The History of the People's Store You All Know--Up to the Time It Was Closed by Creditors

The PEOPLE'S STORE is known by every person living in the Northwest, and has a reputation for handling reliable merchandise, standard trade-marked goods known as the best. The failure of this great firm was a shock to the people of Portland. It is not our policy to make excuse for the failure, for we knew nothing about what caused it. We do know, though, that this is one of the highest-grade and best-selected stocks that ever fell into our hands. It is composed of famous lines that are seldom offered under established standard prices, and is such a stock throughout as is generally found in the highest-class men's stores.
