

VILLA IS ASKED BY CARRANZA TO QUIT

First Chief Ready to Retire, if General Conference Ratifies Resignation.

FIGHT GOES ON, OTHERWISE

Military Leaders Will Meet Thursday to Consider Provisional President's Withdrawal—Further Hostilities Not Expected.

MEXICO CITY, Sept. 29.—In his reply today to the petition of Francisco Villa's general asking him to resign in favor of Fernando Carranza, General Venustiano Carranza says: "I will gladly take such action if it is ratified by the general conference. If not, I will fight reaction and the old regime, which appears now to be headed by Villa, who, it may be, is an unwitting tool in this, as was Orozco in his fight against Madero."

General Carranza asks General Villa's chief to demand the retirement of their leader as commander of the northern division of the army, in view of his Carranza's willingness to retire if the army so votes.

The general conference of military chiefs will be held Thursday when the resignation of General Carranza will be considered, although but 29 generals will be present. It is believed here that further fighting is unlikely. General Carranza's attitude of abnegation is warmly commended by the local press.

PEACE NEAR, THINKS BRYAN

Catholic Question Will Be to Fore With New Government.

WASHINGTON, Sept. 29.—Optimistic dispatches today from Consul Billman and the Brazilian minister at Mexico City caused Secretary Bryan to inform President Wilson that the prospects for restoration of peace in Mexico were brighter than since the overthrow of Madero by Huerta.

In the light of all advice both from Mexico City and Chihuahua City, General Villa's headquarters, officials here still are confident that the new upheaval threatened by the breach between Villa and Carranza will be averted by the latter's retirement.

The State Department was notified today that the peace commissioners would hold their meeting at Toronto tomorrow. This gave rise to the hope that the conference would be able to agree upon Fernando Iglesias Calderon as the Provisional President in time to have their action placed before the convention to be held at Mexico City Thursday, October 1, to set up the new government.

It is understood that one of the first matters to be brought to the attention of the Provisional President will be the attitude of those now in power toward the Catholics. A demand for full religious liberty for all Mexican citizens probably will be made by Carranza.

The Dutch minister, W. L. F. C. van Rappard, conferred with Secretary Bryan today regarding the Dutch oil interests in the Tampico district of Mexico. These have suffered greatly from political changes.

The text of communication sent to General Carranza by the military officers and civilians of the division of the North, Villa's division, appealing to him to resign in favor of Iglesias was made public by the State Department tonight. In conclusion it says: "On account of the threatened intentional misfortune, and having the intimate conviction that you will be able to place yourself at the height of the circumstances and that you will be inspired by the noble example of all true patriots who have gloriously fallen defending the liberty and honor of our soil that may be contained in your soul as a good Mexican noble sentiment, we ask of you that in the sublime gesture of patriotism you save the republic from the chaos to which it might attain by the failure and irreflections of all.

"General Villa has telegraphed to all our dear brothers in the north, showing the attitude of the north when you in an outburst of patriotism and abnegation turn over the supreme command to the incorruptible Fernando Iglesias Calderon, who by his talent, energy and clean antecedents, will be a guarantee for the revolution, because he will know how to lead the nation by the path of honor and will never be traitor to the ideal of the democratic cause.

"General Villa has declared categorically that the whole of this division will uphold firmly Senor Iglesias and in a high example of patriotism and disinterest already confessed before the whole world that none of his chiefs aspire to the Presidency or Vice-Presidency of the republic, either in a transitory sense or constitutional. The declarations, Honorable Senor First Chief, powerfully reveal that this division will prefer self-sacrifice to the altar of the fatherland and that it is not guided by bastard or small ambitions.

VILLA WANTS AMERICANS OUT

Zapata's View Regarding Occupation of Vera Cruz Not Shared.

EL PASO, Tex., Sept. 29.—General Villa declared that he does not agree with General Zapata, who was reported recently by General Funston to have asked that the American troops remain at Vera Cruz for the present to avoid the port being occupied by Carranza troops during the present embroilment. General Villa telegraphed the Associated Press from La Mancha, Coahuila, in answer to a query, as follows: "My desires always have been that the Mexican people arrange all their troubles, and, consequently, I am not in accord with the protest of General Zapata. All that Mexicans want is that their fatherland be left alone in their control, regardless of the party or faction which controls it."

The differences of opinion between Villa and Zapata were not taken by Villa officials here as indicating any disagreement between these two leaders.

WAR ON DOCTORS IS ON

HEALTH DEFENSE LEAGUE STARTS ACTION AGAINST BUREAU.

Alleged Vaccination of Child Without Consent of Mother, "Bugs" and Recall Occupy Session.

At the meeting of the Health Defense League held last night in the Dekum building the organization decided to take action against the Health Bureau because, the league claims, Eugene Weasley, 7-year-old pupil of the Arleta School, was vaccinated without the consent of his mother.

This was one of the many matters discussed at the meeting, at which Mrs. Charles E. Kitchings presided and Mrs. Lora Little served as secretary. Dr. W. A. Turner, in a talk against the candidacy of Dr. C. J. Smith for the Governorship, said "M. D.'s have no place in politics. Medical inspection in the schools was a puppet of the learning was as obnoxious as a state church.

Rev. V. E. Willings gave his story of the recent Mount Scott trouble regarding the enforcement of vaccination in the schools. He "swatted" Dr. Marcelius, the health authorities and the "incorruptible" Fernando Iglesias Calderon, who by his talent, energy and clean antecedents, will be a guarantee for the revolution, because he will know how to lead the nation by the path of honor and will never be traitor to the ideal of the democratic cause.

CHADWICK TO RUN AGAIN

Snohomish County Mistake Costs Him Choice in First Contest.

OLYMPIA, Wash., Sept. 29.—The state Canvassing Board decided late today that owing to the failure of Snohomish County to return the total number of ballots cast for Supreme Court candidates in the recent primary, it cannot certify Supreme Justice Stephen J. Chadwick as having received a majority, although he has a majority of all the ballots certified to the board by the county auditors.

This places Justice Chadwick with five others on the November ballot. H. D. Crow, E. G. Mills, O. R. Holcomb, John E. Humphries and W. H. Pemberton met with him for him for three positions on the bench.

The only candidates in the state to win their nominations on first choice were the Honorable William E. Humphrey, Republican, for Congress from the First District, and Ole Hanson, Progressive, for United States Senator, each having a total of 69 votes, while the total first choice vote cast in their contests.

FRESHMAN CLASS FORMS

Agricultural College 'Rooks' Organize for Activities of Year.

OREGON AGRICULTURAL COLLEGE, Corvallis, Sept. 29.—(Special).—The freshman class at the Oregon Agricultural College, consisting of more than 400 men and women, was organized yesterday under the supervision of prominent members of the junior class, who, according to precedent, are responsible for the welfare of the "rooks" at the first of the year.

With President Walter Gerke presiding, a number of juniors representing several phases of undergraduate activity made short talks. Nominations were then made for the officers of the class of 1918, who will be chosen at an election to be held shortly.

DEAN SUMNER SAYS WE WILL TAKE POST

Episcopalians Choice Ready to Direct Work of Church as Bishop of Oregon.

TELEGRAM BRINGS WORD

Chicago Man Must Be Indorsed, as Matter of Form, by 100 Bishops and 68 Committees, Which May Take Three Months.

Very Rev. Walter Taylor Sumner, of Chicago, who was elected September 18 to succeed the late Bishop Charles Scadding as bishop of the diocese of Oregon, yesterday telegraphed his acceptance to Dr. A. A. Morrison, chairman of the notification committee which advised him of his election.

"Formal letter of acceptance of election subject to consent of bishops and standing committees sent you today," ran the telegram, which was signed "W. T. Sumner."

Since his election, Dean Sumner has been urged on one hand by the ecclesiastics of Chicago to remain at his important post there, and, on the other hand, by commercial bodies, churches and individuals of Oregon to accept the Oregon bishopric. The Portland Commercial Club and the Portland Chamber of Commerce were among the bodies which urged the acceptance.

Selection Must Be Confirmed.

Before he is consecrated as bishop Rev. Mr. Sumner must, as a matter of form, be indorsed by the standing committees of the Episcopal Church and the 100 bishops of the United States.

Now that he has accepted the choice conferred by the clergy and lay delegates, the standing committee of the diocese of Oregon will notify the standing committee of each diocese in the country and Presiding Bishop Tuttle, of Missouri, who will, in turn, notify the other bishops. With a majority of each house has consented to the election, Bishop Tuttle will appoint a consecrating bishop and assistants who will officiate at the consecration ceremonies, which probably will be held in Chicago. It may be three months before the formalities have been accomplished and Bishop Sumner takes up his residence in Portland.

For eight years Bishop-elect Sumner has served as dean of the Chicago cathedral of St. Peter and Paul. He is superintendent of the city missions in Chicago, and has for many years been prominent in civic and educational work. He was formerly a member of the Chicago School Board and Vice Commission, and has been prominent in educational work. He is a graduate of Dartmouth College and of the Western Theological Seminary, is nearly 40 years old and unmarried.

Salary Fixed at \$3000.

As bishop of the Diocese of Oregon, which comprises the territory west of the Cascade Mountains, Dean Sumner will receive a salary of \$3000 a year, with an allowance of \$500 for traveling expenses and the use of the church residence, Bishopcraft, at 574 Elm street, Portland.

Bishop-elect Sumner is said to decline the title of either a "high churchman" or a "low churchman," being elected as a compromise candidate of the high church and low church forces at the recent convention after three previous elections had been annulled since the lay delegates would not indorse the selection made by the clergy.

Study of Domestic Science and Art in Public Schools Object.

OREGON AGRICULTURAL COLLEGE, Corvallis, September 29.—(Special).—The Oregon Agricultural College will prepare courses of study in domestic science and art and industrial art for the public schools of the state. This arrangement has been made at the request of State Superintendent J. A. Churchill.

The course in industrial arts will be prepared by Professor Frank S. Graves, and the courses in domestic science and art by Dean Henrietta Calvin and Professor Helen Brooks. These courses, with the one recently prepared by Professor Griffin, of the College Extension staff, will provide complete courses of study for all of the industrial work in the Oregon schools. The courses will be published by Superintendent Churchill.

CHIEF FORESTER GRAVES WOULD UTILIZE TIMBER RESOURCES.

Road Building Into Woods to Get Revenue Out of Property Plan of Government, He Says.

HOQUIAM, Wash., Sept. 29.—(Special).—Chief Forester Henry S. Graves, speaking before the Hoquiam Commercial Club last night, declared he believed the resources of a National Forest should be developed so that its most important value from an economic standpoint could be utilized.

He believes all of the resources should be developed as rapidly and fully as possible along lines which will produce a continued economic value and that as many of the resources as possible should be developed.

"I believe," said Mr. Graves, "that a plan might be worked out whereby Congress could appropriate funds for the building of roads and the development of the country against the time when the timber of the forest reserves, which it is not now practical to sell, can be put on the market and made to bring in its proper revenue. I believe that the National Forests should be developed so that they will be producing as quickly as possible. We aim to do develop the National Forests so that they will be a continuing source of revenue."

Mr. Graves arrived in Hoquiam this afternoon, after a five-day trip across the Olympic Mountains from the Hoodport side, coming out at Lake Quinalt. The trip was extremely hard on account of the heavy rain of the last three days.

FIGHT FOR CHILD LOST

MRS. MOLLIE BOWERS, PORTLAND DIVORCEE, DECIDED AGAINST.

Judge Teal, at Dallas, Denies Mother's Plea and Holds Multnomah Hasn't Jurisdiction.

DALLAS, Or., Sept. 29.—(Special).—Maggie Mollie Bowers, Portland divorcee, has lost her fight to recover possession of her 4-year-old daughter from the custody of M. B. Grant, of this city, by virtue of a decision handed down by Judge Teal, of the Juvenile Court of this county this morning. The child, Marian Bowers, is held to be a delinquent, and her custody has been awarded to Mr. and Mrs. Grant. The Multnomah County Juvenile Court is held not to have jurisdiction in the case.

In June, 1913, on complaint of the father of the child, Judge Gatens, of the Juvenile Court of Multnomah County, held that the child was a delinquent and she was turned over to her grandparents, Mr. and Mrs. John Stump, of Dallas. John Stump died when Mrs. Bowers and the child were in Dallas. Arrangements then were made for Mr. and Mrs. M. B. Grant to take the child, the parents to pay for her care.

Tacks Worry Roseburg Autoists.

ROSEBURG, Or., Sept. 29.—(Special).

The police are searching for persons who scattered several thousand tacks about the business street of Roseburg last Sunday. A few automobiles picked up as many as a dozen tacks, and the garages could not keep pace with the day's business. The tacks are of peculiar make and it is not believed they were purchased here.

Westover Questions Answered

Why is Westover the finest view property in Portland?

Because every site is an unobstructed view site. Westover offers the finest view obtainable, coupled with advantages of building on level sites reached by easy, accessible grades.

Why is Westover the ideal location for homes of business men, bankers, lawyers, doctors?

It is the happy medium between living too far out and too close in. Removed from the noise and atmosphere of the city, yet accessible by streetcar and auto.

Why will Westover be sought by the best people for the finest homes?

It is safe from all encroachments of apartment houses and undesirable dwellings. It is the last of Portland's high-class accessible view property.

Other questions will be answered from time to time in this column.

Westover enthusiasm is contagious. At the business men's clubs, on the streetcars, in the homes—wherever people meet—Westover Terraces is a topic of discussion.

Thousands have watched the vast undertaking that changed this rugged hillside into a series of beautiful, gently-sloping terraces and level homesites. And hundreds of men have carried in their minds and hearts the desire to build here when they saw Westover completed.

That time has arrived. While the great hydraulic giants completed the last section of Westover, the lower terraces have been filling up with beautiful homes. These neighbors welcome you to Westover now.

Prices on Westover range as low as 50% under the valuation of surrounding property that compares with these beautiful view sites. Besides, there is a special Westover proposition right now, the like of which has never been known before in Portland. Wouldn't you like to know the particulars?
