Mr. Herrick's reasons for remain-ing, in substance, are to look after the several thousand Americans who stay in Paris. They are principally permanent residents in business. He also feels that he can better protect American business interests, among them several American banks and American business interests, among them several American banks and banking agencies with deposits of Americans. These would have trans-ferred their cash elsewhere had not the Ambassador remained. The American embassy is now charged with British, Russian, Japan-ese, Servian, German and Austrian af-

Michaels, prosi-dent of the San Francisco Chamber of Commerce, against the arrest and de-tention in London of Baron Louis von Horst, known in San Francisco as Louis Horst, arrived here today. Baron von Horst is charged by the English authorities with esplonage and is held as a prisoner of war in one of the detention camps. A single shot fired from a window in a town would be followed by the destruction of the entire street. NEW YORK, Sept. 3.—A cable to the East and West News Bureau today from Tokio says that at the conference of local Governors today, the Minister of Finance said that the special appro-priation for war purposes to be sub-mitted to the special session of the Diet would be 53,000,000 yen (\$26,500,000). Together with the sum already ex-pended for the present emergency. It amounts to the total of 66,000,000 yen (\$33,000,000). This will be defrayed from surplus funds. The treasury has at present a sur-plus of 120,000,000 yen (\$60,000,000). Besides, there are various special funds. There will, therefore, be neither in-crease in taxes nor any new loans floated.
