CITY CLERKS MAY JOIN LABOR UNION

Civil Service Forces Talk of Organization and Leaders Get List of Names.

ALL CLASSES INCLUDED

First Chapter of Kind With 1300 Members Would Be Ready to Fight Dismissals or Changes in Municipal Offices.

An effort to organize all the city civil service employes into a union to be affiliated with the American Federation of Labor is to be put under

way today. Although no public announcement of Atthough no phone announcement of the plan has been made it has been learned that at the meeting of the Central Labor Council last Friday night the plan was definitely decided upon and work of organizing is to be

Stenographer Secures Names. The first step in the movement was to get the names of all the employes. A stenographer completed this work yesterday, and it is understood the list will be turned over to the Labor Countries. cil at its weekly meeting tonight. The council will refer the names to the organization committee, it is under-stood, and this body will commence its

campaign at once.
It is probable that an attempt will be made first to get one or two members in each division of the city service into the union. Application then will be made to the American Federation of Labor for a charter. The charter members will win over other employes. Those behind the movement hope to get a strong membership.

On what scale the plan will be carried out is not certain as yet. It is

known, however, that the stenographer secured the 1300 names, and it is thought all classes of employes will be included in the union. If perfected this will be the first union of this class of employes formed in Portland with an affiliation with the American Federa-tion. In the service are policemen, fire-men, laborers, stenographers, clerks, engineers, professional men and other

The plan to ofganize the service is The plan to ofganize the service is thought to be one of the developments of the organization several months ago of workmen in the water department under City Commissioner Daly. It is understood that such an organization was perfected and that about 100 members were procured, and that the body secolard a charter.

received a charter.

Among those behind the movement to organize the men in the water department was G. L. Walker, foreman of a crew of laborers. Mr. Walker was discharged from the service, and al-though he made a hard fight he falled to get back as foreman. He was, how-ever, given a chance to go back as a laborer.

Dismissals to Be Fought.

The purpose of a civil service union is said to be the same as a union of carpenters, bricklayers or other trades. It is to band together to prevent dismissal from the service and to combat in an organized way attempts at dismissals or undesirable changes in working conditions or transfers in service.

Although members of the City Commission have not been advised of the plan it is expected they will object to it on the ground that it would de-moralize the service and would damage the effectiveness of civil service.

ploitation Tour of Band.

It took but one selection of soft music for the police band yesterday to win the consent of Mayor Albee to permit the band to take a trip over the country next May for the purpose of exploiting Portland. The Mayor announced when the band finished serenading him at the City Hall that he favored the trip and was willing that the men should go. The only thing asked by the policemen was that all be given their vacations at the same time. They will go on their own vacation time and on money to be raised by themselves.

After winning the Mayor the band proceeded to make other friends by the same method. The morning was devoted to serenading the newspaper offices, theaters and other places which the policemen hope to have as supporters in their campaign to raise money for the trip. Money for the trip is to be raised by a series of concerts and entertainments of other kinds.

Rev. C. C. Poling, H. Bardenrick and Rev. S. S. Mummey, delegates to the general conference of the United Evangelical Church, which meets in Barrington, a suburb of Chicago, will leave Portland for the East Monday.

Mr. Poling will attend the session of the organic union commission, which meet in Chicago September 24, to take up the question of union with the Evangelical Association. He will also attend the international Sunday school convention in Chicago September 24-30.

CITY PAVING RESTRICTED

Milenge for 1914 Not to Exceed 25, Being Lowest in Years.

Owing to delays in the improvement of streets occasioned by the lengthy

bickering of the City Commission early this year over new paving specifications, the mileage of new pavement for the year will fall below the mileage of any year since 1903, according to estimates made by the department of public works.

It is expected that the total of new paving for this year will not be more than 25 miles. Last year it was 47 miles. The total amount of paved streets in the city is about 400 miles, costing approximately \$13,000,003. Including macadam roadway, there is a total pavement of about 700 miles.

VANCOUVER FAIR LAUDED Commercial Club Men Recount Wonders of Next Week's Show.

ANTI-KAMNIA TABLETS FOR

Jonathan J. Keeney yesterday brought suit against Hattie I. Keeney for divorce on the ground of cruei and inhuman treatment. Personal indignities are alleged and it is charged by the husband that his wife habitually went to dances with one John Doe, much to his humiliation. The custody of the two cider children is asked by the plaintiff, who also requests that the two younger be placed in the care of their mother.

"Gruff and sullen when company was present at their home," is the charge brought against Asa C. Burdick in a divorce suit filed by his wife, Maud, yesterday. It is alleged he had been morose and cruel in his treatment of her and has made threats, by reason of which she has become afraid.
