TURK TO LEAVE, HIS VIEWS UNCHANGED

A. Rustem Bey Third Diplomat to Incur Displeasure of United States.

WILSON DEMANDS SILENCE

President Said to Be Determined Not to Receive Diplomats Whose Comments Are Obnoxious to United States

WASHINGTON, Sept. 24 .- A. Rustem Bey today informed President Wilson that he had not changed the views he expressed recently in an interview. He said he had applied to his government for a leave of absence, which he did not doubt would be granted, and would leave the United States within ten days.

leave the United States within ten days.

The objectionable interview was one in which A. Rustem Bey had said that the sending of American warships to Turkey in connection with the report of uprisings against Christians would lead to a serious situation. At the same time he said that while massacres had previously occurred in Turkey, they were the same acts as any people might commit under provocation. He cited the lynchings of colored persone and the "water cures" in the Philippines as illustrations, reminding the American people of those incidents.

Three Diplomats Incur Displeasure. Three Diplomats Incur Displeasure.

At least three diplomats have in-curred the displeasure of President Wilson, it is known. President Wil-son today mentioned no names, how-ever, and told inquiring nwspapermen that he would make no comment, preferring that the discussion be conducted

ferring that the discussion be conducted through the regular channels of the State Department.

The interviews that in particular have givon offense are the one by the Turkish Ambassador, another by Sir Lionel Carden, the British Minister to Mexico, and a third attributed to Baron ten Schoon aversations of the Garage. von Schoen, ex-secretary of the German embassy at Tokio, but formally repudiated by him.

Whether other interviews have been taken up officially has not been divulged.

An explanation of the remarks of Sir Lionel Carden, who criticised President Wilson's Mexican policy, is expected to be forwarded by the British Foreign Office as soon as the Minister, who is en route to England, reaches

Von Schoen Calls in Person. Baron von Schoen called on Acting Secretary Lansing, of the State Department, and personally repudiated an interview in which he was represented as saying that the Japanese hated the American people and that war between the two countries was inevitable. The explanation of the German secretary was accepted by Mr. Lansing.

The deduction which official Washington has drawn from these occurrences is that President Wilson looks with emphatic disfavor on the circulation of propagands by the diplomatic representatives of any of the belilgerents or other governments if that prop-

ents or other governments if that propaganda is calculated to play upon the patriotism or feeling of the American people in a way that might involve the neutrality of the United States.
