PRESIDENT FIRM ON NINE TRUCE TERMS

Stand Is Operators Must Agree to Proposal or Carry Responsibility of Result.

COUNTER OFFER SCORED

Views Expressed to President of Colorado Iron & Fuel Company, "Rockefeller Property"—Answer Promised Later.

WASHINGTON, Sept. 23.—President Wilson today refused to change his attitude toward the Colorado strike situation and indicated that the mine operators must accept the basis of settlement already agreed to by the miners or stand responsible before the country for the result.

J. F. Wellborn, president of the Colorado Fuel & Iron Company, known as the "Rockefeller property," discussed the situation with the President and told him that some of the principal points of the basis of settlement did not meet with the approval of his concern.

He proposed another plan of settlement but Mr. Wilson refused to take it up.

It was said at the White House tonight that the President would stand behind the original plan of settlement, which was drawn by a mine operator and a miner named by Secretary of Labor Wilson.

President Wilson has expressed disinclination to allow Federal troops to remain in the Colorado mine district much longer.

OPERATORS NAME OBJECTIONS

More Than 40 Colorado Companies Refuse Three-Year Truce.

DENVER, Sept. 23.—Willingness to obey the mining statutes of Colorado and to re-employ such striking coal miners as they think fit, provided a refusal to enter into a three-year truce with the United Mineworkers of America, to re-employ all strikers not convicted of crime or to submit to a final arbitration of all grievances by a Federal commission, are the objections in a letter sent to President Wilson tonight by the operators claiming to produce 70 per cent of the coal of Colorado.

The letter was a reply to the communication in which the President urged the operators to adopt the plan suggested by Hywel Davies and William R. Fairley, Federal mediators, for ending the coal miners' strike.

The operators expressed doubt as to the impartiality of the Federal mediators.

The operators objected both to grievance committees and to the proposed Federal grievance committee.

"The unlimited authority of this proposed commission of three persons to be appointed by the President of the United States practically puts the entire control of the most important department of our business in his hands.

Its power to control the conduct of our business far exceeds any of the demands of the United Mineworkers of America."

Octogenarian, Who Lived on 10 Cents Daily, Dies.

John Hicks, Tacoma Basketmaker, Had Coffee and Bread for Breakfast, Had No Lunch, and Soup for Evening Meal.

TACOMA, Wash., Sept. 23.—(Special.)—John Hicks, aged 87, basketmaker and well known local character who lived in a shack on the Northern Pacific right of way, is dead here, after having lived for years on 10 cents a day.

His diet was soup, bread and coffee.

Sixty years ago Hicks is said to have owned 160 acres of land in what is now almost the heart of Chicago.

He first came into local prominence in 1911, when he appealed to the county commissioners to increase his charity allowance from \$2 to \$4 a month, and they outlined his simple method of living.

"In the morning I eat bread and coffee. If it is the skin—use Santeptic Lotion."

KEEP LIVER AND BOWELS REGULAR WITH CASCARETS

No More Headache, Bad Colds, Sour Stomach and Constipation.

Get a 10-cent box now. No odd how had your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear conscience for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the child, the aged, the infirm, the sick, the nervous, the constipated, the bilious—all need a gentle cleansing, too—Advt.

I don't bother to eat anything at noon. It's quite a nuisance eating by one's self anyway," explained Hicks. "Then for my meal in the evening I have soup, I buy a pound of coffee and make it up with milk, and I drink it as long as it will digest the water."

Friends who know the old man well say he persisted to the last in living on his allowance of ten cents a day.

RAILS NEAR MOLALLA

WILLAMETTE VALLEY SOUTHERN PUSHES OUT TRACK CREWS.

Mullino Cut Soon Completed and Grading Is Hurried and Sub-Stations Are Almost Ready.

OREGON CITY, Or., Sept. 23.—(Special.)—The rails of the Willamette Valley Southern will be laid into Molalla by October 15, provided there are no heavy rains during the next three weeks.

The largest cut on the route, near Mullino, will be finished by the latter part of the week. The cut contains 33,000 cubic yards of earth and in its center is 55 feet deep.

Molalla business men have been waiting for an announcement of the completion of the road so as to arrange for a second railroad day such as was celebrated a year ago when the Portland, Eugene & Eastern entered the town.

The foundations for the Beaver Creek sub-station are now completed and for several miles between Oregon City and Mullino the poles are up for the power wires.

At first power from the local plant of the Portland Railway, Light & Power Company will be used, but as soon as the power line from the River Mill generating plant on the Clackamas River is finished the system will be changed.

A second sub-station will be built at Marquam.

A rally will be held in every precinct and interest in both the state and county ticket aroused.

What You Pay for and What You Get

Those people who have been induced to buy cheap pianos under the impression that they were practicing economy, on the whole have paid a high price, as their later experience will prove.

There is no magic in piano making which enables any manufacturer to turn inferior material, by the help of unskilled workmen, into good instruments. And yet only by the sacrifice of quality in both material and labor can pianos be produced to sell at the figures which are often quoted.

There are pianos offered at lower figures than ours, but when we say that for every dollar you invest in one of our instruments you get a dollar's worth of piano value we state a fact which you can prove by a visit to our sales-room. Here are to be seen the broadest and the most select assortment of pianos and player pianos to be found on the Coast.

PASTOR'S RETURN URGED

SALEM CHURCH TO APPEAL TO METHODIST CONFERENCE.

Congregation Is Loud in Praise of Rev. H. N. Avison, Whose Retention Will Be Asked of Bishop Cooke.

SALEM, Or., Sept. 23.—(Special.)—The Methodist Episcopal churches of this city have closed the conference year and the official reports have been made.

Rev. H. N. Avison, pastor of the historic First Church for four years, aided by the last quarterly conference, will present to Bishop Cooke an appeal that he be returned to this charge.

The large congregation backed the request of the conference.

The leader of this organization was very prominent in the campaign to make Salem a dry town, and has already entered the campaign to swing a heavy vote in favor of making the state dry.

At the Jason Lee Methodist Episcopal Church the reports were good.

Rev. James Irvine has been the pastor two years. The young pastor of the Leslie Methodist Episcopal organization, Rev. J. C. Spencer, came here from Suverter and is secretary of the Ministerial Union.

Rev. James Moore, district superintendent, will present a report of the Salem district work.
