

Discontinuing Our Oriental Rug Section Our Entire Stock at HALF PRICE!

Making Rug Days of Greatest Advantage

—It was not without a good deal of regret that this sale was decided upon. It seemed almost a crime to part with our own carefully-chosen rugs and carpets at such drastic reductions. Seeing no immediate relief, no the opportunity of replenishing our Oriental rug stock until European hostilities are over, we decided "best none at all," rather than an incomplete assortment. Today importers are asking from a quarter to a half more for any sort of Oriental carpet.

—At the great concession in price, householders who will be wise enough to invest in these rugs will hold prizes that they will refer to in years to come as purchased during the great European war. In order to relieve the congestion of the past two days, we shall have extra salespeople and spread the rugs over our entire rug and drapery section, so that inspection will be easy.

VICTORY IS COSTLY

Austrian Defense of Lemberg
Stubborn, Says Victor.

RUSSIAN BAYONETS WIN

Hail of Shells and Bullets Kept
Pouring Into Czar's Troops Four
Days and Fighting Prevented
Sleep, but Men Battle On.

PETROGRAD, Sept. 9 (via London, Sept. 10).—The Reich today prints the following details of the fall of Lemberg:

"The fighting which resulted in the capture of Lemberg began August 29, when the Russians drove the enemy from Zloczow (45 miles east of Lemberg) and moved on to Gollaya Gorka—a name which means 'the naked hill'."

"We spent the night on Naked Hill and the actual storming of the town was begun at 2:30 o'clock in the morning. Then followed a four days' battle. A virtually continuous cannonade lasted from dawn to darkness without cessation. Even in the darkness the weary fighters got little sleep. Whenever a single shot was heard the men dashed for their places and the battle boiled again with renewed fury."

"Exact Orders Used as Force. The enemy's counter attacks were delivered with great energy and a dense hail of lead and iron was poured over our ranks. The Russian advance was greatly impeded by the hilly nature of the ground and the great number of extinct craters, which formed splendid natural fortifications for the enemy, who held them doggedly. Out of these, however, the enemy was driven in succession."

"We suffered much from thirst, for the enemy's counter attacks were delivered with great energy and a dense hail of lead and iron was poured over our ranks. The Russian advance was greatly impeded by the hilly nature of the ground and the great number of extinct craters, which formed splendid natural fortifications for the enemy, who held them doggedly. Out of these, however, the enemy was driven in succession."

"Both sides fought with great obstinacy, but the nearer we approached Lemberg the harder the struggle became. However, it soon was evident that we were superior in artillery."

"At length the enemy was driven from all trenches beneath the protection of the Lemberg forts. Our troops were weary, but in high spirits. For

two days the fight raged around the forts but we were always confident of the prowess of our artillery. The big guns of both sides rained a terrific hail down on the armies, which suffered terrible losses.

Works Carried at Double Quick. "At last we noticed that the resistance of the forts was growing weaker. A charge at double-quick was ordered and we carried the first line of works. It was evident from that point that many of the enemy's guns had been destroyed. Not enough of them had been left to continue an effective defense, but the enemy was undaunted and tried to make up with rifle fire what he lacked in artillery."

"Between the first and second lines our losses were heavier than before, but under bayonet charges the enemy broke and fled in panic."

"Our troops entered the town at the enemy's heels. We ran into the town, despite our fatigue, with thunderous cheering."

"An episode which had much to do with ending the enemy's dogged resistance occurred during the fighting between the first and second lines. The Austrians, in the hope of checking the Russian effort to encircle the town, had thrown out a heavy screen of Slav troops with a backing of Magyars, who had been ordered to shoot down the Slavs from behind if they showed any hesitation."

"This circumstance became known to the Russian commander, who ordered a terrific artillery fire over the heads

of the Slavs and into the ranks of the Magyars. This well-directed fire set the whole line in panic."

TAX REMEDIES SUGGESTED
Treatment of Corporation Like Individuals Is Suggested.

DENVER, Sept. 9.—A general resume of the tax and legislative developments of the United States was contained in an address by M. M. Flannery, chief of the tax division of the Federal Bureau of Corporations, today at the annual convention of the National Tax Association.

The contention that a corporation is nothing more than a collection of individuals and should, so far as possible, be treated in taxation similar to individuals, was presented by J. F. Zoller, of Schenectady, N. Y., in discussing "Taxation of Foreign Corporations." He suggested remedial legislation on the following lines:

"Taxation of property where situated once, and only once, whether by property tax or by franchise tax in lieu thereof."

"If a franchise tax is levied it should be on the capital employed in the state."

CRITIC TAKES HEART

Military Expert Says German
Eastern Position Improves.

NEW LIGHT IS OBSERVED

Offensive Movement Across Vistula
River Now Expected to Co-operate
to Good Effect With
Austrians at Lublin.

BERLIN, via Copenhagen and London, Sept. 9.—Major Morath, the military critic of the Tagblatt, writes:

"Yesterday's news that the Silesian landwehr have taken 1000 prisoners from Russian and Caucasian corps and the news from Vienna that the German troops occupied Radom (Russian Poland) on August 29, together with earlier reports of a German occupation of Lodz, and Petrikau, throw a welcome light on a hitherto ignored section of the battle front and indicate that the Germans marched in a broad front over the Silesian and Fosen frontiers into Russian Poland and are in touch with the Austrian column advancing through Kielce (a province in Russian Poland bordering on Galicia)."

"The Germans must now be, or immediately will be, before Ivangorod, and if the columns at Lodz and Petrikau advanced they also must have reached the Vistula with their left wing touching the fortress in the district of Warsaw. If indications do not deceive, we are in the presence of a German offensive across the Vistula River which will co-operate timely and strongly with the Austrian offensive at Lublin."

INDIAN EMIGRATION TOPIC

Viceroy Proposes Inter-Colonial
Permit Agreement.

SIMLA, India, via London, Sept. 9.—The Viceroy of India, in council, has outlined proposals for the consideration of the Indian people, by which the government of India proposes to negotiate reciprocal arrangements with

other British colonies to meet the present differences regarding the emigration of Indians.

Under this plan a limited number of passports will be issued. It is similar to the present arrangements between Canada and Japan, which permits of temporary arrangements for the movements of students and tourists, but which limits strictly the right to settle permanently.

The Viceroy announced also that India was contributing \$5,000,000 toward the cost of the Indian contingent in the war; this in addition to applying the gift of the Maharaja of Mysore of \$1,600,000 to the cost of transportation.

Joseph G. Cannon Nominated.

DANVILLE, Ill., Sept. 9.—Joseph G. Cannon was nominated for Congress on the Republican ticket by 1000 votes in today's primary.
