7. The Mayor, the clergyman and four well-reputed citizens are to appear before me at once to act as bostages during the stay of the troops. Under these conditions—I repeat it—the lives and private property of the inhabitants are perfectly secare. The strict discipline to which our soldiers are accustomed renders it possible that no inhabitant will be compelled to neglect his business affairs or to desert his home and hearth. On the other hand, I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible.

"Besides this, every citizen will be shot who is found with a weapon in his hands, or committing any act whatever hostile to our troops. Finally, the entire city is responsible for the deeds of every individual citizen, and the citizens will do well to keep mutual oversight over each other in greder that they may avoid the unpleasant consequences that must follow upon any cooperation with the enemy.

As a consequence of non-observance of such proclamations, a number of villages on the French frontier have been burned and the inhabitants severely punished.

Diplomats Watching Situation Developing in Egypt.

washington, Sept. T.—Routine dispatches from Ambassador Morganthau at Constantinople today to the State Department show that communication with Turkey is unimpaired. No mention was made by the Ambassador of political conditions, from which, it was inferred, the diplomatic situation there was unchanged.

Officials here are much interested in the possible results of the expulsion of German and Austrian consular officers from Egypt by British military authorities. For weeks, Great Britain which must irritate the Porte. England's action in Egypt, which is under the authority of the Sultan, but dominated by Great Britain, was interpreted as meaning that the latter would delay po longer in meeting embarrassing situations resulting from Turkey's wavering yet apparently sympathetic attitude towards Germany and Austria. There is a belief in official circles, however, that while the military is taking every precaution, the diplomatic branch of the Ottoman Empire is waiting for a more decisive turn on the battlefields before plunging into the conflict.

Ambassador Herrick's request for instructions as to what he might do to protect world famous buildings and works of art in Paris in the event of a bombardment, was not acted on today. The Ambassador Intends to have all American residences plainly marked with American flags and other insignia to insure their safety from attack. Detailed instructions probably will be sent to the Ambassador tomorrow by President Wilson and Secretary Bryan as to what he might properly do in his delicate position as a neutral diplomat.

Italian Paper Says New Agreement
Is Warning to Balkan States,

ROME, Sept. 7, via Paris.—The Corrière d'Italia, commenting today on the undertaking signed by the powers of the Triple Entente, in which it was agreed that none of the three would accept terms of peace without the previous consent of the other two, says that the undertaking will have enormous importance.

In addition to its effect on Germany, it will serve as a warning to certain Balkan states, the paper declares.

"It is impossible to say that Great Britain, France and Belgium desire this catastrophe; they undoubtedly did all they could to avoid it. It was Russian which played the principal parts. It is still uncertain whether Germany was informed of the nature of the ultimatum delivered by Austria to Servia, but these diplomatic documents give evidence that it was Germany wo opposed Sir Edward Grey's proposal for a conference in London. It appears from the telegrams from Emperor Nicholas of Russian to Emperor William of Germany about August 1, that mutual distruct tended to make an agreement impossible."

In addition to its effect on Germany, it will serve as a warning to certain Balkan states, the paper declares.

"Sweden as a source of food supplies for Germany holds a strategic position."
