BERNIER CASE CLEARED

early Wednesday, was the victim of a fall from a railroad trestle and was not struck with a hammer, as his wounds indicated, according to evidence found by Chief of Police Shaw, of Oregon City, yesterday.

The Police Chief thinks that Bernier

was returning home at 9:45 P. M. Tues-day night and started to cross the rail-road treatle, 400 yaxds from his home. He fell from the bridge to the rocks 20 feet below. A sharp rock is believed to have made the round wound in his knee which was thought to have been from a hammer blow. His watch had stopped at 9:45.

A trail of blood from under the bridge to within 50 feet of Bernier's home was traced. Bernier evidently had struggled to his home. There was no blood in the parlor or on the lounge where Mrs. Bernier said she found her husband. Chief Shaw believes that the blood be-came cool where the trail ended and came cool where the trail ended and did not run again until the wounds were washed by Mrs. Bernier after he had been placed in bed. This evidence has cleared Mrs. Bernier of suspicion in connection with the incident. At the hospital last night Bernier was said to

New Well in City Believed to Hold | 0 State Record.

What is believed to be the fastest flowing well in the state has beer drilled in the business district of Port land, testing as high as 800 gallons to the minute. The well is in the rear of the Terminal Ice & Cold Storage Company's plant at Third and Hoyt Company's plant at Third and Hoyt streets and the water will be used on the condensers. The condensers use large amounts of water, and it was thought more economical to have a well drilled than to use city water. This freak well was begun on April 1 and was finished August 23. Since then it has been flowing 350 gallons to the minute of its own initiative and to the minute of its own inifiative and at a test by using a fire engine as high as \$00 gallons was obtained.
