jetty work, the members of the engineer's party, with the members of the Port party, with the members of the Port of Portland Commission and the Port of Astoria Commission, who accompa nied them to the jetty, paid a short visit to Fort Stevens before going back to Astoria. There they were enter-tained at dinner under the auspices of the Astoria committee before their return to Portland.

With the exception of Colonels Black and Beach, other members of the visiting party of engineers have been in the Northwest previously and have visited the projects at the mouth of the Columbia. Colonel Taylor formerly was stationed here for a number of years. The present tour of the board is for the purpose of making a general survey of the river and harbor projects of the West.

tinuance of the work on the north jetty re covered in the rivers and harbors oill now pending and the visit of the

bill now pending and the visit of the engineers yesterday will have no immediate bearing on that subject.

They will go today to the Ceillo project, returning to Portland this evening. They will leave tomorrow for Grays Harbor and the Sound, where they will pass a short time before returning to the East. Before coming to Portland they visited San Diego, Los Angeles San Francisco. Eureka and Angeles, San Francisco, Eureka and Crescent City. They left Washington on the tour early this month.

the Ottoman Greeks are weary of the maintenance of the patriarchial inter-dict whereby Greek schools and churches are closed throughout the

churches are closed throughout the Churches are closed throughout the Turkish empire.

The measure seems to have been adopted against the wishes of the patriarch and in accordance with the desire of the majority of the Holy Synod. If it has embarrassed and annoyed the Porte, it has in nowise benefited the Ottoman Greek laity and in nowise prevented the expuision or emigration of over 100,000 Greeks from Anatolia. The further maintenance of the interdict is unlikely to serve any useful purpose, and is indeed calculated to strengthen the impression that the majority of the Holy Synod are influenced rather by sympathy with the political aspirations of the Hellenic extremists than by a desire for the welfare of the Orthodox Church in Turkey or for the material and moral wellbeing of their sorely-tried flock.

At a moment, too, when, despite the violent and melodramatic utterances of Enver Bey and other Ottoman politicians moderate statesmen, such as

violent and melodramatic utterances of Enver Bey and other Ottoman politi-cians, moderate statesmen, such as Talsat Bey, are undoubtedly working for an understanding with Greece, it would surely be wiser to withdraw the measure, which would otherwise con-tribute to the continuance of Greco-Turkish tension.

He met us at Eugene and under his patrol we are sure to have a successful trip every bit of the way. Just what the programme will be

Coal and Coal Miner. Exchange

Like everyone else, you are selfish and think more of the price of soal than of the hardships of the coal miner.

FIGHTING DISEASE GERMS

There is a popular idea that sickness is caused by a germ of the disease finding entrance to our bodies through the food we eat, the water or milk we drink or the air we breathe. This is true as far as it goes but it is also true that disease germs are entering our bodies every day without causing disease.

The reason for this is that there are forces within the body that are constantly fighting these disease germs and it is only when this defence is weakened that the germs get the upper weakened that the germs get the apper hand and we become ill. One of the most powerful of these forces that work for health is rich, red blood, Good, healthy blood increases the re-sistance of the body to the diseases that are always threatening. Is easier to keep up this resistance by taking Dr. Williams' Pink Pills, eating proper food, avoiding articles of food that do The entire trip has been a delightful one. Every moment of it has been iy the road traveled by wagon was enjoyed to the full. The day was ideal and although the sun shone brilliant-largely shaded and the air was just right for comfort. The trip over the railroad was indeed a revelation to most of the party. The road is so well constructed and ballasted that we rolled along as though we were on an ofd-seasoned roadhed.
