

GERMAN WIRELESS SOUGHT IN OREGON

On British Complaint Forests in Southern Part of State Are Being Searched.

WARSHIPS DECLARED AIDED

King's Consul in Portland Says Positions of Merchantmen Flashed to Men of War of Foe—Idea Is Scouted by Some.

WASHINGTON, Sept. 22.—On complaint of the British embassy, the Department of Agriculture has begun a search for a mysterious wireless plant supposed to be operating in the mountains on the Pacific coast.

Following a complaint entered with United States District Attorney Reames by Thomas Erskine, British Consul at Portland, the Department of Agriculture at Washington yesterday instructed the forest officers in Oregon to ascertain, if possible, the location of a powerful wireless telegraph plant that is presumed to be operating in the woods of Southern Oregon in the interests of the German government.

Complaint Made Last Week. "Mr. Erskine informed us last week that his office had been advised anonymously that an unlicensed German wireless station in Southern Oregon was tipping off the location of English ships to German ships in violation of the government's neutrality ruling," said E. A. Johnson, First Assistant United States District Attorney, yesterday.

"Ordinarily I might not have reported the matter, but because of the unusual international situation at present we thought the matter deserving of investigation, and sent word to Washington with the suggestion that the investigation could be best carried on by the forestry service. We thought the matter would be kept secret, and were surprised to learn of the public announcement."

Prosecution Is Possible. "If it can be found that unlicensed operations are working in Southern Oregon, the responsible persons will be prosecuted under the law, but until their apprehension the matter amounts only to a quiet investigation," said Johnson. As a result of the telegraphed orders the forest rangers up and down the coast are believed to be combing the woods in search of the reported plant. Forestry officials would make no statement yesterday. None of the officials connected with the inquiry seem to have much faith in the existence of the so-called station, but the investigation is going on, nevertheless.

TRUST BILL DEADLOCKED

WASHINGTON, Sept. 22.—Conferees on the Clayton anti-trust bill failed again today to reach agreement and will resume negotiations tomorrow. The clash still centers on the section relating to "tying" contracts, reconsideration having been demanded by House members of the action of the conferees in amending it.

Charges have been made that agents of the United Shoe Machinery Company have been endeavoring to influence legislation, which would seriously interfere with their exclusive contracts for shoe machinery supplies. Senator Overman, who is chairman of a special committee, and also a member of the conferees, said today suggestions had been made of "invidious" lobbying against the anti-trust legislation, which is estimated there might be an investigation later.

Lithuanians Express Hopes in Telegrams to President. CHICAGO, Sept. 22.—Hope that the United States would aid in bringing about the independence of their native land at the end of the great war was expressed in a telegram sent today by the convention of Lithuanians here to President Wilson. The message also expressed a desire for a world-wide movement for general peace. Resolutions in accordance with their aims were adopted, a committee to raise funds for the Lithuanian patriots appointed and adjournment taken.

NEW YORK, Sept. 22.—The movement to obtain recognition of the Lithuanians of Europe was taken up here today and Lithuanian societies of New York and vicinity adopted a resolution calling a convention in the city on October 1, 2 and 3 of all Lithuanians in the United States.

Mr. Leonard said that military notes were being issued as in the Russo-Japanese war and that the redemption of these notes began at Lung-Kow September 4. "If the people were compensated it would not be so bad," Mr. Leonard wrote, "but although I made many inquiries I was unable to learn of compensation for chickens, grain and food obtained in Chinese homes; for fuel and furniture burned; or for the occupation of houses."

Mr. Leonard said that similar stories came from the surrounding countryside.

RELIEF IS PROBLEM

Americans Abroad Have Trouble Proving Citizenship. THOUSANDS ARE STRANDED

Dutch Government Renders Every Possible Assistance and Uncle Sam Returns Favor by Securing Release of Cargoes.

THE HAGUE, via London, Sept. 22.—While there is a decided decrease in the number of Americans here in need of aid, Dr. Van Dyke, the American Minister, today said that the cases now before him were most difficult. In many instances persons applying for assistance are finding it hard to prove American citizenship, but only a few impostors have been discovered among the crowds that have sought assistance.

Thousands Believed Stranded. In view of the fact that Captain Sunderland and other American Army and Navy officers have been recalled from relief work, it is believed here that congestion in the work may result and an effort is being made to divide the task of caring for Americans between Consul-General Listoe, at Rotterdam, and some civilians.

It is believed several thousand Americans in Central Europe have been unable thus far to leave, owing to illness or lack of funds. Recently only persons who have been unable to leave earlier passed through here, the majority of them had been at health resorts in Germany and Austria. Even Dr. Van Dyke is unable to give the number of Americans remaining in Central Europe. Estimates of the number of those still in Germany range from 8000 to 15,000. Several thousand of these are American students, many of whom have been unable to get away thus far, while others of them, having credit, refuse to interrupt their studies.
