Our buyers, while in the markets, made a special point of procuring the most up-to-date, youthfully-designed and varied collection of Tailored Suits for Misses and Juniors it was possible to secure. In consequence of this vigilance we are able to offer our patrons one of the most comprehensive assortments ever grouped together in any one store to select from. Youthfulness of line distinguishes every Suit in this collection—every style being suited to the age it is designed for, and thus vastly becoming. And the variety from which you may choose is so great that all tastes may be gratified. These Suits are especially desirable for school wear, and high school girls who would be properly clothed will find their model in this group of Suits.

Redingote, Russian blouse and new Norfolk effects predominate, with skirts in all the newest and most acceptable models for young girls. Serges, chevots and broadcloth and a line of fancy checks are the materials—the colors those most in favor this season—greens, browns, blues, black and white, etc.

We would call special attention to the price range on these Tailored Suits—\$12.50 to \$34.50—assuring our patrons that extreme worth is the watchword. Briefly: A wonderful assortment of Suits at exceptionally moderate prices.
