

GLASH OF BUTTE MINERS RENEWED

Insurgent Union Notifies Men in Mines They Must Change Allegiance.

COMPANY TO BE NEUTRAL

Works May Be Closed If Men Now at Work Are Prevented From Keeping On—Ultimatum Served on Western Federation.

BUTTE, Mont., Aug. 26.—More than 1000 insurgent miners marched to the mines tonight with the announced purpose of preventing any Western Federation of Miners members from descending to work. A mysterious killing occurred late today near the headquarters of the insurgent miners.

Men March Through Streets.

A force of the insurgents will meet the shift that quits work tomorrow morning, and those miners will be notified that they must join the new union before they can resume work tomorrow night.

The miners marched through the streets of the city four abreast, gathering recruits as they advanced on the mines. Following their ultimatum to the members of the Western Federation of Miners, the insurgents again paraded the streets, ending at the Auditorium, where a meeting was held, no one being admitted except those wearing the buttons of the new union.

Company to Remain Neutral.

Mining officials refused to be quoted tonight, but it is intimated that the company proposes to remain neutral, and that if the miners are prevented from going to work, a suspension of operations may follow.

The miner slain just in the rear of the headquarters of the new union was identified tonight as Felix McAlvanie. Miners say he was accidentally killed while he and another man were "swapping games." The police have been unable to find the other man, whose name is said to be Webb.

RED CROSS LOCAL WANTED

Portland Ad Club to Ask for Chapter to Aid in Relief Efforts.

A motion that a committee of five be appointed to communicate with the offices of the American National Red Cross, at Washington, D. C., with the object of establishing a chapter in Portland, was introduced at a meeting of the Ad Club yesterday at the Hotel Portland by E. D. Carpenter, assistant manager of Meier & Frank's store.

MRS. ROBERT E. DAVIS DIES

Wife of Spanish War Veteran Is Victim of Long Illness.

Mrs. Robert E. Davis died on Monday, after a long illness. The funeral took place yesterday afternoon at 2:30 o'clock from the family residence, 2130 Commercial street, Rev. Frank Simpson officiating.

EX-PORTLAND MAN KILLED

Son of Medford Man Shot by Robber While With Woman.

MEDFORD, Or., Aug. 26.—(Special.)—Word was received in Medford today of the murder of John Krutzler, 23-year-old son of Mr. and Mrs. Paul Krutzler, of Medford, by a highwayman near Reno, Nev., Tuesday night.

MEXICAN PEACE FORECAST

Prospective American Ambassador Says Outlook Bright.

WASHINGTON, Aug. 26.—Paul Fuller, of New York, who probably will be the next American ambassador to Mexico, reported to President Wilson today that there was little danger of a conflict between Villa and Carranza, and that prospects for continued peace in Mexico were bright.

ANTI-LABOR PLAN TOLD

Stockton Publisher, Before Federal Commission, Alleges Intrigue.

SAN FRANCISCO, Aug. 26.—A story of a futile effort of the Merchants' Manufacturers' and Employers' Association of Stockton to control the editorial and news columns of the three daily

FUNDS LOW, TUMALO PROJECT MAY STOP

Appropriation Deemed Inadequate to Finish Task and Reimburse Settlers.

WEST ACCUSES CRAWFORD

Attorney-General Advises Board to Halt Work September 1—Governor Alleges Bad Faith—State Treasurer for Completion.

SALEM, Or., Aug. 26.—(Special.)—Declaring that the appropriation of \$450,000 would not be sufficient for completing the Tumalo irrigation project and reimbursing settlers under the old Columbia Southern project, who desired to be reimbursed for money paid that concern, Attorney-General Crawford at a meeting of the State Desert Land Board today suggested that work be stopped the first of next month.

The board decided to summon Project Engineer Laurgard immediately to learn with what success he had met in inducing settlers who declined to enter into new contracts with the state, the witnesses went on, was unable to raise money to pay the debt, but eventually joined the organization and the debt was not pressed.

It developed that Mr. Kincaid left San Francisco 20 years ago, because he thought he could not get justice through union labor, but later he became convinced that union principles were correct.

BENEFITS SEEN IN WAR

WILL F. LIPMAN, JUST BACK FROM EAST, GIVES VIEWS.

Conflict to Induce Americans to Manufacture Goods Specialized Abroad, Says Merchant.

The present strife in Europe, whether it lasts for years or is ended in a few weeks, will be of great financial benefit to the United States, in the opinion of Will F. Lipman, vice-president of Lipman, Wolfe & Co., who has just returned from a five weeks' trip in the East.

"The war in Europe will be of great assistance in the development of American factories," said Mr. Lipman. "Whether it lasts for years or is ended in a few weeks, it will paralyze many lines of European manufactures, which have been supplying American markets. Some of the factories in Europe have employed people of the same families for generations. These men have now gone to the front. Their successors will not attain the same degree of proficiency for years. High taxes, resulting from the war debts, will drive many of the survivors to America, where our mills and factories will profit by their skill."

All our fine kid gloves, dyes, underware, embroideries, hosiery, as well as a large part of our drugs and chemicals are manufactured in Europe. These markets are now cut off. We must prepare to supply them from our own productions. "I understand that American chemists are trying to duplicate German dyes. The formula is known in this country, but the atmospheric conditions, and the water, have so far made it impossible to make fine grades of dyes. Good perfumes are made in the United States, but all our finest grades come from France."

"America can duplicate the finer grades of European goods. To do so she has only to adopt the European system. Factories in Europe work for quality alone. They will not crowd their factories beyond their capacity. When they have filled the orders they can fill without crowding, they refuse to accept more. The American system has been to strive for a great quantity of goods, and to crowd the factories. If we change our methods, we can produce the same quality of goods as Europe."

"Another benefit that the war will bring to the United States is the cessation of South American trade. The Commercial Clubs and Chambers of Commerce in all our great cities are taking measures to supply South America. "Some of the Eastern business houses, depending on Europe for their supplies, have been forced to close down. I do not think the war will have that effect on any of our Western business houses. Wool and grain prices in Europe are higher. If the war would cease now and open European markets to our products, the whole country would experience a great boom."

"Hundreds of American buyers were caught abroad by the war. Our firm, however, was fortunate. Our last buyer in Europe left just as the war for the war started. He arrived in Portland this week."

Veterinary Found Dead.

BURNS, Or., Aug. 26.—(Special.)—George A. Christie, a horse doctor, who had been in Burns the past few months, was found dead Sunday morning in the city jail, where he was placed the evening before in an intoxicated condition. A coroner's jury inquest in the case today found that he had died from an overdose of laudanum taken during the night, whether accidentally or with suicidal intent was not determined.

Billposters to Picnic.

The first annual picnic of the International Alliance of Bill Posters and Billers, Portland Local No. 57, will be held Sunday at Crystal Lake Park. A feature of the programme will be an amateur theatrical and chorus display in Europe. Races, dancing and other forms of amusement will be provided. A ball game is scheduled for the afternoon between the Crystal Lake nine of the Posters of America and the Milwaukee Volunteer Firemen team. Music will be provided by the musicians' union throughout the day. The programme will be directed by Benjamin Rich, president of the billposters' union.

Red Cross Auxiliary to Organize.

For the purpose of organizing an auxiliary to the German and Austro-Hungarian Red Cross Society of Portland, Mrs. N. Harris has called a meeting of all women interested for Friday at 2:30 at her home, 777 Johnson street.

EGZEMA ON GLILD ITCHED AND BURNED

In Rash First. Could Not Sleep or Rest. Hard Crust Covered Neck. Awful Disfigurement. Cuticura Soap and Ointment Healed.

R. F. D. No. 4, Box 56, Holland, Mich.—"My child's trouble began by getting red and sore around her neck, and her face, behind her ears, under her arms, and different parts of her body were affected. The eczema appeared in a rash first. It was wet and looked as if it was weeping. It seemed to itch and burn so that she could not sleep or rest. It got so bad at last that behind her ears was one crust or sore so that I had to cut her hair. There was a hard crust covering her face. She could not have her clothes buttoned at all. I could hardly change her clothes. It caused an awful disfigurement for the time. She would cry when I had to wash her."

"We had her treated for some time but without success. The trouble had lasted about four weeks when we began to use Cuticura Soap and Ointment. I had not used them more than three days when I could see she was getting better. I got one cake of Cuticura Soap and one box of Cuticura Ointment and had not used more than half of what I bought when she was all cured." (Signed) Mrs. G. C. Riehersma, Mar. 21, 1914.

Samples Free by Mail

Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold by druggists and dealers throughout the world, a sample of each with 52-p. Skin Book will be sent free upon request. Address: Post-card: "Cuticura, Dept. T, Boston."

15,000 to 20,000, in addition to those now at Rotterdam awaiting transportation. Americans who have reached here on the regular train from Germany say the treatment they received was excellent.

WASHINGTON, Aug. 26.—Secretary Garrison was advised today that the steamer Patricia, of the Pabro line, with accommodations for 2100 passengers, would sail from Marseilles on September 8. The Santa Anna, of the same line, with accommodations for 1900 passengers, will sail from Marseilles on September 14; Palermo, September 25; Almeria, September 30.

CORN CROPS ARE IMMENSE

Coquille Citizens Call for Travelers in Autos and Escort Them to Lively Town—Bandon Is Next Place Billed.

By Addison Bennett. COQUILLE, Or., Aug. 26.—(Special.)—The Portland bunch passed last night at the Chandler House in Marshfield and left there at 8 o'clock by the Coos Bay, Roseburg & Eastern Railroad & Navigation line for Myrtle Point, where we arrived at 10 A. M. Upon our arrival we were met by Mayor Roberts and several other leading citizens of the town, including Editor Schulz, of the Myrtle Point Enterprise, and were escorted to the Guerin Hotel.

Shortly thereafter we were called for and taken in automobiles for a 15-mile ride through the valley south and east of town. Myrtle Point is situated in one of the most beautiful spots in Oregon. Some of the finest dairy ranches in the state were passed by us and numerous creameries and cheese factories were seen, for we were in a section devoted almost exclusively to dairying. There are at least a dozen dairies in the vicinity of Myrtle Point where they are turning the milk and cream into cheese and butter and the products bring top prices on the Portland and San Francisco markets.

For Blood Eruptions That Linger For Years

How They Are Closed, Cleansed and Healed Never to Return.

Almost anywhere you go people become joyfully reintroduced to tell you how years ago they used S. S. S. for blood eruptions cured. This famous medicine removed all impurities, put the blood in the healthy condition so that pimples, boils, rash, eczema and all eruptive conditions pass naturally away.

And these people to this day enjoy clear, healthy complexions because S. S. S. went to the source of impure blood, drove out the acids that cause rheumatism, cleared the membranes of catarrhal infection, assisted the kidneys, lungs and liver to secrete, burn and expel poisons in the blood. Nor does it matter what its nature or by what name it is known S. S. S. drives it out if it is a blood trouble, and the acids that cause rheumatism, cleared the membranes of catarrhal infection, assisted the kidneys, lungs and liver to secrete, burn and expel poisons in the blood. Nor does it matter what its nature or by what name it is known S. S. S. drives it out if it is a blood trouble, and the acids that cause rheumatism, cleared the membranes of catarrhal infection, assisted the kidneys, lungs and liver to secrete, burn and expel poisons in the blood.

It is susceptible to even very weak stomachs hence no one need despair of getting rid of disfiguring blood eruptions. The action of S. S. S. is direct; it works outwardly in accordance with nature's tendency. As an illustration take for example a blind boil or blood rising. The action of S. S. S. is such that fresh forming material is rapidly disposed around its edges, they crowd quickly to the center where the skin flaps off leaving a new healthy covering beneath.

Now, this same process goes on all over the body since S. S. S. circulates with the blood wherever it flows. These interesting facts are more fully explained in a book written by a specialist which is mailed free by the makers of S. S. S., The Swift Specific Co., 59 Swift Bldg., Atlanta, Ga. Ask at any drug store for a bottle of S. S. S., but don't accept a substitute. The medical department of The Swift Specific Co. has been of inestimable value to blood sufferers in successfully directing them to complete recovery. And this advice is entirely free, very complete and a splendid aid to all who are in doubt and perplexed about their trouble.

WAY TO END WAR TOLD

AMERICAN EMBARGO ON WHEAT DECLARED SOLUTION.

Produce and Flour Men, Witnesses at Investigation, Also Say Prices Would Fall.

NEW YORK, Aug. 26.—The United States Government could stop the war in Europe by placing an embargo on wheat, flour and other products, it was asserted today at District Attorney Whitman's John Doe investigation, into the increased cost of living since the conflict began.

James Ward Warner, president of the New York Produce Exchange, and George Zabrinski, resident manager for Minneapolis manufacturers of flour, each said the end of warfare abroad must result if such action were taken. "The war is a direct result of the buying of goods by the United States from foreign countries, according to these witnesses, with a heavy demand, too, in domestic markets. Mr. Zabrinski said that the price of wheat and flour in the Russian wheat crop and that prudent housewives, fearing a shortage at home, have been laying in barrels of the product instead of buying by bags, with a result that the price of flour had gone up.

Not only would war in Europe end if an embargo were placed on American products, Mr. Zabrinski and Mr. Warner agreed, but the prices here would go down.

Mr. Warner said the Grain Exporters' Association of North America, with headquarters in Philadelphia, did not attempt to fix prices.

Ralph I. Carl, assistant New York manager for another Minneapolis milling company, declared there was no combine to fix prices. He believed there was a possibility of wheat going higher, he asserted, but that European demand was a factor in price quoting.

ROTTERDAM TO BRING 3000

Freighter Seeking to Carry Passengers Arouses Consul-General.

ROTTERDAM, via London, Aug. 26.—The steamer Rotterdam will sail for the United States on Saturday carrying almost 3000 passengers.

The American Consul-General at this port, Soren Liston, has been endeavoring to prevent the advertising by small steamship concerns of alleged accommodations for stranded Americans. These concerns plan to charter a vessel as 50 passengers on a 4000-ton vessel not built for passenger travel. Dr. Henry Van Dyke, the American Minister, has made representations to the Government on this score.

It is impossible here to obtain accurate figures as to the number of Americans still on the Continent. A fair estimate is thought to be from
