CLUB WOMEN EYE CITY. Mrs. Harper, Seattle, Thinks Portland Should Have Federation.

That Portland would make an ideal city for the convention of the General Federation of Women's Clubs next year is the opinion of Mrs. W. F. Harper, of Seattle, one of the directors of the General Federation, who was in Portland Wednesday on her way to the East to attend the National Board meeting at Atlantic City, September 14.

Mrs. Harper was entertained while in the city by a few of the members of the Portland organization, and expressed her delight at the prospect of Portland being chosen as the convention city. The members of the local club are doing all they can to promote the project, and it looks as if they might be rewarded by success.

The place for the convention was not decided upon by the women and will not be until they are certain of success.

Flowers of Oregon Plant Wizard, at Brooks, Are Destroyed.

A report was received in Portland yesterday to the effect that the drought destroyed many plant and flower specimens in the gardens of Father Schoener at Brooks, Or. Father Schoener is known as the plant wizard of Oregon.

A recent visitor says that the priest is heartbroken over the destruction of his plants, on some of which he has been working for years. He made every effort to save them, often carrying water to the gardens till late at night.

James Manner & Co. offered 14 lots at Twenty-third and Taggart streets for \$20,000. L. S. Fisher also notified the Commissioners he is willing to sell a five-acre tract in the vicinity of Forty-second street and Fifty-third avenue, Southeast, for \$25,000.

C. H. King brought forward a remonstrance against the purchase of the Parish tract at East Thirty-first and Tillamook streets for armory purposes, basing his objection on the statement that sanitary conditions in a beautiful residence district of the city would be hurt by the stabling of cavalry horses and other military objects contemplated. He also said in his letter that the morals of school children in the neighborhood would be impaired by close location of the armory to a school.

AUDITOR DEAF TO RECALL. Barbur Not to Heed Movement Until Petitions Are In.

Although it has been said by those heading the Albee-Dieck-Brewster recall movement that the recall petitions will be ready for filing within a short time, no attention is to be paid the movement by City Auditor Barbur until the petitions are actually filed. That announcement was made by Auditor Barbur yesterday. He said he does not know how many names are required for the recall or what is required of him in arranging a recall election should one be called. If the petitions are filed he will take up the question of arrangements at that time. It is said, however, that Mr. Barbur notified B. Elmer Kennedy, one of the

A Moment of Great Decisions

This is a moment of great decisions. Nations and rulers are grasping with grim problems and reaching conclusions fraught with far-reaching consequences. To "do or die" is the one decision forced by circumstances upon millions of warring brothers of the human race. How simple how easy the decision required to qualify YOU for a higher rank in the number of electors who voted in conclusion, reached now, to SAVE FIRST and fit yourself to command rather than to be commanded, will broaden the horizon of your hopes. Can you decide otherwise than for serious saving at this bank?

recallers, that he would require signatures equaling 25 per cent of the total vote cast at the election of the members of the Supreme Court. The state constitution provides that "There may be required 25 per cent, but not more, of the number of electors who voted in the preceding election for Justice of the Supreme Court."

Auditor Barbur says that while the word "may" in this provision might open the way for the acceptance of less than 25 per cent, he will take no chances and will require the full 25 per cent on his part. He will pay attention to recall petitions.
