PORTLAND, SATURDAY, SEPT. 12, 1914

CAPITULATIONS IN TURKEY.

Turkey's denunciation of the treaties granting extra-territorial rights to other nations is an amusing example of Oriental mendacity. The things as making a living and the day's Turkish Ambassador says the capitulations, as these treaties are called, have "stood in the way of progres-sive action on the part of the government" and have prevented Turkey from introducing reforms. The treaties which Turkey has denounced as sure to subjects of the nations which Schedule K, which contained all the exacted them the right to be tried by judges of their own nation in Turkey year wool production in the and to be confined only in prisons of States reached its high-water year wool production in the United at the great total of 328,110,749 pounds. In that same year also wa

These concessions were humiliating to Turkey, but they were made nec-cessary by the corruption, injustice nd fanaticism of the Turkish judges. of the wool tariff on the raw product In their eyes a Christian was a dog, whose word was not to be credited against that of a Moslem. A Chris-tian might be held in a filthy dungeon indefinitely, awaiting trial by a nation whose distinguishing characteristic is procrastination. This treat-ment of their subjects was intoler-This treatable to the Christian powers, and until a normal balance between dothey no sooner got the upper hand Turkey than they extorted the lations. Turkish non-progrescapitulations. siveness induced this action of the powers, yet Turkey says that the capitulations prevented progress.

The powers are now too much oc with their own quarrels to with the Turks about these treaties, but, if the allies should be victorious, they may be expected to reckon with Turkey afterwards. ness the following: the Ottoman empire gives evidence of bringing her judicial methods up to the civilized standard of fairness and June 30. 1913, were 136.169.670 promptness, they may consent to abrogate the capitulations, as they did in Japan. If not, they will probably insist upon restoration of the rights now withdrawn.

June 30, 1913, were 138,189,670 pounds, valued at \$35,040,880. This was under a protective tariff. The wool imports for the same period the following year (October 3, 1913, to June 30, 1914) made the amazing

BUILDING UP EXPORT TRADE.

Useful advice to American merchants for their guidance in cultivating South American trade is given in Commerce Department bulletin The social feature is an important factor, stress is laid on the forms and spirit of courtesy and business is conducted more slowly. Salesmen will find it necessary to begin by working up a personal acquaintance and will find it advisable not to attempt closing a sale on their first visit. A courteous letter written in Spanish will eccomplish more than a circular or form letter accompanied by a cata-

Strong emphasis is laid on fair treatment throughout transactions as a means of making permanent business relations, into which buyers enter with Americans for the first time. Men who have for years been buying in Europe will learn that they can obtain the same goods in the United States. Latin Americans continue to buy indefinitely from the same firm, when their confidence has been won. Create a good first impression of the goods supplied and of fair business. goods supplied and of fair business years been a chronic office-seeker. He methods, and permanent customers will be secured

is necessary to observe carefully instructions as to packing and many instructions as to packing and many ports goods are nor, Supreme Judge, United ernor, Supreme Judge and for some of these offices several times. have to be lightered to shore, where they sometimes remain exposed to some of these offices several times they sometimes remain exposed to some of these offices several times they sometimes remain exposed to some of these offices several times they sometimes the sometimes they sometimes they sometimes they sometimes they sometimes the back and must be put in suitable packages, strong and well reinforced, to escape damage. Clear marking, which corresponds with that shown on the invoice, will avoid risk of goods being delayed for long periods at the custom-house weight should be marked in kilos packages, as the capacity of many limited. Substitution of oods should not be attempted, for it may take several months to return the substituted goods and to receive needs of customers are often peculiar to their district, substituted goods are and ridiculous attempt to quell socialoften useless, and irritation may lose the exporter a valuable customer.

tempt charges many who refused to obey his orders. He subsided only Rights of exclusive agencies should be carefully safeguarded. Exporters have been accused of violating the rights of such agencies by selling direct to customers in the territory granted exclusively to them; also of terminating agreements with exclusive agents after they have done the preliminary work. This course makes emies of the agents and of their friends and may do serious damage

to the firm adopting it, To South American firms of good credit it will be advisable to give much longer credit than is the custom in this country. Europeans allow three to nine months' credit, while Americans sell for cash or on one to credit. Europeans three months' have banks of their own nationality on the ground and in touch with th business situation, while Americans have not hitherto had these facilities and have been accustomed to a more ing been made to establish branches nal banks in South America, one of the obstacles to long credit will be removed. These branch banks or the agencies of American housescan investigate credits and thus remove the other. It will then remain exporters to adjust their prices and their finances to conform to long credits. Argentina and Uruguay have good credit information facilities would permit their, men to use these the United States, but it will be well files should they discover them.

The dum-dum charge has attended for those exporters who have not the nefit of a branch bank or an agency

To flaunt the full dinner pail idea in the people's face now is to assume that they would exchange their birthright, the cause of their country's best interests, for a meal—a mess of pottere. It is an insult to their intelligence and their patriotism.—From a letter by an offended promoter of the empty dinner pail. pended and thousands of men being struck each day it is not to be expected that all wounds will be clear. The bullet projected by the French Lebel rifle has a jacket of copper zinc over lead. When it travels its nor-mal flight the puncture it causes is It is a gross world. Some men indeed prefer the actual and consoling a small clean one, even at short fact of a good wage and a decent ranges. But, like all jacketed bullets, fact of a good wage and a decent home to the unsubstantial shadow if may tip or split or ricochet and cause the most ghastly of wounds. The same rule applies to the nickel-coated steel jacket of the German Mauser bullet, which, however, is of rainbow theories and pleasing ideal-Some men continue to wonder how they are to feed and dress their chilsomewhat smaller, more pointed and dren and give them an education and

cleaner than the French missile.

Joe Cannon may or not be able to come back. That is to be seen. He has been renominated by the Republicans of his old district at a direct primary, and it is to be assumed that they want him. But he was defeated at the general election two years ago,

and he may be again. Yet it is to be remembered that Joe Cannon represented his district faithfully in Congress for almost forty years, and that the only charge ever a back number, a reactionary, and a We have not observed that the present Congress has made any effort to get out from under the domination of the party caucus, and it is no sufficient to condemn anyone merely by making the vague general ization that he is a reactionary.

But, whether Joe Cannon

wicked old sinner or not, and whether or not Ephraim returns to his idols in the Danville district, there is no loubt of the unshaken loyalty of the Illinois Democracy to their ruler, Sullivan, who has just been overwhelmingly nominated for United States Senator. How shall Sullivan

be explained? Sullivan has been the Democratic boss in Illinois for many years. He is a practical man. He thinks old ways are best. He delivers the goods, for he makes it his business to have on hand always a large stock of political goods. Now he is to be re-warded by a place in the United States senate, if the Democracy shall win in November.

He has taken quick and profitable The Republican party has ejected advantage of the new tariff, as wit-Foraker, Aldrich and other odious political bosses from their seats of The wool imports into the United States for the nine months ending power. But what political boss has the Democracy recently turned down?

LETTING IN THE JUNGLE.

A letter written to the Outlook by Edwin A. Schell of Mount Pleasant, Ia., forecasts epidemics in the Phil-ippines as the consequence of turning government over to the Filipinos. Mr. Schell says:

Mr. Schell says:

The prompt passage of the penal clauses against peonage and slavery raised the greatest expectations as to the efficiency of the new island government. In spite of the dismissal of fundreds of experienced men from the different insular departments, the indiscreet credit given by the new Governor-General for the Filipino indorsement which had secured his appointment, and the withdrawal of military control from the southern islands, men experienced in the ways of the East hoped even when their judgment disapproved. But now, as the first hot season is on in Manila, when the American colony is utterly disheartened, and when every berth on every ship is crowded by those whose one wish is to get away from the Fhilippines, plain words become a matter of public duty.

Not since 1902 has there been such cause for anxiety. A smallpox scare is now territative Marilla and the wholessie increase.

when other qualifications of mind are absent it is hardly strong enough basis for electing the possessor to high of-fice. Judge Humphries, who seems

Philippines in making a wholesale change of officials with that of the British in India in retaining men who have become specialists without regard to change of Viceroys. As an example he says:

ample he says:

The health office of Rangoon, hemmed in as it is by cholera, black smallpox, and bubonic plague, is kept in the hands of medical men imperviously to any appeal or command save that conductive to sanitary order. They are under no pressure from native public opinion as to what the natives wish done.

He closes with this warning as to the consequence both to the United. In one campaign Judge Humphries was almost successful as a candidate ington law was then formed, nomina-

the consequence both to the United primary meant actual election. His States and the Philippines of the present Administration's policy:

The changes in the Phillipine civil s son, neither the natives hor the Americans now in power are fit to govern in the Philip-pines, and we should at once determine to "stay" efficiently in the Islands, or there will be little but a few figureheads to with-Blind to the disastrous effects not

only to American Interests but to the life, health and fortunes of the Fillpinos, of what Governor Harrison has Governor of the state and of all his already done, the Democratic leaders in Congress with the approval of the fellow members of the King County President propose to go farther in the same direction. They would substitute for the appointive commission an elective Filipino Senate and would thus hand over the entire govern Court does not now necessarily mean election in Washington. Perhaps the ment to the one-twentieth of the Filipinos who are educated. There is abundance of evidence that this one-There is as it did when the elevation of uncouth twentieth formerly used and would again use power to exploit, rob and oppress the others. The only restraint upon them has been the American executive officials. This restraint has been largely removed and would be Although charges pass back and forth between French and Germans almost entirely removed if the bill that dum-dum bullets are being used, now before Congress were to be passed. The one-twentieth would beis unlikely that either government

come supreme an and French soldiers are being. The questions at issue in regard to the Philippines are very simple if we bear in mind certain basic facts. First door of individuals in the ranks, who, is that the Filipinos as a whole were maddened by loss of comrades and utterly incapable of self-government when we acquired the islands, and that an educated minority had used power during the insurrection to rob is the fact that in his instructions to would serve this purpose, although it the Second Philippine Commission is unlikely that officers on either side President McKinley said:

The Commission should bear in mind that The Commission should bear in mind that the government which they are establishing is designed not for our estisfaction or for the expression of our theoretical views, but for the happiness, peace and prosperity of the people of the Philippine Islanda.
His instructions were to grant the largest possible measure of local self-government and to increase the measure of local self-government and to increase the measure of local self-government and to increase the measurement. ure of self-government as fast as was compatible with the main purpose of

tions were faithfully carried out un der his own and succeeding Republi-can administrations to the point native rulers and a native legislative sembly had an equal voice with the mmission in making laws.

Independence at the present time does not mean independence for the entire 8,000,000 people in the islands; it means independence for the edu-cated \$00,000 to govern the rest of the people. Republican policy contem-plates complete self-government so soon as the whole population has been educated to the point where it can in-telligently exercise this right. Democratic policy has stopped this work of preparation for independence, has turned over the government to the minority and has put the uneducated majority at their mercy. aid of thousands of Americans and has deported many of the latter in poverty. By depriving the Filipinos of the services of American health officers it has exposed them to epidemics of disease such as formerly swept away the people by thousands

The Democratic administration has done a cruel wrong to the Filipinos in its devotion to a theory. done an equally cruel wrong to those Americans who had devoted them selves to the preparation of the Fillpinos to rule American aid. themselves without

It reads oddly that Evangelists are still preaching sermons on Archbishop Usher's chronology which every Christian scholar in the world discarded long ago. The excellent archbishop constructed his system of dates in utter ignorance of historical science but its very crudity makes it fascinating to the same type of mind that sees pictures of all the future in the Book of Daniel

Klamath Falls shows a progressive spirit by including "stenotypy" in its public school course. The "stenotype" is a machine which writes shorthand as a typewriter does ordinary word forms. It is said to be a great labor saver, but its use is still uncommon. Of course the pupils who master it first will find many openings ready

In Central Oregon, where farmers rrigate, many cut three crops of alfalfa this season. In the Valley where dependence is placed on natural sources, the long dry spell made one good crop a rarity. Yet the water in many a creek is allowed to run to

Great Britain is preparing for a long war. That is the only rational ex-planation of the addition of 1,000,000 recruits. They may be trained and equipped to fight when the war has asted a year and may get in at the finish.
