IDLE TO BE WARNED TO AVOID PORTLAND

Committee Plans to Supply Hard Work With Little Pay to Undesirables.

NOTICES TO BE SENT OUT

Hospitality of City Last Winter Is Likely to Cause Influx of Unemployed and Checking It Is to Be First Step.

Life for the unemployed during the coming Winter will not be easy in Portland. This in effect will be the wording of a warning to be sent throughout the country in the next few weeks to head off any influx of idle laborers. It was decided upon yesterday by the committee on seasonal employment, comprising the State Board of Control, the City Commission and the Board of County Commission and the Board of County Commissioners. It is the first important step in the campaign to be promoted to handle the unemployment problem. It has been reported that because Portland housed hundreds of the unemployed in the Gypay Smith auditor-lum last Winter, the city has gained a reputation as a hospitable place and therefore will attract more than its share of the idle next Winter.

Hard Work to Be Supplied. The committee decided to give proper warning in advance that those who come to Portland will have to work. It is planned to provide an arwork. It is planned to provide an array of jobs with hard work and little pay for the influx of undesirables, if there is an influx. Actual residents of the city will be treated differently.

Although the meeting was to have been attended by all the members, Governor West and other members of

Governor West and other members of the State Board of Control were not en hand, telephoning before the meeten hand, telephoning better the ting that they had another meeting to attend. There were present all the members of the City Commission and County Commissioner Holman.

Secretary to Be Employed. The meeting by unanimous vote elected Mayor Albee permanent chairman of the general committee and apinted Commissioner Brewster a com mittee of one to select a secretary. He will endeavor to procure a man familfar with the work and capable of con-ducting a lively campaign. It is planned to provide a salary for the

Although the question of what the committee should do to supply work to the unemployed was not discussed fully, it was the general opinion that residents of the city needing employment should be given work in the city, while laborers from out of town should be sent out of the city to do land-clearing, rock-breaking and other lines of work. It was decided that the rock-

piles and the jails should be open to those who refuse to work.

Rond Work Suggested.

County Commissioner Holman said he believed the Board of County Commissioners would be willing to coperate supplying work on the roads. It was suggested that rock for county road repair work be broken by hand and that as much road construction as possible be done during the Winter.

Mr. Holman said he would look into this and see if it is practicable.

Another meeting was arranged for

Another meeting was arranged for next Friday, at which an effort will be made to have all members of the com-mittee present. At this definite plans for finding work will be started. In the meantime County Commis-

sioner Dieck will attempt to ascertain what land near Portland might be available for clearing during the

WHEAT ADVANCE IS SHARP Oats Now in Demand at \$30 a Ton.

With Active Buying.

change session 25,000 bushels of export wheat were sold at 93 to 94 cents, a gain of 2 to 3 cents as compared with Thursday's price.

son street, yesterday. The women pledged themselves to aid the widows and orphans of the German soldiers and to provide relief for the wounded.

No business was transacted locally in milling wheat, but there have been sales of bluestem in the Walla Walla section at prices equal to \$1.12½ here. Local millers made no change in their flour quotation, but higher prices are asked by interior mills.

Other cereal prices are also on the up grade. Oats advanced to \$30 a ton. with a sharp demand from local and Callfornia buyers. The oats crop in plans to give material sid. Temporary

California buyers. The oats crop in the Northwest has been cut down by officers elected at yesterday's meeting the long dry spell. There were reports from Idaho towns of active buythe long dry spell. There were reports from Idaho towns of active buying of oats there for shipment into
Canada. It is presumed these Idaho
oats will in time find their way to

RESIDENTS OUTSIDE CITY LIMITS GET ORDERS.

of Bull Run Aqua Will Be Re quired to Purchase Meter by December 1, Says Daly.

By order of City Commissioner Daly, all users of Bull Run water residing outside the city limits will be required to install water meters by December 1. Orders to this effect were issued yesterday, and all the non-resident users will be notified as soon as pos-sible. Each user will be required to purchase a meter, have it tested by the city and have it installed. The city will not attend to installation and will not furnish meters.

commissioner Daly says the meter plan will affect about 500 users. The cost to each, he says, should not amount to more than \$9 or \$10, including the cost of the meter, the charge ork for testing and the cost of installation. The city will make a charge of 50 cents for testing, the meters will cost between \$5 and \$5, and the cost of installation should not be more than \$3 or \$3.50, Mr. Daly says. No particular make or style meter will be required excepting that it must meet the city's
