Circle of Allies Shrinks and Exhausted Men Give Way to Reservists.

armies have been forced to withdraw, their lines so far remain intact. At no point has the enemy succeeded in driving a wedge through the circle which is drawing closer and closer around the capital and gaining in strength as it retreats.

"Amid all the welter of war the British troops produced the great quality of efficiency. The spirit of Kitchener apparently pervades the whole British expeditionary force. The transport and commissariat are all excellent and they have withstood the slaughtering tactics of the German general staff with wonderful equanimity."

A dispatch to the Daily News from Rotterdam says:

"From Terneuzen, on the Dutch frontier near Antwerp, reports come of a general movement of German troops eastward. Exhausted men are being replaced in all directions by reserves. The movement is also believed to be connected with the arrival of the Land-sturm reservists, who are to occupy the whole of the Belgian territory."

"The movement of trains for civilian purposes south of Ghent has again ceased."

"Preparations are being made at Antwerp for an immediate bombardment."

The Daily Mail correspondent at Abbeville, France, telegraphed:

"The Germans have installed quick firers in the villas all around Antwerp in order to prevent further sorties. A Belgian detachment of 350 men was surprised by a squad of these machine guns, which killed all but 50 of them. These particular machine guns were installed in a parish church."

"One of the principal objects of the Belgian sortie was to secure a distinguished German prisoner, to be exchanged for General Leman, whom the Belgian King and his councilors desire to get back."

"King Albert has given a decoration and commission to George Lysen, an 18-year-old Boy Scout, who is in charge of the Boy Scout work of spy detection at Antwerp. Lysen personally caught 11 spies and also killed a German cavalryman at Malines and captured another."

The Boulogne correspondent of the Express sends his paper the following:

"A French artillery officer who has just arrived wounded from the front spoke with the greatest earnestness regarding the new machine guns which the Germans are using. He says the guns use a new and highly explosive shell which has a most devastating effect."

"This new machine gun was recently developed at the Krupp works and the fact that the Germans had it was kept a profound secret until it was brought into action at Liege, Namur and Louvain."

"In all my experience I have seen nothing like it," declared the French officer.

Search for Mines Is Made.

LONDON, Sept. 2.—Telegraphing from Copenhagen, the correspondent of the Daily News says:

"Several private motorboats have left for Cape Skagen, Denmark, to search for mines which are dangerous to neutral ships. Persons arriving here from Revel, Russia, today say that while crossing the Gulf of Finland on board a Russian ship they saw a mine explode about a mile and a quarter away. No ships were visible in the vicinity and the captain of the Russian vessel suggested that the mine was detonated by some big fish coming in contact with it."

"Emperor William has announced an amnesty for all Germans convicted of military offenses or who emigrated without permission who within three months present themselves for service in Germany on the colonies or board German warships. The sole condition of the amnesty is that they can prove their recent conduct has been satisfactory."

"During the first month of the war food prices in Denmark have risen. A rye loaf of bread which on August 1 cost 8 pence (16 cents), is now one shilling (24 cents). English sugars which were 25 kroner a hundredweight August 1 today are quoted at 33 kroner. (A kroner is equal to 33 cents in American money.)"

RUSSIAN ROUT ADMITTED

(Continued From First Page.)

"Army headquarters report that, thanks to their highly developed railway system, superior German forces concentrated from various parts on the frontier and flung themselves against two of our army corps. These were exposed to an extremely violent fire from the big guns which inflicted extremely large losses."

"According to the reports received here, our troops fought heroically. Generals Samsonoff, Martos and Pestich and several staff officers have fallen. All possible measures to amend this distressing event are being taken. The commander adds: 'Trust God to help us carry our plans successfully.' On the Austrian front stubborn fighting continues."

PETROGRAD (St. Petersburg), Sept. 2.—The general staff announces that after a seven days' battle the Russian forces seized the fortifications near Lemberg, capital of Galicia, and on September 1, after a furious fight, routed the Austrians, who fled in disorder, abandoning many pieces of artillery.

The following official announcements are also made:

"Our forces invading Galicia have continued their advance in the direction of Lemberg. The enemy fell back gradually before our troops. We captured some cannon, some rapid-fire guns and some caissons. The pursuit continues."

"Near Guila and Lipa the enemy occupied a strong position of such natural strength that it was considered impregnable. They also desperately attempted to stop our advance by a flanking attack in the direction of Hatury."

"We repulsed the Austrians, inflicting severe losses. We buried on the battlefield 14,000 Austrian dead, captured a flag and 22 guns and a quantity of supplies and made many prisoners, including a General."

"On the south front, in the Warsaw district, all the Austrian attacks have been repelled with success. Assuming the offensive on our right wing, we forced the Austrians to retreat, capturing three cannon, 10 rapid-fire guns

and over 1000 prisoners. According to statements made by the latter, the Austrian losses were very heavy."

The general staff announces that the Austrian fifteenth division was completely routed near Lusthoff on August 28 and that 100 officers and 4000 soldiers were taken prisoners."

Russian Says Both Lines Have Reinforced Lines in Prussia.

NEW YORK, Sept. 2.—Colonel Nikolai Golejewski, military attaché of the Russian Embassy, made public today a cablegram which he said he had received from the Russian War Office at Petrograd (St. Petersburg). It confirms previous official statements regarding a Russian advance in the northern part of Eastern Prussia.

Regarding the situation in the northern part of Eastern Prussia, the message says:

"The Germans have concentrated reinforcements on the whole of their superior force against two of our army corps. The latter suffered considerably from the fire of the heavy artillery brought up by the enemy from its fortresses on the Vistula. Since we brought up reinforcements contact with the enemy is being maintained."

On the Galician front heavy fighting continues.

"On September 1 all the Austrian attacks were repulsed, our troops taking three guns and a large number of prisoners. The Austrian losses were heavy."

"In Eastern Galicia our advance continues. Especially stubborn fighting took place on River Gniliarza Lipa. Here a naturally strong position was elaborately fortified, and, according to the statements of the prisoners, considered by the Austrians to be impregnable. This position has been taken by our troops. An attempt to check our advance by counter attack from the direction of Galitch failed. The Austrians were repulsed, leaving 4800 dead in the field. In this battle our troops took a large number of prisoners, among them one General, 22 guns and ammunition and supply columns."

DIRECT REPORT IS RECEIVED

Petrograd Connects With New York First Time Since War Began.

PETROGRAD (St. Petersburg), Sept. 2.—The following official communication was issued by the Russian War Office tonight:

"After a battle lasting seven days the Russian army seized heavily fortified positions around Lemberg (capital of Galicia in Austria-Hungary), about 10 or 12 miles from the town. The Russian troops then advanced toward the principal forts."

"After a battle yesterday, which was fiercely contested, the Austrians were obliged to retreat in disorder, abandoning heavy and light guns, parks of artillery and caissons."

"Our advance guard and cavalry pursued the enemy, who suffered enormous losses in killed, wounded and prisoners."

"The Austrian army operating in the vicinity of Lemberg was composed of the Third, Eleventh and Twelfth corps and parts of the Seventh and Fourteenth corps. This army appears to have been completely defeated. During the pursuit by the Russians the Austrians who beat a retreat from Guila Lipa were forced to abandon an additional 31 guns. Our troops are moving over roads encumbered with parks of artillery and convoys loaded with provisions of various kinds."

"The total number of guns captured by the Russians along Lemberg amounts to 154."

The foregoing dispatch was sent direct from Petrograd by the St. Petersburg Telegraph Agency, the semi-official Russian news agency, and it is the first dispatch received in New York direct from the Russian capital since the declaration of war.

TURKS AT WAR WITH RUSSIA, IS REPORT

Ambassador Admits Half Million Men Probably Are Now Ready for Action.

TROOPS LAND AT SMYRNA

General Lehman von Sanders to Command Second Army—Diplomat Unable to Communicate With Capital for 3 Days.

NEW YORK, Sept. 2.—Dow Jones & Co. today published the following on a news ticker:

"London.—Unconfirmed reports are current here that Turkey has declared war on Russia. Communication with Constantinople has been cut off for three days, and the Turkish Ambassador stated he had no way of telling when he would hear from his government again."

LONDON, Sept. 2.—A St. Petersburg dispatch to the Reuter Telegram Company conveys a semi-official statement that in well-informed circles in St. Petersburg the opinion is expressed that war between Turkey and Greece is now only a question of two or three days.

Many Turkish troops, the dispatch says, have landed on the shores of Asia Minor at Smyrna, while near Chatalja and to the east of Scutari fortifications are being feverishly thrown up under the direction of German officers.

General Leman von Sanders will command the second Ottoman army and Enver Bey will be Commander-in-Chief.

WASHINGTON, Sept. 2.—The Turkish Ambassador, Arustum Bey, said today he was unable to confirm the report from London that his country had declared war on Russia. He has not been in cable communication with his government for days.

The object of the mobilization of Turkish troops was described in a statement today by the Ambassador.

"The Turkish mobilization, which started about a month ago and not quite recently, as yesterday's telegrams might make one think, has brought to arms not 200,000 men mentioned in the same dispatches, but probably over 500,000," he said.

"This operation is not meant to allow Turkey to attack Greece, her difference with Greece being the smallest of her concerns today. She has to prepare in view of other and much more important contingencies."
